**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force**

(\$ in Millions)

<u>Appropriations Summary</u>	<u>FY 2025 Actuals</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2026 Enacted</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2027 Request</u>
Operation and Maintenance, Active Forces	65,192.9	1,928.7	-6,615.0	60,506.6	818.8	12,714.3	74,039.6
Total	65,192.9	1,928.7	-6,615.0	60,506.6	818.8	12,714.3	74,039.6

Description of Operations Financed:

The FY 2027 Operation and Maintenance (O&M) budget funds the day-to-day expenses in support of operational requirements for all Air Force core functions. O&M resources directly support essential combat enablers such as flying operations, cyberspace operations, intelligence, logistics, nuclear deterrence, search and rescue, and special operations activities. O&M funds are used to operate, sustain, and maintain aircraft, weapon systems, command and control systems, and airfield and base facilities, to achieve readiness goals and to improve the working and living conditions for Air Force personnel. Additionally, this funding purchases critical supplies, equipment and fuel, funds training and development of Airmen, and is the source of pay and benefits for many of the Air Force civilian personnel. The FY 2027 budget implements the War Department's fiscal guidance to empower Air Force Core Missions which in turn support the National Defense Strategy (NDS) and Secretary of War priorities.

Narrative Explanation of Changes:

The U.S. Air Force is focused on implementing the NDS priority lines of effort to Defend the Homeland, Deter China in the Indo-Pacific, Increase Burden Sharing with U.S. Allies and Partners, and Supercharge the U.S. Defense Industrial base, as well as the Secretary of War's message of Reestablishing Deterrence, Rebuilding Our Military, and Reviving the Warrior Ethos.

Air Force capabilities are inextricable from providing for the Nation's defense, and the Department continues to lead the joint team by developing and deploying critical capabilities in support of defense priorities. It does so through the execution of its mission statement: Fly, Fight, and Win...Airpower Anytime, Anywhere." The Air Force brings unparalleled speed, agility, survivability, mobility, and strike to the joint fight while simultaneously providing command and control, reconnaissance, and deterrence capabilities. Simply put, no one else can do what the Air Force does, and without its capabilities, the joint force loses.

This Department of the Air Force budget moves past the traditional need to choose between readiness and modernization, treating them instead as equally essential and concurrent priorities. By funding both through a generational investment in the Joint Force, the Department ensures its forces are prepared for current and future challenges. The O&M budget supports both permanent and rotational deployments, exercises, forward presence, and other activities that contribute to maintaining deterrence and support other long-term strategic objectives. The Air Force's fielded forces are in constant global demand providing direct military advantage to combatant commands, the joint force, and allies and partners while supporting diplomatic and whole-of-government efforts. Our adversaries have presented pacing challenges as they invested in long-range precision strike capabilities that have put our forward airbases at risk.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
(\$ in Thousands)

The Air Force O&M budget request totals \$79,815,595,000 to include \$74.0 billion in discretionary funding and 5.8 billion in mandatory funding and represents a price increase of \$.8 billion and a program growth of \$12.7 billion. Detailed changes by Subactivity Group are provided in the OP-5 Exhibits of this Justification Book. The total resources requested for Fiscal Year 2027 continue to build a more lethal and ready Air Force today, while fielding tomorrow's force faster and smarter. This force, funded in this budget, wins across the entire spectrum of military operations. The Air Force will deter if possible, and defeat if necessary, any adversary, in any domain. The Department looks forward to partnering with the Department of War to make the necessary choices now to assure future victory.

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force**

(\$ in Thousands)

The FY 2027 request for O&M, Air Force, includes 74,039,636 thousand of discretionary and \$5,775,959 thousand of mandatory for a total of \$79,815,595 thousand.

The FY 2027 mandatory funds for Real Property Maintenance (11R) includes \$5,395,743 thousand of mandatory to continue efforts from FY2026 of critical investment in foundational readiness and long-term viability of the U.S. Air Force. This funding directly addresses maintenance and repair requirements to support mission assurance, combat readiness, and the quality of life for Airmen.

Additionally, the F-35 program contains \$174,000 thousand of mandatory funds to support Flying Hour (11Y) requirements and \$206,216 thousand of mandatory funds for sustainment (11W) requirements.

The FY 2026 spend plan amount for O&M, Air Force, includes \$60,506,576 thousand of discretionary and \$5,226,359 thousand of mandatory (reconciliation) for a total of \$65,732,935 thousand.

The FY 2025 spend plan amount for O&M, Air Force, includes \$65,192,844 thousand of discretionary and \$351,500 thousand of mandatory (reconciliation) for a total of \$65,544,344 thousand.

31,044.0	1,226.7	-3,324.8	28,945.7	395.2	7,454.3	36,795.2

Description of Strategic Readiness Financed:

The primary focus of the U.S. Air Force readiness funding prioritizes developing personnel, investing in modern technologies, and equipping current forces to ensure a competitive advantage in contested environments. Core readiness includes Primary Combat Forces, Combat Enhancement, Air Operations Training, Weapon System Sustainment, Flying Hour Program and Airlift Operations which are all crucial for projecting power, deterring adversaries, and maintaining the ability to fight both today and in the future. The core readiness accounts prioritize funds for penetrating airframes, modern munitions, survivable refueling, a hardened warfighting network, ensuring the Air Force has a lethal force and avoid unacceptable operational risks that leave the U.S. Air Force inadequately prepared for evolving threats.

The FY 2026 spend plan amount for Readiness \$28,945,698 thousand of discretionary and \$2,259,975 thousand of mandatory (reconciliation) for a total of \$31,205,673 thousand. The mandatory funds are for Readiness programs in FY 2026.

<u>Budget Activity(</u>	<u>FY 2025 Actuals</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2026 Enacted</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2027 Request</u>
Operating Forces (BA-01)	50,991.7	1,411.2	-4,881.3	47,521.6	508.3	11,959.9	59,989.9

This activity funds Air Operations, Base Support, Flying Hour Program, and Primary Combat Forces representing the tip of the spear in global power projection. Primary Combat Weapons includes resources that support two legs of America's nuclear triad: Intercontinental Ballistic Missiles (ICBMs) and the bomber force. Electronic warfare and manned destructive suppression assets enhance the effectiveness of other operational weapons systems. Global Command, Control, Communication, Intelligence (C3I) and Early Warning resources provide Strategic Offensive C3I, Strategic Defensive C3I and Air Force-wide communications. The Air Force-Wide Communications programs support development of a survivable communications capability for worldwide Command and Control (C2) communications during pre-attack, trans-attack and post-attack periods. Finally, the Air Force Weather Program supports combat and specialized operations, management, readiness and sustainment of Air Force weather and limited space environmental capabilities and systems.

Budget Activity 01: Operating Forces - Major Program Changes:

The FY 2027 Operating Forces budget request of \$59.9 billion represents a price increase of \$0.5 billion and a program growth of \$11.9 billion. Detailed changes by Subactivity Group are provided in the OP-5 Exhibits of this Justification Book.

<u>Budget Activity</u>	<u>FY 2025 Actuals</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2026 Enacted</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2027 Request</u>
Mobilization (BA-02)	4,553.5	305.3	-1,255.2	3,603.6	218.0	283.0	4,104.6

This activity funds the global mobility capability that sustains operations through a combination of rapid movement, establishment, and sustainment of combat forces anywhere in the world to deter and defeat aggression, or to provide humanitarian and peacekeeping assistance. The President, the Secretary of War, the Joint Chiefs of Staff, the military Services, and DoW agencies depend heavily on Air Force mobility operations for essential cargo and troop movement in missions across the globe as a major instrument of U.S. national security policy.

Budget Activity 02: Mobilization - Major Program Changes:

The FY 2027 Mobilization budget request of \$4.1 billion represents a price increase of \$0.2 billion and a program growth of \$0.3 billion. Detailed changes by Subactivity Group are provided in the OP-5 Exhibits of this Justification Book.

<u>Budget Activity</u>	<u>FY 2025 Actuals</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2026 Enacted</u>	<u>Price Change</u>	<u>Program Change</u>	<u>FY 2027 Request</u>
Training and Recruiting (BA-03)	3,230.9	65.0	-36.8	3,259.1	47.6	325.0	3,631.7

This activity funds four broad mission areas: Accession Training, Basic and Advanced Skills Training, Professional Development Education, and Other Training and Education Programs which provide a holistic program to develop Airmen throughout their careers. Accession training provides initial enlisted and officer personnel with their basic instructional foundation. Enlisted personnel receive their initial training at Lackland AFB, TX while officers receive formal introductory training through the United States Air Force Academy, Air Force Reserve Officer Training Corps, Officer Training School, or the Airmen Education and Commissioning Program. Basic Skills and Advanced Skills Training includes specialized skill training across the full spectrum of Air Force specialties. This training provides essential skills to operate, maintain, and manage complex weapon systems and associated support structures. For example, flight training programs include initial flight screening, undergraduate pilot training, specialized undergraduate pilot training, specialized undergraduate and advanced navigator training, and pilot instructor training. Professional Development Education funds professional military education programs for commissioned officers, civilians, and noncommissioned officers to enhance and develop critical decision making and leadership skills. Finally, Other Training and Education Programs provide funding for general civilian education and training, tuition assistance for Active Duty personnel, and the Junior Reserve Officer Training Corps.

Budget Activity 03: Training and Recruiting - Major Program Changes:

The FY 2027 Training and Recruiting budget request of \$3.6 billion represents a price increase of \$0.05 billion and program growth of \$0.3 billion. Detailed changes by Subactivity Group are provided in the OP-5 Exhibits of this Justification Book.

Administration and Servicewide Activities (BA-04)	6,416.7	147.3	-441.7	6,122.3	44.9	146.4	6,313.5

This activity funds four broad mission areas integral to the Air Force: Logistics Operations, Servicewide Support, Security Programs, and Support to Other Nations. Logistics Operations includes items such as readiness spares kits and pipeline supply requirements, as well as inter- and intra-theater transport and handling of equipment and munitions. Servicewide Activities ensure combat capabilities through communications and personnel and policy direction, and also supports the Civil Air Patrol across the Total Force. Security Programs include funding for the Air Force Office of Special Investigations and a range of classified activities. Finally, Support to Other Nations funds the Air Force's participation in the North Atlantic Treaty Organization, Supreme Headquarters Allied Powers Europe, and the US Central Command's role in the Cooperative Defense Initiatives.

Budget Activity 04: Administration and Servicewide Activities - Major Program Changes:

The FY 2027 Administration and Servicewide Activities budget request of \$6.4 billion represents a price increase of \$0.04 billion and program increase of \$0.1 billion. Detailed changes by Subactivity Group are provided in the OP-5 Exhibits of this Justification Book.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Primary Combat Forces
(\$ In Thousands)

I. Description of Operations Financed:

Primary Combat Forces and Support is comprised of three major subcategories: (1) fixed wing combat aircraft to include fighters, bombers, and strike assets; (2) nuclear assets to include Intercontinental Ballistic Missiles (ICBMs), the helicopters that support them and the bomber force's air launched missiles; and (3) conventional weapons that provide a strong capability to counter and deter a wide range of threats to the United States and its allies. Funds also pay for civilian personnel, support equipment and associated costs for wing headquarters, fighter squadrons, bomber squadrons, missile squadrons, organizational avionics and consolidated aircraft and missile maintenance. The objective is to increase core readiness and functional proficiency through flying and ground operations training with personnel, equipment and systems that would respond to any war, crisis, contingency or emergency.

II. Force Structure Summary:

Primary Combat Forces and Support aids the operations of fixed wing active fighter, attack, and bomber squadrons worldwide (such as the A-10, B-1, B-2, B-21, B-52, F-15, F-16, F-22, F-35, and F-47 aircraft) and supports Air Force nuclear assets to include the operation and maintenance activities of nine squadrons operating Minuteman III ICBMs, UH-1N Huey helicopters, MH-139 helicopters, the bomber force Air Launched Cruise Missile (AGM-86B) and gravity bombs (B61 and B83). This Subactivity Group will fund initial program support costs for the Ground Based Strategic Deterrent which will replace the current Minuteman III ICBMs. This program also supports conventional weapons such as the Conventional Air-Launched Cruise Missile (CALCM: AGM-86C), Advanced Medium Range Air-to-Air Missile (AMRAAM: AIM-120), Tactical Air-to-Air Missile (AIM-9), Standoff Attack Weapon (AGM-130), Maverick Missile (AGM-65), Sensor Fused Weapon (SFW: CBU-97, 105, 115), Wind Corrected Munitions Dispenser (WCMD: CBU-103, 104, 105), Joint Direct Attack Munitions (JDAM: GBU-31, 32, 38B), Joint Air-to-Surface Standoff Missile (JASSM: AGM-158A), Hellfire Air-to-Ground Missile (AGM-114), Small Diameter Bomb I (SDB: GBM-39B), and Small Diameter Bomb II (SDB: GBU-53B).

(\$ In Thousands)

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$465,321

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$2,130

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$165,996; FTE Base: 1,453)

2) Combat Forces - B-1 Bomber Operations \$38,372

Increases funds for the B-1B aircraft's squadron's operational requirements. This investment supports B-1B squadron's increased operational needs resulting from an increase in B-1B flying hours. The increased funding will cover the maintenance, sustainment and equipment costs; training range access; and weapon storage facilities across their two main operating bases. The B-1 is a key component of the U.S. Air Force's global strike capabilities, requiring robust infrastructure and resources to maintain its readiness and effectiveness in executing world-wide missions. These actions ensure the B-1 is strategically positioned to respond to global threats and supports a wide range of missions, from conventional strike operations to strategic deterrence.

(\$ In Thousands)

3) Nuclear Deterrence Combat Forces - Long Range Stand-Off (LRSO) Operational Beddown..... \$22,782

Increase fully funds the Air Force Global Strike Command's (AFGSC) and the Air Force Installation Mission Support Command's operational expenses for the Air Force's LRSO beddown requirements. This investment sustains the U.S. commitment to maintaining a robust and modern nuclear enterprise and safeguarding national security. The increased funding will cover renovations and minor construction contracts. The increase in resources will ensure AFGSC can maintain a credible and effective nuclear deterrence as the LRSO enters Initial Operational Capability.

OP32:

923 Facility Sustain, Restore Mod By Ct
932 Management and Professional Sup Svs
957 Other Costs-Lands and Structures

(FY 2026 Base: \$252,776)

4) Nuclear Deterrence Combat Forces - MH-139 Helicopters \$62,300

Increase for MH-139 Helicopters supports the DAF's effort to sustain the nuclear triad by funding the security and support missions that enable the triad. This increase supports the MH-139 Helicopters platform for day-to-day operational requirements. With the transition from the UH-1N platform, funding is invested to cover various expenses, including maintenance, fuel management, and training. This action will ensure the MH-139 platform can meet its operational requirements, such as nuclear surety support and other critical functions.

5) Nuclear Deterrence Combat Forces - Remote Visual Assessment (RVA)..... \$16,107

Increase funding supports RVA security technology capabilities used for monitoring top-side activity at its various launch facilities. This technology also supports small Unmanned Aircraft Systems (sUAS) or drones, high-resolution cameras (augments reality and better depth perception), and remote sensing that can be used for infrastructure, evaluating airfields and support intelligence gathering.

OP32:

923 Facility Sustain, Restore Mod By Ct

(FY 2026 Base: \$252,776)

6) Nuclear Deterrence Combat Forces - U.S. Strategic Command (USSTRATCOM) Requirements \$29,800

Increase supports USSTRATCOM with a specific focus on equipment maintenance and the movement of personnel essential to its global mission. USSTRATCOM oversees strategic deterrence, nuclear operations, global strike, and other critical functions, making the readiness and mobility of its personnel and equipment vital to national and allied security. Funding will ensure mission-critical equipment is properly maintained to remain operational and reliable. This will also support transportation and deployment of personnel enabling rapid response to emerging threats, participation in joint exercises, and coordination with allied forces.

OP32:

308 Travel of Persons

922 Equipment Maintenance By Contract

(FY 2026 Base: \$252,776)

7) Precision Attack Combat Forces - B-21 Raider Beddown Support \$138,893

Increase for the B-21 Raider Beddown supports the DAF's effort to field next-generation weapon systems by funding the expansion for B-21 Raider operational beddown requirements to support the ongoing delivery of the new weapon systems, new operating locations and unit standup. Funding supports beddown requirements such as specialized equipment needs, facility furniture, fixtures, and equipment buildout, movement and relocation of people and equipment and airlift support. Funding will support beddown at the planned locations, Ellsworth AFB, South Dakota, Whiteman AFB, Missouri and Dyess AFB, Texas. The increased funding will enable the B-21 Raider to achieve its full potential and successfully support its critical mission objectives.

8) Precision Attack Combat Forces - Indo-Pacific Command (INDOPACOM) Campaigning.....\$153,000
 Increase for INDOPACOM Campaigning supports the DAF's campaigning in the Indo-Pacific effort by funding critical resources within the region, focusing on enhancing deterrence and defense capabilities across a chain of islands from Japan through Taiwan and the Philippines. This strategic requirement aims to prevent Chinese aggression by using advanced basing, distributed operations (i.e., Agile Combat Employment (ACE), etc.), and alliances to maintain a military imbalance favoring US and its partners in the region.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combat Enhancement Forces
(\$ In Thousands)

I. Description of Operations Financed:

Combat Enhancement Forces include Combat Communications; Command and Control operations; Electronic Warfare; Intelligence, Surveillance and Reconnaissance (ISR) functions; Personnel Recovery; and Special Operations Forces (SOF).

Combat Communications includes deployable Command, Control, Communications systems and support combat communications units.

Command and Control funding supports Theater Air Control System (TACS) communications, Tactical Intelligence Cryptologic activities, Air Force Targeting Center, and the Air Force Modeling Simulation program. TACS provides the Joint Force Air Component Commander (JFACC) the ability to plan combined/joint theater air operations through the Air Operations Center (AOC) and perform decentralized execution of the Commander's intent. Components of the TACS include the AOC weapon system, Airborne Warning Control System, Joint Surveillance Target Attack Radar Systems, Control Reporting Center, Air Support Operations Center, Wing Operations Centers, and related command, control, communications computers (C4) capabilities. The Air Force Modeling Simulation program provides training tools for the warfighter including Distributed Mission Training Operations, Wargaming Simulation Centers, and the Air Force Agency for Modeling Simulation.

Electronic Warfare programs include EC-130H Compass Call aircraft, mission planning systems, electronic combat support, shore-based electronic warfare squadrons, combat identification, information warfare flights, and tactical electronic warfare equipment for multiple platforms. Electronic Warfare Integrated Reprogramming updates radar warning receivers based on threat changes, tactical electronic warfare equipment for multiple platforms, and tactical datalink support.

ISR functions include the U-2 Dragon and other manned reconnaissance aircraft, unmanned aircraft systems such as the MQ-9 Reaper and RQ-4 Global Hawk, as well as the Air Force Distributed Common Ground System (DCGS). Air Force DCGS tasks, processes, exploits, and distributes all the ISR collected by the various ISR platforms. Intelligence Cryptologic activities include near real-time intelligence broadcasts worldwide through the Integrated Broadcast Service. These systems provide an intelligence infrastructure to task, collect, process, exploit and disseminate intelligence products through the Air Force and support Combatant Command (CCMD) operations.

Personnel Recovery funding includes active duty Air Reserve Component support for sustainment readiness of legacy HC-130J, HC-130N, HH-60G, HH-60W, and Guardian Angel (GA) units. In addition to funding operational PR units, funding also supports Civil Air Patrol operations, Aero-medical Evacuation units, National Security Preparedness programs, DoW Civil Search and Rescue, Isolated Personnel Reports (ISOPREP) related to Personnel Recovery Command and Control (PRC2) sustainment, the Joint Personnel Recovery Agency, and the Air Force Medical War Reserve Materiel contracts.

Air Force Special Operations Forces funding supports multiple ongoing special operations programs and forces in support of Combatant Commands worldwide to include initial training and equipping of special tactics personnel, sustainment of SOF, Special Warfare Airmen, MC-130 and AC-130 fleets, and vertical lift capability (CV-22).

II. Force Structure Summary:

Supports all Air Force fixed-wing and rotary-wing squadrons, pararescue operations, rescue coordination centers, special operations units, command and control units, and intelligence organizations.

(\$ In Thousands)

a) Annualization of New FY 2026 Program.....	\$0
b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$420,625

1) Civilian Pay - Average Workyear Cost Adjustment..... \$40,387

Increase funding in Civilian Personnel compensation adjusts average workyear costs. Each year, the Air Force uses detailed execution and cost factor analysis to realign and update civilian compensation costs and manpower for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards, and benefit assumptions.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$266,642; FTE Base: 2,126)

2) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$4,062

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$266,642; FTE Base: 2,126; 0 FTE)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combat Enhancement Forces
(\$ In Thousands)

3) Civilian Pay - Workforce Modernization..... \$19,248

Increase funding and manpower **(294 FTEs)** reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Combat Enhancement Forces' Program established requirements. The FY 2027 request reflects the full requirement necessary to support Combat Communications, TACS communication, Tactical Intelligence Cryptologic and ISR activities, and funds Air Force Special Operations and SOF capabilities.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$266,641; FTE Base: 2,126; 294 FTE)

4) Command and Control - Collaborative Combat Aircraft Operations..... \$35,300

Increase for fleet readiness mission of Collaborative Combat Aircraft (CCA) to support our effort to field next-generation weapon systems by funding the Mission Design Series (MDS) at Beale Air Force Base, California. This funding provides operational and maintenance support to ensure the readiness and reliability of the CCA fleet, sustainment activities to keep the aircraft and associated systems in optimal condition over their lifecycle; required renovations and upgrades to facilities ensuring that administration, secure spaces, and operational areas meet mission requirements, and furniture, fixtures, and equipment to outfit these spaces with the necessary tools and infrastructure to accommodate personnel and effective mission operations. Funding is critical to ensuring the operational success of the CCA mission, which involves integrating advanced unmanned and manned aircraft to enhance combat effectiveness, situational awareness, and mission flexibility. The CCA program represents a key step in modernizing air combat capabilities by leveraging autonomous systems to complement traditional aircraft in contested environments.

OP32:

920 Supplies and Equipment (Non-Fund)

(FY 2026 Base: \$594,451)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combat Enhancement Forces
(\$ In Thousands)

5) Command and Control - E-3 Airborne Warning and Control System (AWACS) \$19,852

Increases funds for the E-3 AWACS platform. This investment sustains the E-3's continued operational effectiveness through its ability to operate outside of contested environments and critical role to Airborne Battle Management, Command and Control, and Air Moving Target Indication Capabilities. The increased funding supports increased operational needs resulting from an increase in flying hours and will cover essential, daily operational expenses like personnel training, travel, and equipment maintenance. The increase in funds allows the E-3 to continue providing vital command and control to support military operations.

OP32:

308 Travel of Persons

914 Purchased Communications (Non-DWCF)

932 Management and Professional Sup Svs

935 Training and Leadership Development

987 Other Intra-Government Purchases

989 Other Services

(FY 2026 Base: \$623,485)

6) Command and Control - Joint Simulation Environment (JSE)..... \$62,828

Increase for JSE supports the DAF's effort to enhance high-end training and readiness by funding a cutting-edge virtual simulation platform designed to address critical gaps in current weapon testing and training infrastructure. The JSE provides a highly realistic and adaptable environment for simulating complex combat scenarios, enabling the U.S. military to test and refine advanced weapons systems, tactics, and operational strategies in ways that are not feasible with traditional methods. This funding will support the development, expansion, and sustainment of JSE assets and environments, ensuring the system remains capable of meeting evolving mission requirements. The JSE serves four essential functions: (1) integrated development and testing, allowing seamless evaluation of new systems in a controlled, simulated environment; (2) tactics development, enabling the creation and refinement of innovative combat strategies; (3) advanced training, providing warfighters with immersive, high-fidelity training experiences to prepare for real-world operations; and (4) systems experimentation, facilitating the exploration of emerging technologies and concepts. By investing in JSE enhancements, the military ensures a more efficient, cost-effective, and comprehensive approach to maintaining readiness and technological superiority.

OP32:

(\$ In Thousands)

7) Command and Control - U.S. Air Forces Southern (AFSOUTH) Support..... \$49,000

Increase for AFSOUTH supports our effort to support multinational operations by funding it's mobility and logistical support of its personnel. This will enhance AFSOUTH's ability to maintain operational readiness, foster strong partnerships, and promote stability and security throughout the Western Hemisphere which is essential for executing its mission across Central and South America and the Caribbean.

OP32:

308 Travel of Persons

(FY 2026 Base: \$594,451)

8) ISR Combat Enhancement - Permissive Airborne ISR \$180,652

Increases funds for the Permissive Airborne ISR, enhancing capabilities for Government Owned, Contractor Operated (GOCO) DHC-8 aircraft for specialized missions which are critical for gathering actionable intelligence in low-threat or permissive environments. This investment strengthens the Air Force's abilities to conduct persistent surveillance, improve mission planning, and support a wide range of operations while maintaining a cost-effective approach in less contested environments. The increase funding will cover operational expenses for ISR platforms such as the MQ-9, ensuring they remain effective in providing high-resolution imagery, signals intelligence, and other critical data to inform decision-making and operational planning. Permissive Airborne ISR plays a vital role in monitoring adversary activities and enhancing situational awareness in regions where airspace access is uncontested. These capabilities involve the use of airborne platforms equipped with advanced sensors and communication systems to collect, process, and disseminate real-time intelligence.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Air Operations Training
(\$ In Thousands)

I. Description of Operations Financed:

Air Operations Training consists of fighter initial combat mission training, advanced tactical training for aircrew, and missile launch training for ballistic missile crews. Funding supports Adversary Air (ADAIR) training aircraft, contracted aircraft, training ranges, facilities, equipment, combat simulators, dissimilar air combat training (against different aircraft types), ground training munitions, training deployments, and exercises.

II. Force Structure Summary:

Supports operation of combat training squadrons as well as graduate-level flight instruction. Includes air-to-ground ranges, Major Range and Test Facility Base ranges and electronic scoring sites, U.S. operations at a multi-national electronic warfare range, air-to-air training operations, and combat training exercises.

a) Annualization of New FY 2026 Program.....	\$0
b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$1,233,905

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$1,402

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$117,850; FTE Base: 961; 0 FTE)

2) Civilian Pay - Workforce Modernization..... \$2,319

Increase funding and manpower (**37 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the Presidents Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Air Operations Training Program established requirements. The FY2027 request reflects the full requirement necessary to support mission execution and workforce modernization.

OP32:

101 Executive General Schedule

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Air Operations Training
(\$ In Thousands)

3) Readiness Exercises - Combat Air Forces (CAF) Exercises.....\$841,557

Increase for CAF exercises supports the DAF's effort to enhance high-end training and readiness by funding realistic, large-scale, and technologically advanced training exercises. This funding increase directly enables the "train as we fight" mentality to bolster the joint force lethality needed for strategic competition with near-peer adversaries. This increase enables the Air Force to forge a more cohesive fighting force by expanding its exercise program, including Large Force Exercises (LFE), in pursuit of readiness-enhancing venues and certification events to train alongside joint and allied forces for rapid, large-scale peer conflict. The LFE's will stress several theaters and Combatant Commands, on a global scope, focused on speed and scale that aligns with the demand faced during rapidly escalating crises.

989 Other Services

(FY 2026 Base: \$357,421)

4) Readiness Training - Enhanced Training Realism\$122,000

Increase for Enhanced Training Realism supports the DAF's effort to enhance high-end training and readiness by funding advanced training programs and exercises at Nellis AFB, Nevada the premier training hub for the U.S. Air Force, to ensure pilots and aircrew develop the skills, tactics, and decision-making abilities needed to operate effectively against advanced, near-peer threats in highly contested environments. This funding restores a high level of combat realism to its schools, including the U.S. Air Force Weapons School and large-scale exercises such as Red Flag. Additionally, this supports the development and integration of advanced training systems, including state-of-the-art simulators, realistic threat emulators, and live, virtual, and constructive training environments. These enhancements will replicate the tactics, techniques, and technologies employed by near-peer adversaries, providing pilots with realistic and challenging scenarios that closely mirror modern combat conditions.

(\$ In Thousands)

(FY 2026 Base: \$783,449)

5) Readiness Training - Pilot Production and Absorption\$260,648

Increase for pilot production and absorption supports the DAF's effort to enhance high-end training and readiness by growing the Air Force fighter pilot workforce to meet operational demands and improve readiness levels in the face of increasing competitive global landscape. This funds additional basic course graduates from formal training units by hiring additional instructors, expanding training resources, and enhancing simulator and flight training capabilities. Additionally, this increase boosts combat readiness by improving pilot absorption, the process of integrating newly trained pilots into operational units, where they gain the experience and skills necessary to become fully mission-capable. This funding postures the Air Force to sustain its operational tempo, maintain air superiority, and meet the demands of modern and future combat environments.

OP32:

935 Training and Leadership Development

(FY 2026 Base: \$783,449)

6) Restore Air Operations Training - Transfer from Discretionary to Mandatory\$5,979

Reflects an increase in Air Operations Training funding to restore baseline funding levels after a one-time decrease in FY 2026 due to a transfer of discretionary funding to be sourced from the Reconciliation Bill (Public Law No: 119-21 - One Big Beautiful Bill Act).

OP32:

922 Equipment Maintenance By Contract

(FY 2026 Base: \$1,476,417)

9. Program Decreases\$-66,367

(\$ In Thousands)

1) Civilian Pay - Average Workyear Cost Adjustment.....\$-1,922
Decrease in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$117,850; FTE Base: 961)

2) Efficiency - Contract Services.....\$-64,445
The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Depot Programmed Equipment Maintenance
(\$ In Thousands)

I. Description of Operations Financed:

The funding in Subactivity Group 11M is for the Depot Purchased Equipment Maintenance (DPEM) portion of the Weapon System Sustainment (WSS) in the centrally managed portfolio. This includes all the organic and contract depot level maintenance services for the Air Force and other organizations with Depot Maintenance Inter-service Support Agreements. The customers determine the requirements and provide obligation authority from each of the components in accordance with regulation AFMAN 63-143 Centralized Asset Management Procedures.

II. Force Structure Summary:

In this Subactivity Group, DPEM supports the readiness of the Air Force's front line operating weapon systems. These assets, which provide the United States with a viable deterrent posture, include fighter and bomber aircraft, helicopters, and conventional and strategic missiles such as the Minuteman Intercontinental Ballistic Missile. Collectively, they provide the United States all the core missions of Air Power to produce the effects of Global Vigilance, Global Reach, and Global Power.

The WSS requirements are developed through the Logistics Requirements Determination Process (LRDP), based on operational needs. The LRDP consists of three basic phases: (1) develop requirements, (2) review, collaborate and validate requirements, (3) certify, prioritize and publish requirements. The process is managed by the System Program Managers (SPM) and Program Group Managers (PGM) in the web-based tool named Sustainment Planning, Execution, and Reporting System (SPERS).

The largest WSS sustainment area (DPEM) has individual commodities with their own tailored sub-process specific to aircraft, engines, missiles, other major end items and software. The lead Major Commands have the overall responsibility for the category of weapon systems. They provide the capability to the Joint Force based on current and projected demand for each individual weapon system.

(\$ In Thousands)

1) Command and Control - E-3 \$232,909

Increase the software and sustaining engineering requirements for the E-3, to prolong the lifespan of this critical airborne command and control platform. AWACS provides real-time situational awareness, battle management, and early warning capabilities, enabling the Air Force to maintain air superiority over the horizon in contested environments. This funding addresses increased costs to sustainment for depot-level maintenance, software upgrades, and the replacement of aging components to ensure mission readiness for continued fielding and sustainment of advanced air defense sensors that are critical to the North American Aerospace Defense Command (NORAD) Homeland Defense Mission. The emergence of new, unconventional airborne threats has intensified the need to expand sensor coverage and enhance early warning capabilities both domestically and abroad. This investment directly supports the warfighter and national security by improving the detection and tracking of low, slow, and other asymmetrical threats, which enhances the common air picture and enables a more effective defense.

OP32:

661 AF Consolidated Sustainment

930 Other Depot Maintenance

(FY 2026 Base: \$111,769)

2) Combat Forces - B-1 \$108,521

Increase for B-1 Lancer supports our effort to ensure the continued readiness and effectiveness of this premier 4th generation bomber, a critical asset in the U.S. strategic arsenal with the largest internal payload of any active fleet. Recent inspections have revealed accelerated fatigue and stress on critical wing and fuselage components, requiring additional inspections, repairs, and potentially significant structural modifications. The B-1's unique ability to penetrate advanced air defenses and deliver precision strikes across the globe makes it a cornerstone of U.S. power projection and a vital deterrent against adversaries. This funding supports essential sustainment efforts, addressing these structural concerns while enabling upgrades to critical systems, including low observation coatings, avionics, and mission systems. These enhancements will preserve the B-1's survivability and lethality in contested environments, ensuring it remains capable of meeting evolving threats. This effort in sustainment aligns with the National Defense Strategy's emphasis on readiness, modernization, and maintaining a credible strategic deterrent.

OP32:

661 AF Consolidated Sustainment

Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Depot Programmed Equipment Maintenance
(\$ In Thousands)

3) Nuclear Deterrence Operations - B-2 \$195,079

Increase for the Spirit – B-2 supports our effort to sustain the nuclear triad by funding the B-2 sustainment. This funding ensures the sustainment of the nation’s premier long-range, low-observable, deep-penetrating strategic bomber, which supports the warfighter by enabling the destruction of the most heavily defended and high-value adversary targets. This investment addresses the growing complexity of maintaining the B-2’s unique low-observable characteristics, which are critical to penetrating advanced adversary defenses. As the fleet ages and threats evolve from recent operations, the requirement to sustain these capabilities has intensified, driving increased costs for depot-level maintenance, organic software sustainment, and the replacement of critical reparable components. The funding supports expanded programmed depot maintenance, accelerates critical aft deck repairs, and enables faster implementation of warfighter-submitted software change requests. These efforts directly enhance the B-2’s relevance in current operations to carry to the farthest distance, the heaviest ordinance than any other weapon in the department, all the while remaining a cornerstone of the U.S. nuclear triad. This investment aligns with the National Defense Strategy by prioritizing readiness to address high-end threats and hold our enemies at risk.

OP32:

661 AF Consolidated Sustainment

930 Other Depot Maintenance

(FY 2026 Base: \$413,723)

4) Nuclear Deterrence Operations - Minuteman III - Intercontinental Ballistic Missile (ICBM) \$191,590

Increase for the Minuteman III ICBM ensures the sustainment of the ground-based leg of the nuclear triad, a cornerstone of the United States’ safe, secure, and effective nuclear deterrent. This funding addresses the growing complexity and costs of sustaining the guidance system to proactively repairing test equipment of 60 stands, in addition to the normal Programmed Depot Maintenance (PDM), sustaining engineering to mitigate obsolescence, and operational software sustainment. It also addresses the refurbishment of an increasing number of field returns and funds the critical Integration Support Contract (ISC) to maintain system reliability to deter the only existential threat to the homeland. By ensuring the constant state of readiness of this vital strategic weapon system, the funding directly supports national security by providing a survivable, intercontinental nuclear deterrent and aligns with the National Defense Strategy’s emphasis on strategic stability and deterrence.

(\$ In Thousands)

5) Rapid Global Mobility - KC-135.....\$147,317

Increase is driven by higher labor and material rates for the oldest tanker fleet during aircraft depot and heavy maintenance tasks. Specific depot maintenance activities include corrosion mitigation and engine overhauls, from over 60 years of continuous use during peacetime and contingencies. The KC-135 Stratotanker provides the most utilized aerial refueling capability for the joint and coalition Air Forces, during the transition of the full KC-46 fleet delivery for the U.S Air Force to execute global reach and power.

OP32:

661 AF Consolidated Sustainment

930 Other Depot Maintenance (Non-DWCF)

(FY 2026 Base: \$785,881)

6) Restore Weapon System Sustainment - Transfer from Discretionary to Mandatory.....\$680,538

Reflects an increase in Weapon System Sustainment funding to restore baseline funding levels after a decrease in FY 2026 due to a transfer of discretionary funding to be sourced from the Reconciliation Bill (Public Law No: 119-21 - One Big Beautiful Bill Act).

OP32:

661 Air Force Consolidated Sustainment

930 Other Depot Maintenance

9. Program Decreases.....\$-3,600

a) One-Time FY 2026 Costs\$-3,600

1) P.L. 119-75 - U-2 Depot Maintenance\$-3,600

Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act - Depot.

I. Description of Operations Financed:

Facilities Sustainment, Restoration and Modernization (FSRM) functions include facility and infrastructure sustainment, restoration and modernization, and demolition activities at all Air Force installations, including large life-cycle repair for all Active Force Major Commands (MAJCOMs) and the United States Air Force Academy (USAF). FSRM activities ensure installation facilities, utility systems, and infrastructure are capable of fully supporting mission requirements throughout their economic lives.

Sustainment is performed through a combination of organic workforce and contract support and includes the maintenance and repair activities necessary to keep an inventory of facilities in good working order. It includes regularly scheduled adjustments and inspections, preventive maintenance tasks, and emergency response and service calls for minor repairs. It also includes major repairs or replacement of facility components (usually accomplished by contract) that are expected to occur periodically throughout the life cycle of facilities. This work includes replacement, refinishing, repairing and replacement of heating and cooling systems, tile, carpeting, and similar types of work. It does not include environmental compliance costs, facility leases or other tasks associated with facilities operations (such as custodial services, grounds services, waste disposal and the provision of utilities).

Restoration is the restoration of real property to such a condition that it may be used for its designated purpose. This includes repair or replacement work to restore facilities damaged by inadequate sustainment, excessive age, natural disaster, fire, accident or other causes.

Modernization is the alteration or replacement of facilities solely to implement new or higher standards, to accommodate new functions or to replace building components that typically last more than 50 years (such as the framework or foundation). Modernization also includes infrastructure repairs and minor construction to accommodate changes in mission requirements, including new mission beddowns. Modernization is critical to ensure aging facilities remain capable of supporting mission requirements as they evolve over the long lives of facilities and infrastructure systems.

Recapitalization is the major renovation or reconstruction activities (including facility replacements) needed to keep existing facilities modern and relevant in an environment of changing standards and missions. Recapitalization extends the service life of facilities or restores lost service life. It includes restoration and modernization of existing facilities.

Demolition is performed primarily by contract. Facilities and infrastructure are demolished to free space for future construction and to eliminate obsolete facilities from the real property inventory. Demolition is a key component of the Air Force strategy to consolidate functions, vacate excess and obsolete facilities, and focus sustainment, restoration and modernization funding on facilities intended to function well into the future.

Evaluation Formulas:

The Department of War (DoW) Facilities Sustainment Model (FSM) is used as the standardized model for forecasting Facilities Sustainment resource requirements.

The FSM uses the following formula to develop the sustainment requirement:

Annual Sustainment Requirement = Facility Quantity x Sustainment Cost Factor x Location Factor x Inflation

Terms Defined:

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Real Property Maintenance
(\$ In Thousands)

Facility Quantity - the facility size expressed in the Facility Analysis Category (FAC) unit of measure (such as square feet)

Sustainment Cost Factor - the average annual unit cost (in current year dollars) for sustaining the average size facility in the given FAC

Location Factor - a location adjustment based upon the local costs for labor, equipment, materials, and currency exchange rates (overseas) compared with an overall base-city average

Inflation - factor to adjust current year prices to the target future year

The Department of War uses a sustainment metric which is the comparison of sustainment funding to the requirement for a given year, expressed as a rate:

Sustainment Rate (%) = Sustainment Funding/FSM Requirement

Plant Replacement Value (PRV) is used as the basis for generating recapitalization requirements. The Department standardized formula for calculating PRV is:

PRV = Facility Quantity x Construction Cost Factor x Location Factor x Planning & Design (P&D) Factor x Historical Factor x Contingency Factor x Supervision, Inspection and Overhead (SIOH) x Inflation

Terms Defined:

Facility Quantity - the facility size expressed in the FAC unit of measure (such as square feet)

Construction Cost Factor - the average annual unit cost (in current year dollars) for constructing the average size facility to current standards in the given FAC

Location Factor - a location adjustment based upon the local costs for labor, equipment, materials and currency exchange rates (overseas) compared with an overall base-city average

P&D Factor - an adjustment to account for typical project planning and design costs

Historical Factor - an adjustment for historical architecture and materials (when applicable)

Contingency Factor - an adjustment for typical contingency costs during construction

SIOH - an adjustment for supervision, inspection and overhead costs associated with construction management

Inflation - factor to adjust current year prices to the target future year

Significant categories receiving this support:

Aircraft maintenance and generation complexes

Airfield runways, taxiways and ramps

Critical infrastructure, including utility systems

Command and control facilities

Child Development Centers

Intelligence gathering and analysis facilities

Dormitories and dining facilities

Training ranges and supporting infrastructure

Administrative support facilities for coalition partners

Program Changes	0	3,085,565
NORMALIZED CURRENT ESTIMATE	\$2,953,608	\$6,100,395

The FY 2027 request for Real Property Maintenance includes \$6,100,395 thousand of discretionary and \$5,395,743 thousand of mandatory (reconciliation) for a total of \$11,496,138 thousand. The FY 2027 mandatory funds continue efforts from FY2026 to continue the critical investment in foundational readiness and long-term viability of the U.S. Airforce. This funding directly addresses systemic underinvestment in infrastructure, which has led to a significant backlog of maintenance and repair requirements that threaten mission assurance, combat readiness, and the quality of life for Airmen.

The FY 2026 spend plan for Real Property Maintenance includes \$2,953,608 thousand of discretionary and \$2,785,104 thousand of mandatory (reconciliation) for a total of \$5,738,712 thousand.

(\$ In Thousands)

a) Transfers In	\$0
b) Transfers Out	\$0
8. Program Increases	\$3,196,286
a) Annualization of New FY 2026 Program.....	\$0
b) One-Time FY 2027 Costs	\$212,940
1) Demolition - Reducing Excess Infrastructure.....	\$212,940
Reflects a one-time programmatic increase in demolition focused funding to address the backlog of excess infrastructure in the Real Property Asset Database to eliminate degraded buildings currently consuming crucial resources.	
OP32:	
957 Other Costs-Lands and Structures	
(FY 2026 Base: \$166,237)	
c) Program Growth in FY 2027	\$2,983,346
1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees.....	\$6,972
Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.	
OP32:	
101 Executive General Schedule	
(FY 2026 Base: \$685,673; FTE Base: 7,269)	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Real Property Maintenance
(\$ In Thousands)

2) Civilian Pay - Workforce Modernization.....\$9,433

Increased funding and manpower **(213 FTEs)** reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Real Property Maintenance Program established requirements. The FY 2027 request reflects the full requirement necessary to support facilities sustainment of all Air Force installations and large life-cycle sustainment repair and demolition, restoration, and modernization for all Active Air Force MAJCOMs and USAFA. This program also includes critical maintenance of runways, utility systems, and facilities necessary to support flying operations.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$685,673; FTE Base: 7,269; 213 FTE)

3) Facilities Restoration and Modernization.....\$120,161

Increase in funding to execute targeted restoration and modernization of failed or failing critical infrastructure, directly improving the condition, safety, and operational readiness of the Department's facility inventory. This investment ensures Air Force infrastructure is properly sustained, addressing the most urgent repair needs in alignment with the Infrastructure Investment Action Plan (I2AP) and DoW's strategic focus on facility sustainment. This is restoring Warrior Ethos by investing in the readiness of our facilities and improving the quality of life of our Airman and Guardians

OP32:

957 Other Costs-Lands and Structures

(FY 2026 Base: \$1,770,417)

4) Facilities Sustainment.....\$61,780

Increase in funds to bring Facilities Sustainment to 93% funding level of FSM, greater than the 85% required through Consolidated Budget Review Guidance and in line with the Department's focus on adequately funding sustainment to reduce costly and avoidable Restoration and Modernization activity in the future, improving the overall condition of the Department's facility inventory.

OP32:

957 Other Costs-Lands and Structures

(FY 2026 Base: \$334,816)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force

(\$ In Thousands)

5) Improving Unaccompanied Housing\$285,000

Increases Unaccompanied Housing (UH) funding levels to continue providing support to the highest priority requirements and address findings from the Barracks Task Force. Improvements will increase quality of life standards, reduce issue response time, and address overall restoration and modernization projects to improve housing facilities in poor or failing conditions. The increase in facilities sustainment, restoration, and modernization addresses the deteriorating state of Air Force facilities by providing an enhanced level of sustainment for facilities as well as specifically targeting the restoration and modernization of dormitories to provide serviceable, quality housing to all Airmen. This is restoring Warrior Ethos by investing in the readiness of our facilities and improving the quality of life of our Airmen.

OP32:

957 Other Costs-Lands and Structures

(FY 2026 Base: \$334,816)

6) Restore Real Property Maintenance - Transfer from Discretionary to Mandatory\$2,500,000

Reflects an increase in Real Property Maintenance funding to restore baseline funding levels after a decrease in FY 2026 due to a transfer of discretionary funding to be sourced from the Reconciliation Bill (Public Law No: 119-21 - One Big Beautiful Bill Act).

OP32:

920 Supplies and Materials (Non-Fund)

923 Operation and Maintenance of Facilities

957 Lands and Structures

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Cyberspace Sustainment
(\$ In Thousands)

I. Description of Operations Financed

The funding in Subactivity 11V covers Cyber Sustainment exclusively, which includes the Contractor Logistics Support (CLS), Sustainment Engineering (SE), and Technical Orders (TO). CLS includes depot level maintenance, contracted maintenance, operating command organizational maintenance, repair, materiel management, supply and repair parts management, configuration management, technical data management, training, distribution, failure reporting and analysis. SE is focused on efforts to review, assess, define, and resolve technical or supportability deficiencies revealed in fielded weapon systems, whereas TO provides up-to-date technical data for weapons systems operating in the electro-magnetic domain.

II. Force Structure Summary

The funding in this Subactivity Group supports the readiness of the Air Force's cyber weapon systems. These programs include Air Force Cyber Defense, Air Force Intranet Control, and Distributed Cyber Warfare Operations. Collectively, they provide the United States defensive and offensive capabilities across the ubiquitous electro-magnetic domain.

The Weapons System Sustainment (WSS) requirements are developed through the Logistics Requirements Determination Process (LRDP) based on operational needs. The LRDP consists of three basic phases: (1) develop requirements, (2) review, collaborate and validate requirements, (3) certify, prioritize and publish requirements. The entire process is managed by the System Program Managers (SPM) and Program Group Managers (PGM) in the web-based tool named Sustainment Planning, Execution, and Reporting System (SPERS).

All four WSS sustainment areas (DPEM, CLS, SE & TO) have individual commodities with their own tailored sub-process specific to major end items and software. The lead Major Command has the overall responsibility for the category of weapon systems. They provide the capability to the Joint Force based on the current and projected demand for each individual weapon system.

8. Program Increases \$68,577

a) Annualization of New FY 2026 Program..... \$68,577

1) Cyberspace Superiority - Air Force Cyber Defense..... \$22,774

Increase funds for the software requirements provided by CLS and SE to accomplish the generation, projection, and sustainment of the only combat power to bring physical effects from the digital domain. This directly support 21st Century warfighters through secure and reliable conduct of both defensive and offensive cyber operations mission sets across cyberspace to prepare the battlefield, while disrupting enemy planning, reaction and execution. This funding expands configuration management, technical orders production, testing/validation and on-site squadron support on non-kinetic weapon system platforms that provide 24/7/365 monitoring and defense of U.S. Air Force Non-Secure Internet Protocol Router (NIPR)/Secret Internet Protocol Router (SIPR) computers, networks, and communications against hostile attack.

OP32:

930 Other Depot Maintenance (Non-DWCF)

(FY 2026 Base: \$159,387)

2) Cyberspace Superiority - Air Force Intranet Control..... \$36,064

Increase in funding is critical to the Air Force's ability to operate, defend, and sustain its networks. Increased funding supports the retirement of legacy NIPR gateways and the installation of Next Generation Gateways (NGG) at 13 key locations, enabling DAF transition to a Zero Trust Architecture (ZTA) in compliance with Executive Order 14028 and the DoW's 2027 Zero Trust mandate. Key investments include; Splunk to increase capacity from 14TB to 20TB required for monitoring of USAF network traffic, other software solutions like Versa for virtual routers, Cribl for data logging, and the sustainment of Palo Alto firewalls across 150 bases to ensure robust perimeter defenses for the Air Force Network (AFNET). Modernizing cyberspace capabilities improves mission success rates for the Air Force's ability to deter, detect, and defeat cyber threats from peer competitors, in the most contested domain.

OP32:

930 Other Depot Maintenance (Non-DWCF)

(FY 2026 Base: \$62,436)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Cyberspace Sustainment
(\$ In Thousands)

3) Cyberspace Superiority - Distributed Cyber Warfare Operations \$9,739
 Increase funding to the Distributed Cyber Warfare Operations (DCWO) portfolio to expand tailorable architectures for Cyber Weapons such as; Infrastructure On Network (ION), Telephony Network Operations (TNO), and Off Network (OFFNET) to deliver non-kinetic effects solutions and payload delivery in all war-fighters' theaters and every domain. These Cyber Warfare Mission Systems conduct cutting-edge capabilities for the warfighter, through agile end to end acquisition of software and hardware tests or repairs, at pace with adversary's dynamic network and architecture developments.

OP32:
 930 Other Depot Maintenance (Non-DWCF)

(FY 2026 Base: \$56,551)

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$0

9. Program Decreases \$-32,500

a) One-Time FY 2026 Costs \$-32,500

1) P.L. 119-75 - AI/ML for National Security \$-15,000
 Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act - AI/ML for national security.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Contractor Logistics Support
(\$ In Thousands)

I. Description of Operations Financed:

The funding in Subactivity Group 11W is for Contractor Logistics Support (CLS), Sustaining Engineering (SE) and the Technical Orders (TO) portion of the Weapon System Sustainment (WSS) and resides in the centrally managed portfolio. CLS provides various functions such as depot level maintenance, repair, materiel management, supply and repair parts management, and technical data management. SE resolves technical or supportability deficiencies while the TOs ensure up-to-date technical data for sustainment in fielded weapon systems.

II. Force Structure Summary:

The funding in this Subactivity Group, supports CLS, SE, and TO requirements enabling the readiness of the Air Force's weapon systems. These assets are categorized as Combat Air Forces, Helo Operations, Mobility Air Forces, Nuclear Deterrence, Formal and Readiness Training. Collectively, they provide the United States all the core missions of Air Power to produce the effects of Global Vigilance, Global Reach, and Global Power.

The WSS requirements are developed through the Logistics Requirements Determination Process (LRDP) based on operational needs. The LRDP consists of three basic phases: (1) develop requirements, (2) review, collaborate and validate requirements, (3) certify, prioritize and publish requirements. The entire process is managed by the System Program Managers (SPM) and Program Group Managers (PGM), in the web-based tool named Sustainment Planning, Execution, and Reporting System (SPERS).

All the remaining three WSS sustainment areas (CLS, SE & TO) have individual commodities with their own tailored sub-process specific to aircraft, engines, missiles, other major end items and software. The lead Major Commands have the overall responsibility for the category of weapon systems. They provide the capability to the Joint Force based on the current and projected demand for each individual weapon system.

8. Program Increases	\$2,273,596
a) Annualization of New FY 2026 Program.....	\$0
b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$2,273,596
1) Air Superiority - F-22	\$248,190
Increase for the F-22 is required to continue addressing the escalated maintenance demands for Contractor Logistics Support (CLS) services that strip and reapply reversion-prone low observable coatings on the fleet. Funds the aircraft depot heavy maintenance and CLS spares to mitigate risks of diminishing sources. This expands the depot-level maintenance hours, and capacity throughput needed for individual parts, assemblies, or subassemblies based on historical data and contingency demands. The F-22 Raptor is the world's first 5th generation fighter, capable of simultaneously conducting air-to-air and air-to-ground combat missions with near impunity in the most contested airspace. The F-22 program will continue growth in engines, contractor logistics support management, and sustaining engineering, congruent with increased use in current contingencies and to be ready for high-end threats.	
OP32: 922 Equipment Maintenance by Contract 925 Equipment Purchases 930 Other Depot Maintenance (Non-DWCF)	
(FY 2026 Base: \$1,740,227)	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Contractor Logistics Support
(\$ In Thousands)

2) Global Precision Attack - F-35 \$566,918

Increase for the F-35 is driven by increased requirements for Contractor Logistics Support (CLS) Spares and Maintenance intended to address material pricing updates, increased software requirements to address Flight test Support, additional Engines and Depot Level Repairable spare parts. As the premier 5th generation stealth fleet, the Air Force cost share of the Joint and Coalition program is determined by consumption and utilization. The Air Force receives more than 45 aircraft a year into the program, growing the active fleet by 5-9%, all while employing the current pool of inventory into the current contingencies world-wide. These investments into the core readiness accounts are essential in maintaining the F-35's technological advantage and ensuring its continued contribution to global precision attack in accordance with the National Defense Strategy.

OP32:

922 Equipment Maintenance by Contract

930 Other Depot Maintenance (Non-DWCF)

(FY 2026 Base: \$1,595,371)

3) Nuclear Deterrence Operations - Minuteman III \$370,712

Increase for the Minuteman III – ICBM supports the DAF's effort to sustain the nuclear triad by funding sustainment costs for ground-based leg of the triad. This funding will ensure the sustainment of a cornerstone of the United States' safe, secure, and effective nuclear deterrent. This funding addresses the growing complexity and costs of sustaining the guidance system to proactively repairing test equipment of 60 stands, in addition to the normal Programmed Depot Maintenance (PDM), Contract Sustainment Logistic (CLS) support to mitigate obsolescence, and Technical Orders (TO). It also addresses the refurbishment of an increasing number of field returns and funds the critical Integration Support Contract (ISC) to maintain system reliability to deter the only existential threat to the homeland. By ensuring the constant state of readiness of this vital strategic weapon system, the funding directly supports national security by providing a survivable, intercontinental nuclear deterrent and aligns with the National Defense Strategy's emphasis on strategic stability and deterrence.

OP32:

922 Equipment Maintenance by Contract

925 Equipment Purchases

930 Other Depot Maintenance (Non-DWCF)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Flying Hour Program
(\$ In Thousands)

I. Description of Operations Financed:

Readiness is ultimately about the proficiency of our warfighters. The Flying Hour Program (FHP) is the forge that ensures American pilots remain the most capable and best-trained aviators in the world. As a foundational pillar of the National Defense Strategy (NDS), the FHP builds the combat-credible Air Force our nation requires for integrated deterrence. The program directly develops elite aircrew proficiency and guarantees the reliability of our land-based nuclear deterrent, creating a lethal and ready force. The readiness generated by the FHP is a critical enabler for the entire Joint Force, providing air superiority, strategic intelligence, and rapid global mobility essential for mission success.

The FY 2027 FHP request represents a deliberate and fiscally responsible strategy to maximize combat capability. It prioritizes funding for 1.1 million flying hours, the maximum executable level for the total force, to directly resource pilots and maintenance crews with the fuel, spares, and consumables required for safe and reliable aircraft. Although this funding level is below the Department's 1.3-million-hour goal, we are aggressively addressing the challenges that limit flying hour capacity as part of a generational investment in our nation's defense.

Our commitment extends to resolving the pilot shortage by improving retention while increasing production to 1,500 pilots per year, putting us on a path to stabilize the force in FY27. Recognizing the intrinsic link between aircraft availability and pilot training, we are making simultaneous, targeted investments in Weapon System Sustainment and the Working Capital Fund to increase aircraft readiness rates. Such investments will ensure we consistently generate combat airpower at scale.

The resulting resourcing strategy is precisely balanced to meet NDS objectives. It addresses rising sustainment costs, enables the strategic divestment of legacy aircraft, and creates synergy between modernization for future threats and readiness for today's challenges. The FHP remains central to our ability to fly, fix, and fight—underpinning the Department's commitment to delivering decisive airpower for the nation and the Joint Force.

II. Force Structure Summary:

The FHP supports the operations of fixed wing attack, bomber and fighter squadrons, rotary wing squadrons, combat training squadrons, airlift and refueling operations worldwide. The program also supports nine aircraft types at eight flying training wings within the following operating bases: Randolph AFB, Texas; Vance AFB, Oklahoma; Columbus AFB, Mississippi; Laughlin AFB, Texas; Sheppard AFB, Texas; Ft Rucker, Alabama; USAF Academy, Colorado; and Naval Air Station Pensacola, Florida.

c) Program Growth in FY 2027	\$881,908

1) Combat Air Forces \$299,428

The Combat Air Forces (CAF) flying hour program is a fundamental pillar of the National Defense Strategy, essential for realizing integrated deterrence and maintaining a combat-credible force. The program directly generates unrivaled pilot proficiency and combat lethality across our bomber and fighter fleets, ensuring our preparedness to deter aggression and prevail in conflict.

Investment in flying hours provides the live-flying training necessary to hone advanced warfighting skills. Fighter crews develop proficiency in offensive counter-air, precision strike, and the suppression of enemy air defenses—capabilities that are critical for addressing the pacing challenge from the PRC and maintaining stability in the Indo-Pacific. Simultaneously, bomber crews maintain readiness for long-range strategic missions, ensuring a credible deterrent against attacks on the United States, our allies, and our partners.

Funding for the flying hour program yields benefits across the Joint Force and the defense industrial base. It enables the execution of complex, multi-domain tactics in high-fidelity training environments, a critical component for effective campaigning and building a resilient, integrated force. Concurrently, such funding sustains the defense ecosystem by creating predictable demand for the spares and consumables required for sustained, high-tempo operations and surge capabilities.

Ultimately, a fully funded flying hour program produces a more lethal, credible, and resilient force in direct alignment with core NDS priorities. It underpins the capability of our air forces to deliver overwhelming power, thereby guaranteeing the air dominance required to deter adversaries, defeat aggression, and provide the Joint Force with the freedom of action necessary to protect the homeland and our national interests.

2) Formal Training \$184,524

The Formal Training Program is the bedrock of airpower readiness, directly supporting the National Defense Strategy's imperatives to build a resilient Joint Force and enduring advantages. Defined by a "quality of hours" philosophy, every training hour is engineered to maximize combat skill retention, producing aviators prepared for high-end strategic competition. To meet the strategic goal of increased pilot production, a critical investment is required to cover the corresponding and escalating costs for fuel, spares, and consumables associated with a higher operational tempo.

Investment in formal training prioritizes preparation for conflict against a pacing challenge by integrating our most advanced platforms into the curriculum. Flying missions in the F-35 Lightning II provides unparalleled, real-world experience, allowing new pilots to master the cognitive demands of sensor fusion, data management, and low-observable tactics. Hands-on experience in a networked, 5th-generation environment is critical for developing the tactical acumen required to dominate in highly contested, multi-domain environments and enhance the lethality of the entire Joint Force.

Ultimately, a comprehensive training continuum that combines foundational airmanship with advanced, platform-specific experience produces a more lethal and adaptable aviator. The program is essential for generating warfighters capable of executing the complex demands of the National Defense Strategy, ensuring the United States maintains a decisive airpower advantage.

(\$ In Thousands)

3) Mobility Air Forces\$326,194

The Mobility Air Forces (MAF) flying hour program is the foundational enabler of global power projection, providing the United States with the strategic reach necessary to support integrated deterrence for Combat Forces. To build a resilient Joint Force prepared for strategic competition, increased funding is essential, particularly as the costs of fuel, parts, and complex sustainment continue to escalate. These flight hours are critical for mastering large-scale force employment and long-range precision strikes, which are vital for effective campaigning against pacing challenges. Without sufficient funding to meet these demands, pilot proficiency will decline, the combat radius of air and naval assets will be severely limited, and the ability to sustain the force will degrade, thereby curtailing strategic options in a global crisis.

A ready and capable tanker fleet underpins the credibility of the entire Joint Force, directly addressing the National Defense Strategy's priority of deterring aggression, particularly in the Indo-Pacific. By ensuring aircrews are proficient in complex, contested environments, the U.S. demonstrates a strategic reach that complicates adversary planning and strengthens the assurance of our allies. This makes MAF readiness inseparably linked to the readiness of the entire Joint Force.

Funding prioritizes the flying of our modern tanker fleet through the continued fielding of the KC-46A Pegasus while reinforcing the legacy KC-135R/T fleet. With enhanced capabilities in refueling, the KC-46A represents a significant leap forward in supporting operations within a contested environment. The combination of a modernized fleet and highly trained aircrews ensures the endurance required for any Joint Force package.

Ultimately, this investment enhances the agility, lethality, and sustainment of the force. By enabling the rapid deployment and sustained employment of combat power, the MAF flying hour program is a critical element of deterrence, allowing the Joint Force to respond to crises with the speed, flexibility, and decisiveness required in a complex global security environment.

I. Description of Operations Financed:

Provides funding for installation support functions, engineering, and environmental programs in support of Air Force installations including the U.S. Air Force Academy. The program sustains mission capability, enhances quality of life, enables workforce productivity, and provides infrastructure support. Significant categories of support are listed below.

Unaccompanied Personnel Housing (UPH) Services

UPH Services include management and execution of government-owned, leased, contracted, or privatized UPH. Unaccompanied Personnel Housing includes Permanent Party UPH services management, initial issue of furnishings (furniture, appliances, and equipment) for newly constructed and renovated facilities, and management of replacement furnishings (repair, replace, control, moving and handling, inventory, warehousing, and disposal).

Child and Youth Programs

This category assists Department of War (DoW) military and civilian personnel in balancing the competing demands of family life and accomplishment of the DoW mission by managing and delivering a system of quality, available, and affordable programs and services (child development, school age, and youth program services) for eligible children and youth from birth through 18 years of age.

Warfighter and Family Services

Provides principal mission readiness resources for leaders at all levels, service members and their families, qualifying DoW personnel and their families, deployed civilians, and military retirees and their families by offering information, education, prevention and intervention, and services necessary to address the unique personal and family readiness needs of the mobile and/or deployed military community.

Morale, Welfare and Recreation (MWR)

Provides appropriated fund resources for all Category A activities (Mission-Sustaining Activities) in support of programs that promote the physical and mental well-being of military members, their families, and other authorized users. Provides appropriated fund resources for some Category B activities (Community Support Programs) in support of programs, closely related to mission sustaining programs, which satisfy the physiological and psychological needs of military members, their families, and other authorized users. Provides appropriated fund resources for minimal Category C activities (Revenue-Generating Programs) in support of programs at designated remote and isolated locations as defined and authorized.

Lodging

Includes Temporary Duty (TDY) Lodging and Permanent Change of Station (PCS) Lodging. It provides resources for lodging and related services to authorized TDY personnel to support mission readiness and maintain maximum occupancy in DoW facilities to reduce official travel costs. As well, it provides resources for lodging and related services to authorized personnel and family members to support PCS travel and maintain maximum occupancy in DoW facilities to reduce official and personal travel costs.

Airfield Operations:

Provides contract airfield services for transient U.S. military aircraft and aircrew.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Base Support
(\$ In Thousands)

Information Technology (IT)

Includes delivery of services consisting of secure and non-secure fixed voice communications, wireless voice, data and video connectivity services, and video conferencing services. Provides infrastructure support (design, installation, and maintenance) of special circuits/systems in support of life, safety, and security systems; and monitoring and control systems. Provides collaboration and messaging services and tools for the workforce to communicate and share information. Provides application and web-hosting operations and management services. Provides for IT Operations Centers including systems and processes necessary to allow customers to have seamless access to IT applications and solutions. Provides Desktop Management Support for end-user hardware and software services and tools. Provides Service Desk Support, Continuity of Operations and Disaster Recovery support, requirements and training for common-user software applications, Information Assurance, and Multimedia and Visual Information. Provides printing, publication, and duplication services.

The Air Force manages IT using an Enterprise Information Technology (EIT) governance process which provide oversight and management of Air Force enterprise-wide IT strategies, investment priorities, performance measures, portfolio roadmaps, and risks.

Command Support

Includes Wing command staff agency functions formerly part of Base Operating Support (BOS) such as Command Management, Inspector General, Plans and Programs, Public Affairs, Judge Advocate General, Financial Management, Procurement, Chaplain Ministries, Ground, Flight and Weapons Safety.

Collateral Equipment

Provides procurement of furniture, fixtures, and other furnishings associated with Facilities Restoration and Modernization projects, including projects in the Military Construction program. This does not include dormitory and housing furnishings.

Civilian Personnel Services

Includes planning, management, coordination, and execution of Civilian Personnel Services for the life-cycle management of human capital at installations for the Appropriated Fund civilian workforce, military personnel and their families.

Military Personnel Services

Provides customer support services that directly provide or indirectly result in tangible benefits to the military community or the mission. Provides military personnel information system customer support services. Includes processing workforce changes required to accomplish the DoW mission.

Installation Law Enforcement (LE) Operations

Includes enforcement of federal, state and military law and installation guidance; issuance of citations, detaining suspects, motor vehicle traffic management, traffic investigations, apprehension and restraint of offenders, and crowd control; crime prevention, crime detection, LE patrols, LE liaison, apprehension of persons who commit crimes on the installation; testifying in prosecution cases; and temporary detention of offenders. This includes protecting, defending, and deterring against criminal activities, conduct of minor investigations, the development of plans for the employment of LE activities and functions that include all processes intended to preserve the principles of law through various strategies.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Base Support
(\$ In Thousands)

Installation Physical Security Protection and Services

Includes personnel, procedures, and equipment measures employed or designed to safeguard personnel, facilities, and property from loss, destruction, espionage, terrorism, or sabotage on the installation; and prevent unauthorized access to facilities, installations, restricted areas, equipment, and materials. This includes regulation of people, material, and vehicles entering or exiting a designated area; mobile and static security activities for the protection of installation or government assets; conduct of physical security inspections and assessments; construction design reviews; special protection of high value or sensitive property and management of installation security systems, plans and funding.

Supply Logistics

Includes eight classes of supply: Class I-Subsistence; Class II-Clothing, individual equipment, and tools; Class III-Petroleum, oils, lubricants; Class IV-Construction materiel; Class VI-Personal demand items; Class VII-Major end items; Class IX-Repair parts and components; and Class X-Material to support non-military programs.

Community Logistics

Includes the execution of installation food services, laundry, and dry cleaning services. Installation food services includes the operation and administration of installation, remote, flight and ground support feeding; but excludes the cost of food, costs of non-installation field support, hospital food services, and Basic Allowances for Subsistence. Laundry and dry cleaning services includes cleaning and pressing textiles, garments, linens and other fabrics. Also, includes organizational clothing and individual equipment, other articles required by installation, and the sewing on of rank and unit patches on a service member's initial issue of clothing.

Transportation Logistics

Includes management and administration of acquisition dispatch, operation, maintenance, and disposal of all non-tactical government owned and controlled vehicles and transportation related equipment used for the day-to-day support of installation operations.

Environmental Conservation and Compliance

Provides for protection and enhancement of natural and cultural resources; consultations with environmental regulators; mapping and planning support systems. Environmental Compliance ensures all federal, state, and local environmental laws are enforced. This is accomplished through sampling, analysis and monitoring; hazardous waste characterization and disposal; underground storage tank removal, repair, and replacement; leak detection and monitoring; spill response and clean-up; environmental surveys; training; and maintenance, repair and minor construction projects for environmental facilities and infrastructure.

Pollution Prevention

Established to prevent future pollution by reducing hazardous material use and release of pollutants into the environment as near zero as feasible to alleviate environmentally harmful discharges to the air, land, surface and ground water.

Facilities Operation

Covers a multitude of critically essential services. Funds mission capability through continuous daily services by purchasing utility commodities such as electricity, natural gas, drinking water, and sewage removal or by internally producing essential utility commodities through central plant operations. Addresses critical infrastructure needs through Power Purchase Agreements (PPAs), Energy Savings Performance Contracts (ESPCs), and Utility Energy Service Contracts (UESCs) by upgrading aging

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Base Support
(\$ In Thousands)

systems and implementing energy-efficient and resilient technologies to improve mission assurance and readiness. Moreover, Utilities Privatization (UP) provides robust and complex infrastructure improvements for critical missions with cost savings and budget predictability. Requirements demonstrate commitment to resilient and cost savings infrastructure, while ensuring long-term viability and support for mission and national security. Further, it provides essential human life safety and protection through activities such as Fire and Emergency Services (911 emergency control centers, fire protection, structural firefighting, aircraft crash rescue, and first responder capabilities); trash and refuse collection, removal, and disposal; cleaning, sanitizing, and bathroom resupply of publicly accessed, administrative, mission, and community support buildings through custodial services; clears snow and ice from roads and airfields; protects aircraft hazards through airfield and street sweeping operations; maintains natural infrastructure (airfield bird hazard management, grass, hazardous trees, weeds control, and wildlife) through grounds maintenance and entomology; code compliance such as cleaning food service hood and ducts, oil/water separators, lift stations, and performing inspections, and certifications on elevators and escalators, ground fuel tanks, cranes and hoists attached to real property, and fire alarms. Supports Base Operating Support (BOS) and Base Maintenance Contract (BMC) annual requirements. Provides Geospatial Engineering capabilities, enterprise information sharing and management capabilities, and facility-related industrial control system operations, maintenance and associated control system cybersecurity measures. Additionally, provides engineering operations, engineering services, and real property management required to support municipal-type activities and includes real property leases to meet mission needs.

II. Force Structure Summary:

This program provides funding for installation support functions, engineering and environmental programs in support of all Active Air Force Major Commands and the United States Air Force Academy. The program sustains mission capability, enhances quality of life, enables workforce productivity, and provides infrastructure support.

(\$ In Thousands)

6. Price Change	\$164,439
7. Transfers	\$-3,810
a) Transfers In	\$0
b) Transfers Out	\$-3,810
1) Civilian Pay - Air Force Civilians to Space Force for Space Acquisition	\$-3,370
Transfer decreases funding and manpower from Base Support (Subactivity Group 11Z, -\$3,370, 35 FTEs) to U.S. Space Force to realign support for the standup of the Space Acquisition Integration Office (SAIO).	
OP32:	
101 Executive General Schedule	
(FY 2026 Base: \$3,332,864; FTE Base: 29,552; -35 FTE)	
2) Learning Connectivity	\$-440
Decrease reflects a transfer from Base Support (Subactivity 11Z -\$440) to Training Support (Subactivity 32D +\$440), to fund a sustainment contract for internet service and equipment at 24 Air Education and Training Command (AETC) bases. Funding will enhance accessibility to the Air Force Learning Services Ecosystem and will be used to expand and replace commercial internet service across training dormitories and mission facilities.	
OP32:	
914 Purchased Communications (Non-DWCF)	
989 Other Services	
(FY 2026 Base: \$364,658)	
8. Program Increases	\$730,447
a) Annualization of New FY 2026 Program	\$0

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Base Support
(\$ In Thousands)

b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$730,447
1) Active Duty Military End Strength Growth - Child and Youth Programs	\$24,883
Increases funds to support the active duty military end strength growth. Funding will be used to recruit additional Family Child Care (FCC) providers, allow for more non-traditional and specialized hourly programs, secure additional spaces for Military Child Care in Your Neighborhood (MCCYN), and provide incrementally increasing operational support. This increase is a programmatic investment to support active duty end strength growth and their accompanying families.	
OP32:	
920 Supplies and Materials (Non-DWCF)	
923 Facility Sustain, Restore Mod By Ct	
959 Other Costs-Insurance Claims & Indem	
964 Other Costs-Subsist & Supt Of Pers	
987 Other Intra-Governmental Purchases	
989 Other Services	
(FY 2026 Base: \$171,182)	
2) Civilian Pay - Average Workyear Cost Adjustment.....	\$75,378
Increased funding in Civilian Personnel compensation adjusts average workyear costs. Each year Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these cost changes as well as updated pay raise, awards, and benefit assumptions.	
OP32:	
101 Executive General Schedule	
(FY 2026 Base: \$3,332,864; FTE Base: 29,552)	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Base Support
(\$ In Thousands)

3) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$37,944
Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$3,332,864; FTE Base: 29,522)

4) Civilian Pay - Workforce Modernization..... \$92,290
Increased funding and manpower **(1,678 FTEs)** reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the Presidents Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Base Support established requirements. The FY 2027 request reflects the full requirement necessary to support mission execution and workforce modernization. These FTEs support mission essential fire, Law Enforcement and emergency services; maintenance and logistics positions; nuclear enterprise support; Air Operations Centers support for Defense Planning Guidance (DPG) priority investments related to expansion, modernization, and diversification of our nuclear deterrent and prioritization of the readiness of forces for the Joint Force.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$3,231,146; FTE Base: 29,552; 1,678 FTE)

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Base Support
(\$ In Thousands)

5) Operational Communications - Enterprise Information Technology (EIT) Compute & Store \$53,710

Funds support Oracle licenses, Enterprise Resource Planning Common Services (ERP-CS), and Cloud One requirements, addressing historical underfunding of Air Force EIT Compute/Store needs. The Oracle Enterprise Software License Agreement enables unlimited use of core Oracle products, critical security patches, and expert support for over 300 Department of the Air Force systems. ERP-CS provides essential cloud infrastructure, cybersecurity, and application support for key DAF ERP systems (e.g. Defense Enterprise Accounting and Management System (DEAMS); Military Personnel Data System (MILPDS); and Maintenance, Repair and Overhaul (MRO)), serving as their foundation. Cloud One consolidates critical capabilities into a secure platform, supporting the Air Force Portal, warfighter applications, AI, data mesh, edge computing, and Zero Trust cybersecurity. This budget ensures Warfighters have the collaborative software and computing tools needed to sustain a ready and capable force.

OP32:

647 DISA Enterprise Computing Centers

914 Purchased Communications (Non-DWCF)

922 Equipment Maintenance By Contract

(FY 2026 Base: \$2,861,420)

6) Operational Communications - Enterprise Information Technology (EIT) Connect \$157,083

Funds support Defense Information Systems Network (DISN) Infrastructure Services (IS) and Base IT Infrastructure Support requirements. The increase corrects historical underfunding of EIT Connect requirements. The DISN-IS program is the foundational service that ensures network connectivity for all daily Department of the Air Force mission. The Base IT Infrastructure Support program ensures IT infrastructure at DAF locations is sustained and functioning, and replaced as hardware fails, reaches end-of-life, or is rendered obsolete as technology continues to advance. This budget ensures Warfighters have the secure connectivity and resilient IT infrastructure to produce a ready and capable force that can meet National Defense Strategy objectives of defending the homeland and deterring China (and other adversaries).

OP32:

671 DISA DISN Subscription Services

914 Purchased Communications (Non-DWCF)

Detail by Subactivity Group: Base Support
(\$ In Thousands)

7) Operational Communications - Enterprise Information Technology (EIT) Enterprise Services.....\$259,159

Funds support Enterprise IT as a Service (EITaaS), Microsoft 365 and Adobe Enterprise Licenses, Installation Emergency Management, and Unified Capabilities (UC) requirements, addressing historical underfunding of EIT Enterprise Services. EITaaS is the Department of the Air Force's core IT modernization strategy, transitioning bases to a secure, cost-effective, and commercially managed "as-a-service" model. Microsoft 365 provides essential productivity, messaging, and collaboration tools for Airmen and civilians, while the Adobe Enterprise License Agreement delivers 560,000 licenses for secure document creation and management. The UC program replaces outdated analog phone systems with a centralized Voice Over Internet Protocol (VOIP) solution, reducing costs and improving communication security and reliability. This budget ensures Warfighters have the collaborative software, secure IT connectivity, and resilient platforms needed to defend the homeland and deter adversaries.

OP32:

914 Purchased Communications (Non-DWCF)

922 Equipment Maintenance By Contract

925 Equipment Purchases (Non-Fund)

(FY 2026 Base: \$2,861,420)

8) Restore Base Support - Transfer from Discretionary to Mandatory\$30,000

Reflects an increase in Base Support funding to restore baseline funding levels after a one-time decrease in FY 2026 due to a transfer of discretionary funding to be sourced from the Reconciliation Bill (Public Law No: 119-21 - One Big Beautiful Bill Act).

OP32:

920 Supplies and Materials (Non-DWCF)

(FY 2026 Base: \$171,182)

9. Program Decreases.....\$-661,947

a) One-Time FY 2026 Costs\$-58,000

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Base Support
(\$ In Thousands)

1) Facilities Operations Support - US Indo-Pacific Command Yap International Airport, Wake Island\$-34,000
 Program execution encountered delays and slipped from FY2025 to FY2026, funding reflects the one-time decrease after increase to support acquisition of land for an agreed upon defense site under appropriate international agreement required to complete the runway extension, parking apron, and taxiway construction at Yap International Airport, Wake Island.

OP32:
 915 Rents (Non-GSA)

(FY 2026 Base: \$1,150,321)

2) P.L. 119-75 - 911 Smartphone-Based Capability\$-10,000
 Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act - Base Operations Support.

OP32:
 920 Supplies and Materials (Non-DWCF)

(FY 2026 Base: \$599,255)

3) P.L. 119-75 - Aqueous Film Forming Foam.....\$-5,000
 Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act - Environmental Quality.

OP32:
 957 Land and Structures

(FY 2026 Base: \$306,386)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Base Support
(\$ In Thousands)

4) P.L. 119-75 - Travel Allowance for Armed Forces Assigned to Alaska..... \$-9,000
Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act - Base
Operations Support.

OP32:
308 Travel of Persons

(FY 2026 Base: \$599,255)

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027 \$-603,947

1) Civilian Pay - Federal Employee Retirement System - Agency Contribution Rates Assumption..... \$-5,671
Decrease in funding reflects updated Federal Employees Retirement System (FERS) contribution rates driven by changes in actuarial
assumptions, workforce demographics, and projected retirement liabilities. these periodic adjustments lower the Department's
required contribution for FERS regular, Revised Annuity Employees (RAE) and Further Revised Annuity Employees (FRAE). The
decrease aligns with funding with the current long-term cost projections while maintaining full support for civilian retirement benefits
and ensuring continued compliance with government-wide retirement requirements.

OP32:
101 Executive General Schedule

Budget Activity: Operating Forces
Detail by Subactivity Group: Base Support
(\$ In Thousands)

2) Efficiency - Contract Services\$-448,692

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:

913 Purchased Utilities (Non-DWCF)
922 Equipment Maintenance By Contract
923 Facility Sustain, Restore Mod By Ct
932 Management and Professional Sup Svs
935 Training and Leadership Development
989 Other Services

(FY 2026 Base: \$7,856,529)

3) Efficiency - Supplies and Materials\$-149,584

Reduces funding for supplies and materials to align with historical execution levels and ensure alignment with the priorities of the Secretary of War to improve the efficiency and effectiveness of our mission and business operations.

OP32:

920 Supplies and Materials (Non-DWCF)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Global C3I & Early Warning
(\$ In Thousands)

I. Description of Operations Financed:

Global Command, Control, Communication, Intelligence (C3I) and Early Warning includes resources that provide Air Force-wide Strategic Offensive and Defensive C3I. Strategic Offensive C3I and Computer (C4I) assets comprise the media through which interconnected airborne and ground-based command centers execute commands for offensive strikes against opposing threats. This capability relies on systems that are fast, accurate, reliable, secure, resistant to destruction and disruption, and tailored to the needs of the President of the United States, Secretary of War, North American Aerospace Defense (NORAD), United States Northern Command (USNORTHCOM), United States Strategic Command (USSTRATCOM) and operational commanders.

Strategic Defensive C3I supports radar surveillance and the tactical warning mission to provide radar surveillance and timely, reliable warning of enemy attack through employment of a worldwide network of assets such as: the Joint Surveillance System long-range radar sites, the North Warning System (NWS), the North Atlantic Defense System, and the Integrated Tactical Warning and Attack Assessment (ITW/AA) system.

Air Force-wide communications programs support development of a survivable communications capability for worldwide Command and Control (C2) communications during pre-attack, trans-attack and post-attack periods. Current Air Force C2 communications provide satellite communication terminal facilities and activation of the Military Strategic and Tactical Relay Mission Control Segment required for system operations. The Military Satellite Communication (MILSATCOM) program will be able to first sustain current capability and then modernize the MILSATCOM infrastructure on a system-to-system basis. The backbone of the entire C2 system is the Global Command and Control System (GCCS), the Department of War's single, compatible, integrated C4I system. GCCS supports all echelons of United States military command structure and provides a single view of the military C4I for the warfighter through a widely distributed user-driven network. Additionally, in an effort to improve C2 capabilities across the Department of War and ensure true joint operations in the future, the Joint Staff established Joint All Domain Command and Control (JADC2). JADC2 efforts in this Subactivity Group include development of the C2 Common Platform which provides a C2 backbone for Joint All Domain capabilities across a multi-region hybrid cloud architecture, training, and the Shadow Operations Center at Nellis Air Force Base, Nevada. JADC2 will enable the structure for resilient and agile operations necessary to ensure US dominance in all domains. It will support multi-domain operations with interdependent alignment across the Joint Force and Combatant Commands. Battlefield Airborne Communications Node (BACN) provides an airborne, persistent and responsive combat network capability for voice and data to command and control centers.

The Air Force is the Executive Agent for the Department of War (DoW) Mission Partner Environment (MPE). MPE enables the DoW to execute its assigned missions with mission partners across all phases of operations that assist combined C2 of coalition forces while meeting the information sharing requirements within existing bi-lateral and multi-lateral agreements. Also, it promotes effective information exchanges and provides applications to enable effective use of the U.S. and partner nation military power. MPE provides the warfighter mission with technology to improve mission effectiveness and cyber security.

The Air Force Air Traffic Control and Landing System (ATCALS) combines Air Force fixed-base, deployable ground facilities and equipment with associated avionics, personnel and procedures to provide safe, orderly and expeditious aerospace vehicle movements on a worldwide basis under visual and instrument flight rule weather conditions. The program encompasses the sustainment, replacement and modification of those systems which are common to the Department of War's international mission and are not provided solely by the Federal Aviation Administration or host nation in a variety of major functional areas. Provides United States Africa Command Air Domain Security and Safety capability that builds partnerships in Africa, and enhances international air mobility and safety.

(\$ In Thousands)

The Air Force Weather Program supports combat and specialized operations, management, readiness and sustainment of Air Force weather and space environmental capabilities and systems. The program also provides weather observing and prediction capabilities supporting the Air Force, Army, Special Forces, Unified Commands, national intelligence and other national agencies. It ensures specialized combat capabilities are provided in support of Air Force, Army and Special Forces operations worldwide, and provides for the centralized strategic support services of the 557th Weather Wing (Offutt AFB, Nebraska), Air Force Combat Climatology Center (Asheville, North Carolina), Air Force Combat Weather Center (Hurlburt Field, Florida), solar observing sites (Australia, Italy, Hawaii, New Mexico, and Massachusetts) and the Joint Typhoon Warning Center (Pearl Harbor, Hawaii). The system also provides space environmental observation and prediction capabilities required to continuously monitor solar activity and to assess the impacts on military space, communications, and navigation systems.

II. Force Structure Summary:

GCCS is located worldwide. Servers are located at host sites, predominantly at Major Command headquarters, Air Component headquarters, and Air Force-supported Combatant Commander sites. Lower echelon GCCS sites are linked net-centrally to a host site to receive access.

The EQ-4 and E-11 are the platforms for Battlefield Airborne Communications Node (BACN) which provides an airborne, persistent and responsive combat network capability for voice and data to command and control centers.

The National Military Command System (NMCS) is a network of sites supporting the nation's strategic watch mission as the crisis center of all Joint Chiefs of Staff activity. The NMCS provides effective coordination and liaison with other United States government agencies such as the White House Situation Room, the Department of State, the Central Intelligence Agency and the National Security Agency.

The Joint Surveillance System has sites in Alaska and in the Continental United States (CONUS). All sites other than one CONUS site are operated jointly with the Federal Aviation Administration. These sites provide Command, Control and Communications (C3) and air surveillance capability in support of NORAD atmospheric tactical warning and attack assessment, air sovereignty and air defense requirements.

Worldwide Joint Strategic Communications consists of USSTRATCOM, Air Force Global Strike Command (AFGSC), and Air Force Chief of Staff strategic command and control missions supported with programs, systems and networks for the dissemination of critical orders to unit command posts and deployable mobile support teams. This program supports command and control of nuclear weapons and provides emergency notification, dispersal and survivability of strategic forces. The CONUS NORAD region is comprised of the joint-use radars located around the periphery of the CONUS, which feed into the Eastern and Western Defense Operations Centers and the regional centers located in Alaska and Hawaii. In addition, there are numerous enroute joint-use radars within the CONUS providing data into the Defensive Operations Centers (DOCs). The DOCs report to the Combined Air Operations Center (CAOC), which reports to the NORAD Commander. The NORAD Commander's direction through the CAOC and DOCs together provide C2 of forces for airspace control and air defense against atmospheric attack. Both receive sensor data from radar sites to detect, track, identify and intercept, if necessary, hostile or non-cooperative aircraft penetrating or operating within United States sovereign airspace.

The North Warning System (replaced the Distant Early Warning system) consists of minimally attended radars, gap filler unattended radars, and engineering logistic set radar at the depot. The program is jointly executed on a 60 percent United States and 40 percent Canada functional basis.

The deployable Air Force ATCALS, in the tactical environment, includes mobile and transportable Airport Surveillance Radar (ASR) and Precision Approach Radar (PAR), mobile control towers, mobile Tactical Air Navigation systems (TACANs), mobile Very High Frequency Omnidirectional Range (VOR), Very High Frequency Omnidirectional Range Collocated Tactical Air (VORTAC), and the Mobile Microwave Landing System. In the fixed-base environment, which includes both the United States National Airspace System and support in overseas host nations, ATCALS include fixed airport surveillance and precision approach radars, control towers, TACANs, VORs, VORTACs, Instrument Landing Systems (ILS) and air traffic control simulators. ATCALS automation and software systems include the Department of War Advanced Automation System, the Airfield Automation System and the Terminal Instrument Procedures development software tool.

(\$ In Thousands)

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees.....\$3,003
 Increase strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:
 101 Executive General Schedule

(FY 2026 Base: \$274,518; FTE Base: 1,892)

2) Civilian Pay - E-11 Restoral\$2,635
 Increase funding and manpower (**16 FTEs**). E-11 serves as a vital communications node, bridging communications between disparate ground and air units. The increase will to enable interoperability between multiple Tactical Data Networks, allowing information to be translated and shared across theater operations.

OP32:
 101 Executive General Schedule

(FY 2026 Base: \$274,518; FTE Base: 1,892; 16 FTE)

3) Civilian Pay - Workforce Modernization.....\$2,293
 Increased funding and manpower (**35 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Global C3I & Early Warning Program established requirements. The FY 2027 request reflects the full requirement necessary to support Air Force-wide Strategic Global Command, Control, Communication, and Intelligence with programs like North Warning System (NWS), North Atlantic Defense System, and the Integrated Tactical warning and Attack Assessment system.

(\$ In Thousands)

4) Global Command and Control - Backscatter Radar \$30,000

The increased funding is allocated to sustain and enhance the high-frequency (HF), bistatic ionospheric backscatter radar system, which is critical for over-the-horizon (OTH) detection and tracking of air and surface targets across vast geographic areas. This advanced radar technology leverages the ionosphere to extend its range far beyond the line of sight, enabling the monitoring of activities and threats at distances that traditional radar systems cannot reach. The system provides long-range early detection, creating valuable decision space and enabling timely responses to potential threats. It will also fund the maintenance and sustainment of the radar infrastructure, ensuring its reliability and operational readiness.

OP32:

985 Research and Development Contracts

(FY 2026 Base: \$780,645)

5) Nuclear Deterrence - Strategic Mission Planning and Execution System (SMPES)..... \$5,571

Increases sustainment efforts critical Nuclear Command, Control and Communications (NC2/NC3) mission-support capabilities enabling Combatant Commander of US Strategic Command (CDRUSSTRATCOM) to develop and execute Level 4 nuclear and conventional war plans, strategic deterrence options, and Global Strike missions. This supports Strategic Mission Planning and Execution System (SMPES) which integrates six legacy programs into a unified system-of-services delivering nuclear planning, analysis, and execution support for the CDRUSSTRATCOM.

OP32:

922 Equipment Maintenance By Contract

(\$ In Thousands)

6) Nuclear Deterrence - Survivable Airborne Operations Center (SAOC)..... \$40,700

The Sustaining the Nuclear Triad effort is focused on maintaining and modernizing the nation's strategic nuclear deterrent across its air, land, and sea-based components. A credible deterrent requires an equally survivable Command and Control (C2) system to lead it. Accordingly, this increase funds the critical SAOC and E-4B platform recapitalization. It ensures SAOC and E-4B remain on schedule and preserves the nation's airborne strategic C2 capability. It further enables transition and bed-down actions, provides critical contract power manpower to reinforce an undermanned organic workforce, and supports security and base upgrades for the new weapon system, strengthening the Air Force's survivable C2.

OP32:

933 Studies, Analysis, and Evaluations

(FY 2026 Base: \$137,042)

7) Restore Global C3I & Early Warning - Transfer from Discretionary to Mandatory \$21,811

Reflects an increase in Global C3I & Early Warning funding to restore baseline funding levels after a one-time decrease in FY 2026 due to a transfer of discretionary funding to be sourced from the Reconciliation Bill (Public Law No: 119-21 - One Big Beautiful Bill Act).

OP32:

a) One-Time FY 2026 Costs	\$-15,000
1) P.L. 119-75 - Automated Cyber Operational Readiness Assessment Compliance Software	\$-5,000
Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act - automated cyber operational readiness assessment compliance software pilot projects.	
OP32:	
671 DISN Infrastructure Services	
2) P.L. 119-75 - National Airborne Operations Center	\$-10,000
Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act - national airborne operations center aircraft availability rating.	
OP32:	
920 Supplies & Materials	
b) Annualization of FY 2026 Program Decreases	\$0
c) Program Decreases in FY 2027	\$-41,787
1) Civilian Pay - Average Workyear Cost Adjustment	\$-27,129
Decrease in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

2) Efficiency - Contract Services\$-14,658

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Other Combat Operations Support Programs
(\$ In Thousands)

I. Description of Operations Financed:

Resources for this Subactivity Group provide manpower, support equipment, facilities and other items in support of combat evaluation groups and strategic missile evaluation squadrons; defensive training; civil engineer heavy repair squadrons (RED HORSE); and Defense System Evaluation Squadrons and Radar Evaluation Squadrons. Additionally, this program provides support to the North American Aerospace Defense Command, U.S. Northern Command, U.S. Central Command Combatant Headquarters, and combatant command activities; organizations, activities, and procedures structured to provide intelligence and intelligence functional support to Air Force Strategic, Mobility and Combat Air Forces.

This Subactivity Group also supports other Air Force tactical force elements; aircraft delivery; commercial imagery tasking, ordering, processing, exploitation, and dissemination system development and operations resources; national security emergency management and preparedness, including military support to civil authorities, civil law enforcement agencies, and other related National Security Emergency Preparedness programs; engineering installation support; air base ground defense and anti-terrorism programs; base physical security systems (such as perimeter detection sensors); nuclear, chemical, and biological defensive equipment items and materials; explosive ordnance disposal forces; expeditionary, readiness, and general engineering programs; specialized equipment to mislead hostile intelligence regarding the disposition of Air Force tactical forces; combat development activities to support experimentation, tests, projects, evaluations necessary to develop and validate new weapon systems, doctrine, material and organization; and electronic combat intelligence support programs.

It identifies critical asset and infrastructure for all Air Force essential functions, missions, and capabilities; prioritizes assets and assesses risk of loss or degradation to the assets; identifies and implements risk management decisions; tracks and monitors operational impact of critical assets and infrastructure. Also, it provides engineering and installation support for sustainment of cable plants, communication distribution systems, building wiring, radio and satellite antennas; and land mobile radio systems throughout Air Combat Command (ACC), Pacific Air Forces (PACAF) and United States Air Forces Europe (USAFE).

II. Force Structure Summary:

Other Combat Operations supports four squadrons of combat development aircraft across multiple platforms to include F-15, F-16, F-22A, and E-9. The Readiness Weapon System Evaluation Program provides centralized expertise to enhance capabilities and employment effectiveness of all Combat Air Force (CAF) fighter, bomber, and tactical weapon systems. Other Combat Operations manages and executes Force Development Evaluation, and Tactics Development and Evaluation of all CAF weapon systems. The program supports three exercises: Combat Archer (air-to-air), Combat Banner (aerial gunnery) and Combat Hammer (air-to-ground). Installation Operations and Security includes Joint Light Tactical Vehicles used by Security Forces to perform armament carrier, ambulance and reconnaissance roles.

C. Reconciliation of Increases and Decreases:

FY 2026 President's Budget Request	\$1,896,441
1. Congressional Adjustments	\$-62,300
a) Distributed Adjustments	\$-40,000
1) P.L. 119-75 - Foreign Ownership, Control, or Influence	\$5,000
2) Unjustified Growth.....	\$-45,000
b) Undistributed Adjustments	\$-1,336
1) Program Decrease - Projected Overestimation of Civilian Compensation	\$-1,336
c) Adjustments to Meet Congressional Intent	\$0
d) General Provisions	\$-20,964
1) Savings Attributable to Efficiencies and Management Improvements.....	\$-20,964
FY 2026 Appropriated Amount.....	\$1,834,141
2. War-Related and Disaster Supplemental Appropriations	\$0
a) Overseas Operations Funding	\$0
b) Military Construction and Emergency Hurricane	\$0
c) X-Year Carryover (Supplemental).....	\$0

3. Fact-of-Life Changes	\$0
a) Functional Transfers	\$0
b) Technical Adjustments	\$0
c) Emergent Requirements	\$0
FY 2026 Appropriated and Supplemental Funding	\$1,834,141
4. Anticipated Reprogramming (Requiring 1415 Actions)	\$0
a) Increases	\$0
b) Decreases	\$0
Revised FY 2026 Estimate	\$1,834,141
5. Less: Emergency Supplemental Funding	\$0
a) Less: War-Related and Disaster Supplemental Appropriation	\$0
b) Less: X-Year Carryover (Supplemental)	\$0
Normalized FY 2026 Current Estimate.....	\$1,834,141
6. Price Change	\$16,239
7. Transfers	\$-12,400
a) Transfers In	\$7,600

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Other Combat Operations Support Programs
(\$ In Thousands)

1) Nuclear Deterrence Operations \$7,600

Increase reflects a transfer of funds to Depot Purchase Equipment Maintenance (Subactivity 11M +\$11,100), Global C3I and Early Warning (Subactivity 12A +\$17,400), **Other Combat Operations Support Programs (Subactivity 12C +\$7,600)**, Mobilization Preparedness (Subactivity 21D +\$7,800), Other Servicewide Activities (Subactivity 42G +\$2,000), and Research, Development, Test, and Evaluation (RDT&E), Air Force (+\$7,100) from Combatant Command Mission Operations - USSTRATCOM (Subactivity 15D - \$53,000) in support of Nuclear Deterrence Operations high-priority items within the nuclear portfolio in order to optimize resource allocation and ensure long-term sustainability of nuclear deterrent capabilities.

OP32:

920 Supplies and Materials (Non-DWCF)

(FY 2026 Base: \$9,598)

b) Transfers Out \$-20,000

1) Sustainment of Regional Base Cluster Positioning \$-20,000

Decrease reflects a transfer of funds from **Other Combat Operations Support Programs (Subactivity Group 12C -\$20,000)** to Mobilization Preparedness (Subactivity Group 21D, +\$20,000), to support increased requirements for Pacific Air Forces (PACAF) Regional Base Clustering Positioning asset sustainment.

OP32:

989 Other Services

(FY 2026 Base: \$948,870)

8. Program Increases \$414,962

a) Annualization of New FY 2026 Program..... \$0

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$414,962

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Other Combat Operations Support Programs
(\$ In Thousands)

1) Civilian Pay - Average Workyear Cost Adjustment..... \$25,326

Increase in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$360,027; FTE Base: 2,579)

2) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$4,374

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$360,027; FTE Base: 2,579)

3) Civilian Pay - Workforce Modernization..... \$6,034

Increased funding and manpower (**81 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Other Combat Operations Support Program's established requirements. The FY 2027 request reflects the full requirement necessary to support combat evaluation groups and strategic missile evaluation squadrons; defensive training; civil engineer heavy repair squadrons (RED HORSE).

OP32:

101 Executive General Schedule

(FY 2026 Base: \$360,027; FTE Base: 2,579; 81 FTE)

DEPARTMENT OF THE AIR FORCE

Budget Activity: Operating Forces
Detail by Subactivity Group: Other Combat Operations Support Programs
(\$ In Thousands)

4) Command and Control Support Activities - Restore Rhombus Guardian..... \$12,914
 Increase supports restoral of configuration of agentic artificial intelligence (AI) capabilities and for Rhombus Guardian, a platform that provides AI-powered predictive and prescriptive decision support solutions for resources planning and programming. Funding will improve strategy for budget alignment, advanced data analytics, and strengthen the decision-making capability of our resourcing workforce. Additionally, the platform strengthens military readiness and lethality by delivering more agile, data-driven, and accurate planning, programming, budgeting, and execution (PPBE) analysis for decision-makers. The platform independently analyzes data, identifies issues, and recommends courses of action. This action will enable the AF to leverage advances in AI to optimize and accelerate resource and readiness decision-making in support of operational and strategic objectives.

OP32:
 989 Other Services

(FY 2026 Base: \$33,802)

5) Installation Operations and Security - Combat Support Training Ranges..... \$69,130
 Increase supports efforts to build full operational capability to combat support training ranges, providing realistic environments for troops to train in critical functions like logistics, engineering, medical support, and base defense. Funding addresses equipment gaps by acquiring tools, vehicles, and systems to replicate battlefield conditions and improve training realism. This investment ensures state-of-the-art resources, enhances readiness, strengthens interoperability, and prepares personnel for the demands of modern warfare.

OP32:
 922 Equipment Maintenance By Contract
 923 Facility Sustain, Restore Mod By Ct
 925 Equipment Purchases (Non-Fund)
 935 Training and Leadership Development

(FY 2026 Base: \$948,870)

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Other Combat Operations Support Programs
(\$ In Thousands)

6) Installation Operations and Security - Non-Kinetic Cruise Missile Defense Program \$176,604
 Increase supports Airbase Air Defense Systems (ABADS) Missile Defense program. Funds fielding and sustainment of supporting sensors, non-kinetic effectors, and other equipment for base defense at up to 30 hub and spoke critical sites across the US. This critical funding will ensure that these sites are properly equipped to defend against missile threats and protect the homeland.

OP32:
 923 Facility Sustain, Restore Mod By Ct
 925 Equipment Purchases (Non-Fund)
 985 Research and Development Contracts

(FY 2026 Base: \$948,870)

7) Installation Operations and Security - Set the Theater (Pacific)..... \$120,580
 Increase for Set the Theater (Pacific) supports the DAF's campaigning in the Indo-Pacific effort by funding Pacific Air Force's (PACAF) dispersal and Agile Combat Employment (ACE) efforts. This funding makes the required investments to prepare and sustain five additional clusters with mission ready material, storage, and sustainment, posturing for Air Force to support INDOPACOM operational requirements. Funding enables ACE operations in the first and second island chains. These efforts enable PACAF to be able to execute an ACE scheme of maneuver.

OP32:
 915 Rents (Non-GSA)
 920 Supplies and Materials (Non-DWCF)
 925 Equipment Purchases (Non-Fund)
 989 Other Services

(FY 2026 Base: \$948,870)

9. Program Decreases \$-105,965

a) One-Time FY 2026 Costs \$-5,000

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Other Combat Operations Support Programs
(\$ In Thousands)

1) P.L. 119-75 - Foreign Ownership, Control, or Influence \$-5,000
Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act for Air Force
Unfunded Requirement - foreign ownership, control, or influence due diligence.

OP32:
932 Management and Professional Sup Svs

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027 \$-100,965

1) Efficiency - Contract Services \$-66,468
The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:
920 Supplies and Materials (Non-DWCF)
932 Management and Professional Sup Svs
933 Studies, Analysis, and Evaluations
934 Engineering and Technical Services
987 Other Intra-Governmental Purchases

(\$ In Thousands)

I. Description of Operations Financed

Cyberspace Activities funds the degree of dominance in cyberspace that permits the secure, reliable conduct of operations and its related air, land, maritime, and space forces without prohibitive interference by an adversary. The Air Force categorizes Defensive Cyberspace and Offensive Cyberspace Operations as various components of Cyberspace Activities. The focus of Cyberspace Activities align with the Department of War (DoW) Cyber Strategy's three primary missions: defend DoW networks and ensure their data is held secure; support joint military commander objectives; and defend U.S. critical infrastructure. Defensive Cyberspace Operations are intended to defend DoW or other friendly cyberspace actors. The Air Force will sustain the operational capability of the Cyberspace Vulnerability Assessment/Hunter mission. They also leverage the Active and Reserve Component to increase capacity and support Cyber Protection Teams. Offensive Cyberspace Operations are intended to project power by the application of force in and through cyberspace. The Air Force is continuing to provide forces to U.S. Cyber Command (USCYBERCOM) for the National and Combat Mission Teams supporting mission objectives.

II. Force Structure Summary

The unique attributes of cyberspace activities require trained and ready cyberspace forces to detect, deter, and respond to threats in cyberspace. Securing and defending cyberspace requires close collaboration among federal, state, and local governments; private sector and allied partners. Cyberspace activities also provide information assurance and cyber security to the Department's networks at all levels.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Cyberspace Activities
(\$ In Thousands)

1) Cyberspace Operations - Enterprise Authorizing Official Funds\$-6,160
Decrease reflects a transfer of funds from **Cyberspace Activities (Subactivity Group 12D -\$6,160)** to Other Servicewide Activities (Subactivity Group 42G +\$6,160), to align programmed funding with historical execution of the funds supporting the Enterprise Authorizing Official. The Enterprise Authorizing Official is the authority permitted to grant an approval to connect to the Air Force information networks. The funds enhance the Air Force's ability to conduct cyber-security risk assessments and sustains the foundational capability to secure and connect Information Technology (IT) systems to the Air Force Information Network.

OP32:
914 Purchased Communications (Non-DWCF)

(FY 2026 Base: \$305,135)

8. Program Increases \$376,264

a) Annualization of New FY 2026 Program..... \$0

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$376,264

1) Civilian Pay - Cybersecurity Service Provider Teams \$6,332
Increased funding and manpower (**42 FTEs**) to ensure the Air Force has the necessary capacity and expertise to Defend the Homeland from the pacing threat in cyberspace. These teams provide monitoring, incident response, and threat mitigation to ensure mission assurance across U.S. Air Force weapon systems and infrastructure.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$58,200; FTE Base: 303; 42 FTE)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Cyberspace Activities
(\$ In Thousands)

2) Civilian Pay - Workforce Modernization \$2,052

Increase funding and manpower **(12 FTEs)** reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data hygiene and manpower validation efforts, resulting in a correction where FY2026 staffing levels were set below the Airlift Operations Program established requirements. The FY2027 request reflects the full requirement necessary to defend DoW networks; support joint military commander objectives; and defend critical infrastructure.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$58,200; FTE Base: 303; 12 FTE)

3) Classified Programs \$83,158

Increase to classified programs. Details will be provided under separate cover with the Classified Operation and Maintenance justification materials.

OP32:

308 Travel of Persons

418 AF Retail Supply (GSD)

914 Purchased Communications (Non-DWCF)

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Cyberspace Activities
(\$ In Thousands)

4) Cyberspace Activities - Cyber Training and Ranges \$21,648

Funds increased Cyber Training and Range infrastructure and capacity (IT equipment, IT equipment maintenance and network connection fees) to meet training throughput requirements for the cyber Initial Qualification Training (IQT) and Initial Skills Training (IST) pipelines. This budget supports efforts to train the personnel needed in Cyber teams and positions to meet offensive and defensive cyber mission objectives. These training ranges provide hands-on realistic environments for testing, developing, and upskilling personnel against evolving threats.

OP32:

914 Purchased Communications (Non-DWCF)

922 Equipment Maintenance By Contract

925 Equipment Purchases (Non-Fund)

(FY 2026 Base: \$129,171)

5) Cyberspace Operations - Cybersecurity Service Provider Teams \$54,155

Increase addresses a critical staffing shortage for the 16th Air Force cybersecurity mission. Funds provide additional contractor personnel for Cybersecurity Service Provider (CSSP) Teams for the Nuclear Command, Control, and Communications (NC3) mission and provides six additional Cyber Operational Readiness Assessment (CORA) teams. Increase also provides for additional travel, training and Information Technology (IT) equipment requirements commensurate with the increase in personnel. This budget supports the cybersecurity requirements that defend nuclear and IT systems and infrastructure, which are key to defending the homeland and deterring adversaries, as per the 2026 National Defense Strategy.

OP32:

308 Travel of Persons

914 Purchased Communications (Non-DWCF)

920 Supplies and Materials (Non-DWCF)

925 Equipment Purchases (Non-Fund)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Cyberspace Activities
(\$ In Thousands)

6) Cyberspace Operations - Information Technology (IT) \$62,218

Increase supports Information Technology (IT) infrastructure by investing in critical asset upgrades, improving end-user experience and enhancing network performance. Funding will support digital modernization initiatives, cloud transition efforts, and cybersecurity Zero Trust capabilities, providing secure access to data anytime and from any network. Increase also funds vulnerability management and IT security support ensuring IT policy-compliant network connectivity for communications across classified and unclassified networks.

OP32:

914 Purchased Communications (Non-DWCF)

922 Equipment Maintenance By Contract

925 Equipment Purchases (Non-Fund)

(FY 2026 Base: \$305,135)

7) Cyberspace Operations - Post-Quantum Crypto Modernization \$25,251

Increase for software-based solutions that will protect air-gapped systems, space/satellite assets and cloud environments to ensure the protection and enhancement of secure communications, Identification Friend or Foe (IFF), Nuclear Command, Control, and Communications (NC3), and other mission-critical capabilities against adversaries' leaps in quantum computing, which continually threaten encrypted communications. This budget ensures DAF cybersecurity capabilities remain at the leading edge, prepared and capable of denying adversaries' access to Air Force and Joint Force critical systems.

OP32:

914 Purchased Communications (Non-DWCF)

(FY 2026 Base: \$305,135)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Cyberspace Activities
(\$ In Thousands)

8) Defensive Cyberspace Operations - Information Technology (IT) \$14,450

This increase is critical for addressing the significant technical debt the Department of the Air Force has accumulated due to deferred investments in IT infrastructure and modernization. This deferment has led to degraded network performance and a diminished user experience, which directly impacts the operational effectiveness of our forces. This efforts are a necessary step to lay the foundation of our transition to a Zero Trust (ZT) security model, consistent with Executive Order 14028 "Improving the Nation's Cyber Security" and National Security Memorandum 8 directing ZT. This increase specifically funds IT services supporting the Department of the Air Force Cyberspace Mission Assurance requirements, ensuring the protection and resilience of Cyber/IT capabilities and infrastructure. The increased funding brings funding into alignment with program requirements.

OP32:

923 Facility Sustain, Restore Mod By Ct

925 Equipment Purchases (Non-Fund)

(FY 2026 Base: \$241,885)

9) Defensive Cyberspace Operations - Information Technology (IT) Control Systems \$107,000

Increase strengthens cybersecurity infrastructure for IT Control Systems, a critical investment to protect Defense Critical Infrastructure and ensure mission resilience. This funding mitigates vulnerabilities, safeguards homeland defense, and aligns with DAF Enterprise objectives by implementing robust authentication controls and leveraging cost-efficient Commercial Cloud Services. Mission Assurance - Cybersecurity (MA-CS) activities proactively reduce risks, ensure operational continuity, and meet Service responsibilities under DODD 3020.40 and DODI 3020.45. Additionally, this increase supports hardening legacy infrastructure to prevent mission disruptions and protect national security interests

OP32:

923 Facility Sustain, Restore Mod By Ct

(FY 2026 Base: \$241,885)

9. Program Decreases \$-88,321

a) One-Time FY 2026 Costs \$-1,700

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Cyberspace Activities
(\$ In Thousands)

1) P.L. 119-75 - Air Force Office of Special Investigations\$-1,700
Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act- Air Force Office of Special Investigations (AFOSI).

OP32:
914 Purchased Communications (Non-Fund)

(FY 2026 Base: \$798,945)

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027\$-86,621

1) Civilian Pay - Average Workyear Cost Adjustment.....\$-5,205
Decrease in funding for Civilian Personnel compensation adjusts average workyear costs. Each year, the Air Force uses detailed execution and cost factor analysis to realign and update civilian compensation costs and manpower for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards, and benefit assumptions.

OP32:

2) Efficiency - Contract Services\$-81,416

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:

a) Annualization of New FY 2026 Program.....	\$0
b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$243,040

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$1,777

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$134,351; FTE Base: 878; 0 FTE)

2) Civilian Pay - Average Workyear Cost Adjustment..... \$12,201

Increase in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$134,351; FTE Base: 832)

(\$ In Thousands)

3) Civilian Pay - Classified Increase.....\$3,423
 Increase funding and manpower **(29 FTEs)** for Classified Program. Details will be provided under separate cover by the Office of the Secretary of War Special Access Program Central Office to properly cleared individuals on a need-to-know basis.

OP32:
 101 Executive General Schedule

(FY 2026 Base: \$134,351; FTE Base: 832; 29 FTE)

4) Civilian Pay - Workforce Modernization.....\$4,401
 Increased funding and manpower **(54 FTEs)** reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Tactical Intelligence and Special Activities Program established requirements. The FY 2027 request reflects the full requirement necessary to support mission execution and workforce modernization.

OP32:
 101 Executive General Schedule

(FY 2026 Base: \$134,351; FTE Base: 832; 54 FTE)

5) Tactical Intelligence and Special Activities - Classified Increase\$202,058
 Increase to Special Access Program. Details will be provided under separate cover by the Office of the Secretary of War Special Access Program Central Office to properly cleared individuals on a need-to-know basis.

OP32:
 920 Supplies and Materials (Non-DWCF)
 925 Equipment Purchases (Non-Fund)

(\$ In Thousands)

6) Tactical Intelligence and Special Activities - Overseas Operations \$19,180
 Increase supports U.S. Air Forces Central Command (AFCENT) and U.S. Central Command (CENTCOM) at strategic Cooperative Security Locations (CSLs). These CSLs are critical forward-operating sites that enable air operations, Intelligence, Surveillance, and Reconnaissance (ISR) missions, and logistics support in the CENTCOM area of responsibility, which includes the Middle East, Central Asia, and parts of South Asia. Funding will bolster logistics capabilities, ensuring the efficient movement of personnel, supplies, and equipment to and from these strategic locations which will ensure these locations remain fully operational and capable of supporting U.S. and partner nations' objectives in the region. This initiative is vital for maintaining operational readiness, advancing strategic objectives, and ensuring the U.S. and its partners can effectively address evolving challenges in a complex and dynamic security environment.

1) Efficiency - Contract Services\$-11,909

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Medical Readiness
(\$ In Thousands)

I. Description of Operations Financed:

Medical Readiness provides medical operational support tailored and designed to enhance operational mission performance and the performance of individual Airmen through targeted, evidence-based interventions in mitigating risks and stressors across the Military Departments. It provides resources for Global Health Engagement and medical readiness programs above the Military Treatment Facility delivering critical support to the operational squadrons across the enterprise. Support includes En-Route Patient Staging, Human Performance Wing Aerospace Physiology & Centrifuge, and other operational medical requirements. Medical Operations also delivers aeromedical capabilities such as patient movement and necessary medical equipment requirements for the installation and/or mission with specific medical capabilities necessary to properly respond to an incident and to identify casualties in the response.

Medical preparedness supports operations with the capability to sustain requirements at the Major Commands, contingency operations and wartime requirements through the provision and prepositioning of medical and war readiness materials, deployable contingency hospitals and clinics, and installation Medical Counter-Chemical, Biological, Radiological, Nuclear (C-CBRN) Installation Response Program. The Medical C-CBRN Installation Response Program increases an installation's capability to respond and generate the mission after an incident and provides the installation with specific medical capabilities necessary to properly identify CBRN agents when responding to an incident and to treat CBRN casualties in the aftermath. Funding supports the maintenance and repair of portable hospitals, clinics and other medical war readiness materials; from critical care-in-the-air to man-portable medical care at the forward edge of the battle area.

Medical Education and Training provides support for education and training opportunities for personnel through the following categories: Medical Readiness Exercises, Human Performance Wing programs, Air Force Institute of Technology medical officer scholarships and loans, Health Professions Scholarship Program, Uniformed Services University of the Health Sciences (USUHS), Professional Military Education, Continuing Medical Education, Functional Training, Long Term Health Education and Training, and Pre-Deployment Training.

II. Force Structure Summary:

Medical readiness activities employ manpower in support of operational, infrastructure support, and training requirements at the Major Commands and overseas operations hospitals.

Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Medical Readiness
(\$ In Thousands)

a) Annualization of New FY 2026 Program.....	\$0
b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$31,964

1) Civilian Pay - Average Workyear Cost Adjustment..... \$1,850

Increase in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$92,451; FTE Base: 618)

2) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$1,434

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$92,451; FTE Base: 618)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Medical Readiness
(\$ In Thousands)

3) Medical Readiness - Air Force Medical Command (AFMEDCOM) Headquarters \$0

The Air Force stood up the Air Force Medical Command (AFMEDCOM) as a Direct Reporting Unit (DRU) to prioritize DAF Medical and operational readiness, achieve parity with sister services, and continue military authority and accountability in Air Force Medicine. During the transfer of resources from Air Force Medical Readiness Agency, AFMEDCOM developed a strategic resourcing effort to ensure DAF is investing in requirements that prioritize DAF Medical and operational readiness. As a result, DAF is moving \$189M from Advisory and Assistance Services to fund Medical Equipment (\$43M), Patient Movement (\$28M), and Medical Care contracts and services (\$118M).

OP32:

418 AF Retail Supply (GSD)

505 Air Force Fund Equipment

702 MAC SAAM

922 Equipment Maintenance By Contract

935 Training and Leadership Development

955 Other Costs-Medical Care

989 Other Services

(FY 2026 Base: \$446,549)

4) Medical Readiness - Set the Theater (Pacific) \$28,680

Increase funds required medical investments to prepare and sustain five additional clusters with mission ready material, storage, and sustainment, posturing for Air Force to support INDOPACOM operational requirements. Funding enables Agile Combat Employment (ACE) operations in the first and second island chains by bolstering aeromedical evacuation capability requirements to meet the demands of a conflict with a peer competitor. These efforts enable PACAF to be able to execute an ACE scheme of maneuver.

OP32:

702 MAC SAAM

925 Equipment Purchases (Non-Fund)

(FY 2026 Base: \$446,549)

9. Program Decreases \$-18,725

a) One-Time FY 2026 Costs \$0

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Medical Readiness
(\$ In Thousands)

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027 \$-18,725

1) Civilian Pay – Average Workyear Cost Adjustment..... \$-1,504

Decreased funding and manpower (**8 FTEs**) reflects workforce modernization efforts to properly align civilian staffing to actual mission requirements within the DAF and to meet internal reorganization efforts and civilian workforce reforms.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$92,451; FTE Base: 618; -8 FTE)

2) Efficiency - Contract Services \$-15,232

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:

923 Facility Sustain, Restore Mod By Ct
935 Training and Leadership Development
987 Other Intra-Governmental Purchases
989 Other Services

(FY 2026 Base: \$446,549)

3) Efficiency - Supplies and Materials \$-1,989

Reduces funding for supplies and materials to align with historical execution levels and ensure alignment with the priorities of the Secretary of War to improve the efficiency and effectiveness of our mission and business operations.

OP32:

920 Supplies and Materials (Non-DWCF)

IV. Performance Criteria and Evaluation Summary

	<u>FY 2025</u>	<u>FY 2026</u>	<u>FY 2027</u>
<u>Medical Readiness</u>	<u>Actuals</u>	<u>Enacted</u>	<u>Request</u>
Medically Ready to Deploy	238,496	231,407	231,407
Dentally Ready to Deploy	254,444	248,713	248,713
Medical Operational Teams			
Operational Support Teams	74	74	0
True North Plus (TN+)	0	0	120
Major Medical War Reserve Material (WRM) Warehouses			
Continental United States (CONUS)	2	2	2
Pacific Air Forces (PACAF)	1	1	1
Medical Education and Training			
Health Profession Scholarship	1,486	1,563	1,610
Other Training - Medical Function Training	15,319	16,018	17,669

1. Readiness numbers do not include Service members who are unavailable to deploy because they have not completed initial training or technical training for a military specialty, are currently cadets, are incarcerated, currently deployed, or have a retirement/separation within 180 days of reporting period.
2. Medically Ready to Deploy includes all active duty military that are medically cleared to deploy (Preventative Health Assessments, Immunizations, Labs, Profiles, etc.).
3. Dentally Ready to Deploy includes all active duty military that are classified as Dental Class 1 or 2. FY 2027 goal is for Dental Readiness Class 1 and 2 to be greater than or equal to 95%.
4. Operational Support Team will transition to True North Plus (TN+) teams on 1 October 2026. The FY 2027 value (120) is an estimate with actuals pending Phase 3 implementation in the 4th quarter of FY 2026.
5. Other Training includes leadership and skills progression courses as well as professional development training.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations - USNORTHCOM
(\$ In Thousands)

I. Description of Operations Financed:

Funding in this Sub Activity Group supports the U.S. Northern Command (USNORTHCOM) and North American Aerospace Defense Command (NORAD). USNORTHCOM's mission is to provide for the functional combatant capability and geographic worldwide mobility of United States' forces. This funding is critical to defending the homeland and deterring foreign adversaries by executing the National Defense Strategy (NDS) of the United States. USNORTHCOM conducts homeland defense, civil support, and security cooperation to defend and secure the U.S. and its interests. It defends America's homeland, its people, national power, and freedom of action. USNORTHCOM also supports federal, state, and National Guard partners in responding to natural and man-made disasters by maintaining close collaboration with Homeland Defense, security, and law enforcement partners. NORAD conducts persistent aerospace warning, aerospace control, and maritime warning in the defense of North America by processing, assessing, and disseminating intelligence and information related to the aerospace and maritime domains, and responding to threats as necessary and the changing conditions in the Arctic.

II. Force Structure Summary:

Combatant Command direct mission funding supports the various geographic and functional missions assigned to support the NDS. The Air Force is the Combatant Command Support Agent (CCSA) for USNORTHCOM and NORAD. As the CCSA, the Air Force is responsible for funding Combatant Command (CCMD) mission areas such as theater security cooperation to focus on strengthening alliances with Mexico and the Bahamas to further regional security and readiness, foster friendly networks with other Department of War, federal interagency, and regional partners to disrupt threat networks and combat weapons of mass destruction. The shared interest and alliance of Canada and the U.S. ensures a security partnership of extraordinary strength and forms the foundation to integrated air defense to deter and counter nation-state and terrorist threats. Associated planning and exercises with our partners ensures realistic training is provided to prepare warfighters executing their missions in the ambiguity of a crisis.

(\$ In Thousands)

1) Civilian Pay - Joint Functional Component Command for Integrated Mis \$9,288
 Transfer increase funding and manpower to **Combatant Command Mission Operations-USNORTHCOM (Subactivity Group 15C, \$9,288, 54 FTEs)** from Combatant Command Mission Operations - SPACECOM (15X, -\$9,288, 54 FTEs) to re-missioned and redesignated Joint Functional Component Command Integrated Missile Defense (JFCC IMD) in support of Golden Dome for America (JTF-Gold).

OP32:
 101 Executive General Schedule

(FY 2026 Base: \$111,706; FTE Base: 625; 54 FTE)

b) Transfers Out \$0

8. Program Increases \$478,442

a) Annualization of New FY 2026 Program..... \$0

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$478,442

1) Civilian Pay - Average Workyear Cost Adjustment..... \$8,681
 Increase in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:
 101 Executive General Schedule

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations - USNORTHCOM
(\$ In Thousands)

2) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees.....\$1,791
Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$111,706; FTE Base: 625)

3) Civilian Pay - Workforce Modernization.....\$4,680
Increase funding and manpower (**52 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Combatant Command Mission Operations - USNORTHCOM Program established requirements. The FY 2027 request reflects the full requirement necessary to support homeland defense, civil support and security cooperation to defend and secure the US and its interest.

4) Direct Mission Support - Advancing Operational Agility and Strategic Readiness \$64,750

Increase funds enable critical operations, activities, and investments for NORAD and USNORTHCOM, addressing emerging priorities tied to new and expanded missions. These resources strengthen presence activities to demonstrate resolve and support agile force deployment, while also covering costs for Counter-Small Uncrewed Aircraft Systems (C-sUAS) fly-away kits. Additionally, the funding facilitates advanced planning for Joint Interagency Task Force-Counter Cartel Headquarters facilities, enhancing the command's ability to counter evolving threats and maintain mission readiness.

OP32:

920 Supplies and Materials (Non-DWCF)

922 Equipment Maintenance By Contract

925 Equipment Purchases (Non-Fund)

(FY 2026 Base: \$105,074)

5) Direct Mission Support - Arctic Operations \$15,826

Increase for Arctic Operations supports the DAF's effort to support multinational operations by funding and increased presence and operational flexibility activities in the Arctic region. Funds will be used for infrastructure and sustainment to support distributed multi-domain operations, conduct Arctic area development plans, and complete required environmental assessments for future construction projects to support expanded operations in the Arctic.

(FY 2026 Base: \$105,074)

7) Direct Mission Support - Homeland Defense Initiatives \$154,392

Increases funding to support the National Defense Strategy's first line of effort to defend the United States Homeland. Funds will be used to enhance area of responsibility awareness and establish presence through Standing Joint Task Force-Southern Border to conduct activities within the homeland to address strategic threats, bolster domestic defenses, and fund activities aimed at safeguarding the sovereignty and territorial integrity of the United States. Additionally, funds support deployment, vehicles utilization, training, and equipping of personnel across designated National Defense Areas.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations – USSTRATCOM
(\$ In Thousands)

I. Description of Operations Financed:

Funding in this Sub Activity Group resources U.S. Strategic Command (USSTRATCOM) core operations and mission support to deter strategic attack and as directed employ forces to guarantee the security of our nation and our allies. Funding supports the operations and administration of the Combatant Command headquarters staff, including civilian pay, travel, supplies, and training. This funding is critical to defending the homeland and deterring foreign adversaries by executing the National Defense Strategy (NDS).

II. Force Structure Summary:

The Air Force is the Combatant Command Support Agent (CCSA) for USSTRATCOM. As the CCSA, the Air Force is responsible for funding Combatant Command (CCMD) Unified Command Plan missions to include strategic deterrence, nuclear operations, joint electromagnetic spectrum operations, global strike, missile defense, analysis and targeting, missile threat assessment, and associated planning and exercises to ensure combat readiness and provide fully capable strategic forces. To achieve this mission, USSTRATCOM demonstrates its capabilities through routine deployments, tests, exercises, and operations of forces to demonstrate we are ready with defense and response options to fight and win. USSTRATCOM integrates its Defense Critical Missions and implements the Joint Strategic Campaign Plan by engaging with the Joint Force, Allies, and partners. USSTRATCOM's forces and capabilities underpin and enable all other Joint Force operations and as a Functional CCMD, coordinates the planning, employment, and operation of Department of War strategic assets crossing multiple geographic command boundaries and through all war fighting domains. USSTRATCOM strengthens relationships by engaging military, government, allied, academic, non-governmental, and commercial entities that contribute toward campaign and alliance objectives.

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations – USSTRATCOM
(\$ In Thousands)

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$134,750

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$3,554

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$260,365; FTE Base: 1,264)

2) Civilian Pay - USSTRATCOM Critical Priorities..... \$5,602

Increase in funding and manpower (**27 FTEs**) to support Joint Force EMSO and IT service expansion capability requirements, ensuring the effectiveness, survivability, and interoperability of joint EMS capabilities, ensuring the continuity of critical operations.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$308,755; FTE Base: 1,480; 27 FTE)

DEPARTMENT OF THE AIR FORCE

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations – USSTRATCOM
(\$ In Thousands)

3) Civilian Pay - Workforce Modernization..... \$21,344

Increase funding and manpower **(232 FTEs)** reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Combatant Command Mission Operations - USSTRATCOM Program established requirements. The FY 2027 request reflects the full requirement necessary to deter strategic attack and employ forces to guarantee the security of our nation and allies. The manpower and funding is critical to defending the homeland and deterring foreign adversaries.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$260,365; FTE Base: 1,264; 232 FTE)

4) Direct Mission Support - Communications Operations..... \$72,990

Increase in funding supports the standardization of Joint Electromagnetic Spectrum Operations (JEMSO) education curriculum and training, as well as the Joint Center for Electromagnetic Readiness (JCER) acquisition of essential equipment and maintenance to assess Joint Force EMSO deficiencies, operational risks, and capability requirements, ensuring the effectiveness, survivability, and interoperability of Joint EMS capabilities.

OP32:

914 Purchased Communications (Non-DWCF)

922 Equipment maintenance by contract

Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations – USSTRATCOM
(\$ In Thousands)

5) Direct Mission Support - Enterprise Information Technology \$31,260

Increase funds address critical requirements to enhance Information Technology (IT) assets and systems, expand headquarters licensing capacity, and support the growth of IT services to ensure the continuity of the Nuclear Command, Control, and Communications enterprise. This includes targeted investments in Defense Information Systems Network infrastructure and ongoing network maintenance. The funding prioritizes essential cost increases for IT services necessary to support the Unified Command Plan, Operational Plans, and other mission-critical functions, ensuring seamless and reliable operations across the enterprise.

OP32:

671 DISN Infrastructure (DISN-IS)

914 Purchased Communications (non-fund)

925 Equipment Purchases (non-fund)

(FY 2026 Base: \$308,755)

9. Program Decreases \$-11,621

a) One-Time FY 2026 Costs \$-250

1) P.L. 115-68 - Women, Peace, and Security Act \$-250

One time decrease following a one time increase for implementation of Public Law 115-68, The Women, Peace, and Security Act of 2017. The act requires participation of women in peace, and security processes, including efforts to reduce radicalization and extremism.

OP32:

932 Management & Professional Support Services

(FY 2026 Base: \$7,131)

b) Annualization of FY 2026 Program Decreases \$0

(\$ In Thousands)

1) Civilian Pay - Average Workyear Cost Adjustment.....\$-5,700
Decrease in Civilian Personnel compensation adjusts average workyear costs. Each year the Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$260,365; FTE Base: 1,264)

2) Civilian Pay - Federal Employee Retirement System - Agency Contribution Rates Assumption.....\$-5,671
Decrease funding reflects updated Federal Employees Retirement System (FERS) contribution rates driven by changes in actuarial assumptions, workforce demographics, and projected retirement liabilities. these periodic adjustments lower the Department's required contribution for FERS regular, Revised Annuity Employees (RAE) and Further Revised Annuity Employees (FRAE). The decrease aligns with funding with the current long-term cost projections while maintaining full support for civilian retirement benefits and ensuring continued compliance with government-wide retirement requirement's.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations – USSTRATCOM
(\$ In Thousands)

I. Description of Operations Financed:

Funding in this Sub Activity Group supports the U.S. Central Command (USCENTCOM) and their mission to provide for the functional combatant capability and geographic worldwide mobility of U.S. Forces. This funding is critical to defending the homeland and deterring foreign adversaries by executing the National Defense Strategy (NDS).

II. Force Structure Summary:

Combatant Command (CCMD) direct mission funding supports the various geographic and functional missions assigned to support the NDS. The Air Force is the Combatant Command Support Agent (CCSA) for USCENTCOM. As the CCSA, the Air Force is responsible for restoring readiness and strengthening alliances as well as funding CCMD mission areas such as theater security cooperation, combating weapons of mass destruction, associated planning and exercises to ensure combat readiness. USCENTCOM is the unified command responsible for the U.S. security interests in nations stretching from the Arabian Gulf region, to the Western portions of the Indian Ocean, and into Central Asia. The region comprises an area larger than the continental United States. USCENTCOM maintains a significant forward presence in the area of responsibility (AOR) consisting of combat forces from all four services. USCENTCOM executes all U.S. military engagement activities, planning, and operations within the area of responsibility to include Syria, Iraq, and Afghanistan. Additionally, USCENTCOM is responsible for peacetime engagement planning and program execution for the five countries in the Central Asian Region: Turkmenistan, Uzbekistan, Kazakhstan, Kyrgyzstan, and Tajikistan.

8. Program Increases	\$61,941
a) Annualization of New FY 2026 Program.....	\$0
b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$61,941

1) Civilian Pay - Vendor Threat Mitigation \$650
 Increases funding and manpower (**4 FTEs**) to Vendor Threat Mitigation (VTM). The DoW uses VTM to identify, analyze, and mitigate risk from contractors supporting military operations. This increase focuses on preventing adversaries from accessing critical technology, installations, and funding.

OP32:
 101 Executive General Schedule

(FY 2026 Base: \$59,358; FTE Base: 315; 4 FTE)

2) Civilian Pay - USCENTCOM Operational Contract Support Manpower..... \$1,172
 Transfer increase funding and manpower (**8 FTEs**) support Operational Contract Support (OCS) ensuring DoW is poised to integrate and take full advantage of commercial capabilities that increase the joint force's freedom of action and employment options effectively and efficiently.

OP32:
 101 Executive General Schedule

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations – USCENTCOM
(\$ In Thousands)

3) Civilian Pay - Workforce Modernization.....\$3,901

Increase funding and manpower (**47 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Combatant Command Mission Operations - USCENTCOM Program established requirements. The FY 2027 request reflects the full requirement necessary to support security interests in nations stretching from the Arabian gulf region, to Western portions of the Indian Ocean, and into Central Asia.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$59,358; FTE Base: 315; 47 FTE)

4) Direct Mission Support - Advanced Technology Infrastructure\$56,218

Increase in funding will enhance the capabilities of OPERATION SHORT CIRCUIT (OSC), a key initiative aimed at countering unmanned systems (UxS) threats before they are deployed. This support will retain essential personnel, provide advanced equipment, and integrate cutting-edge Artificial Intelligence and Machine Learning (AI/ML) tools for data analysis. Additionally, it will maintain a collaborative workspace for military, civilian, and law enforcement partners to improve coordination and streamline operations. These efforts will expand OSC into a global initiative, leveraging a joint team of technical experts, operators, data scientists, and law enforcement professionals to address unmanned systems threats and their supply chains effectively.

OP32:

671 DISA DISN Subscription Services

(FY 2026 Base: \$294,635)

9. Program Decreases.....\$-22,992

a) One-Time FY 2026 Costs\$-10,475

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations – USCENTCOM
(\$ In Thousands)

1) P.L. 115-68 - Women, Peace, and Security Act\$-475
Decrease in funding following one-time increase provided in the FY26 Consolidated Appropriations Act for implementation of Public Law 115-68, Women, Peace, and Security Act of 2017.

OP32:
308 Travel of Persons

(FY 2026 Base: \$6,118)

2) P.L. 119-75 - Autonomous Pilot.....\$-10,000
Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act - autonomous pilot.

OP32:
933 Studies, Analysis, and Evaluations

(FY 2026 Base: \$294,635)

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027\$-12,517

1) Civilian Pay - Average Workyear Cost Adjustment.....\$-2,950
Decrease in Civilian Personnel compensation adjusts average workyear costs. Each year Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:
101 Executive General Schedule

(\$ In Thousands)

2) Efficiency - Contract Services \$-9,567

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations – USSOCOM
(\$ In Thousands)

I. Description of Operations Financed:

Funding in this Sub Activity Group supports the U.S. Special Operations Command (USSOCOM) and mission to provide for the functional combatant capability and geographic worldwide mobility of U.S. Special Operations Forces. This funding is critical to defending the homeland and deterring foreign adversaries by executing the National Defense Strategy (NDS).

II. Force Structure Summary:

Combatant Command (CCMD) direct mission funding supports the various geographic and functional missions assigned to support NDS. The Air Force is the Combatant Command Support Agent (CCSA) for USSOCOM. As the CCSA, the Air Force is responsible for funding CCMD mission areas to provide fully capable Special Operations Forces (SOF) to defend the U.S. and its interests, and to plan and synchronize operations against terrorist networks. To achieve this mission, USSOCOM develops joint SOF tactics, techniques, and procedures for SOF commanders and staff to plan and lead a full range of lethal and non-lethal special operations missions in complex and ambiguous environments. Likewise, SOF personnel serve as key members of Joint, Interagency, and International teams. They require preparation to employ all assigned authorities and apply all available elements of power to accomplish assigned missions. In this capacity, SOF personnel must maintain the highest degree of professionalism, cultural awareness, responsiveness, and initiative.

b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$14,656
1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.	\$55
OP32: 101 Executive General Schedule (FY 2026 Base: \$4,784; FTE Base: 63; 0 FTE)	
2) Civilian Pay - Vendor Threat Mitigation Increases half-year funding and manpower (3 FTEs) to Vendor Threat Mitigation (VTM). The DoW uses VTM to identify, analyze, and mitigate risk from contractors supporting military operations. This increase focuses on preventing adversaries from accessing critical technology, installations, and funding.	\$400
OP32: 101 Executive General Schedule (FY 2026 Base: \$4,784; FTE Base: 63; 3 FTE)	
3) Direct Mission Support - Homeland Defense Initiatives Increase in funds supports expanded operational activities of the U.S. Special Operations Forces executing the National Defense Strategy's first line of effort to defend the United States Homeland. Funds will be used for initiatives that enhance security at the borders, bolster domestic defenses, address strategic threats, and deter foreign adversaries.	\$14,201
OP32: 989 Other Services (FY 2026 Base: \$24,184)

9. Program Decreases.....	\$-1,881
a) One-Time FY 2026 Costs	\$-950
1) P.L. 115-68 - Women, Peace, and Security Act	\$-950
Decrease in funding following one-time increase provided in the FY26 Consolidated Appropriations Act for implementation of Public Law 115-68, Women, Peace, and Security Act of 2017.	
OP32:	
915 Rents (Non-GSA)	
(FY 2026 Base: \$24,184)	
b) Annualization of FY 2026 Program Decreases.....	\$0
c) Program Decreases in FY 2027	\$-931
1) Civilian Pay - Average Workyear Cost Adjustment.....	\$-931
Decrease in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations – USTRANSCOM
(\$ In Thousands)

I. Description of Operations Financed:

Funding in this Sub Activity Group supports the U.S. Transportation Command (USTRANSCOM) and its mission to provide for the functional combatant capability and geographic worldwide mobility of U.S. Forces. This funding is critical to mobilizing forces required for operations supporting the National Defense Strategy (NDS).

II. Force Structure Summary:

Combatant Command (CCMD) direct mission funding supports the various geographic and functional missions assigned to support NDS. The Air Force is the Combatant Command Support Agent (CCSA) for USTRANSCOM. The Air Force is responsible for funding CCMD mission areas such as full-spectrum global mobility solutions and enabling capabilities to customers in peace and war time. USTRANSCOM provides the United States with the most responsive and strategic mobility capability the world has ever seen. USTRANSCOM is a functional unified combatant command with missions assigned by the President in the Unified Command Plan. USTRANSCOM's responsibilities, functions, relationships, and authorities are delineated further in DoW Directive 5158.04, United States Transportation Command, including its role as the Distribution Process Owner (DPO). As DPO, USTRANSCOM implements policy for overseeing and coordinating DoW-wide distribution processes, including force projection, sustainment, redeployment, and retrograde operations. USTRANSCOM is the Mobility Joint Force Provider, identifying and recommending global joint sourcing solutions for all mobility forces and capabilities, and supervising the implementation of sourcing decisions. USTRANSCOM is DoW's Single Manager for Transportation, providing common-user and commercial air, land, and sea transportation, terminal management, and aerial refueling support. The Joint Enabling Capabilities Command (JECC), a subordinate command of USTRANSCOM provides mission-tailored, joint capability packages to combatant commanders in order to facilitate the rapid establishment of joint force headquarters, fulfill Global Response Force execution, and bridge joint operational requirements. USTRANSCOM subordinate commands provide flexible, expeditionary joint planners, public affairs, and communications experts who are experienced in complex joint operations.

(\$ In Thousands)

I. Description of Operations Financed

Funding supports the U.S. Central Command (USCENTCOM) Joint Cyber Cell (JCC) mission to secure and defend command information networks. USCENTCOM is the unified command responsible for the U.S. security interests in nations stretching from the Arabian Gulf region to Western portions of the Indian Ocean and into Central Asia.

II. Force Structure Summary

The Joint Cyber Cell (JCC) accomplishes mission objectives through two lines of effort: protect and defend U.S. cyberspace interests and ensure commander's freedom of action in and through cyberspace by synchronizing command activities with USCYBERCOM and the designated USCYBERCOM Service component.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Operating Forces
Detail by Subactivity Group: Combatant Command Mission Operations – USSPACECOM
(\$ In Thousands)

I. Description of Operations Financed

Funding in this Sub Activity Group supports the U.S. Space Command (USSPACECOM) mission to serve as the Joint Force Provider and Joint Force Trainer for Space Operations Forces responsible for integrated attack warning and space operations to include control of space and directing space support activities, as well as operational planning for defending against ballistic missiles. Funding includes the development of space war-fighting doctrine, tactics and techniques and accelerate technical advances to find more effective ways to defend U.S. assets in space to include numerous satellites that American forces rely on for navigation, communications and surveillance. USSPACECOM serves the national security interests of the U.S. and its allies worldwide by providing an organizational structure responsible for effective use of space by performing communications, weather tracking, navigation and warning. This funding is critical to accelerate our space capabilities so that we can deter our adversaries and defend our national interests.

II. Force Structure Summary

The Air Force is the Combatant Command Support Agent (CCSA) for USSPACECOM. USSPACECOM direct mission funding supports operations in, from, and to space to deter conflict, and if necessary, defeat aggression, deliver space combat power for the Joint/Combined force, and defend U.S. vital interests with allies and partners.

The mission involves four distinct areas of focus:

Deter Aggression: USSPACECOM strengthens our national deterrence through the provision of space warfighting options that preserve the U.S. and Allied competitive advantage while promoting security and stability to ensure conflict does not begin or migrate into the space domain.

Defeat our Nation's Enemies through Posture and Preparedness: Should deterrence fail, USSPACECOM is postured to rapidly transition from competition to conflict and achieve space superiority with the world's premier joint space warfighters to defeat our nation's enemies.

Deliver Space Combat Power: USSPACECOM enhances warfighting readiness and lethality through the integration of space capabilities with the joint force, allies, and inter-agency partners in all domains.

Defend U.S., Allied, and Partner Interests: USSPACECOM, in coordination with Allies, the joint force, and inter-agency partners, conduct combined space operations to protect our combined interests and secure critical capabilities.

101 Executive General Schedule

(FY 2026 Base: \$106,045; FTE Base: 702; 0 FTE)

3) Civilian Pay - Vendor Threat Mitigation \$75
Increases half-year funding and manpower (**1 FTEs**) to Vendor Threat Mitigation (VTM). The DoW uses VTM to identify, analyze, and mitigate risk from contractors supporting military operations. This increase focuses on preventing adversaries from accessing critical technology, installations, and funding.

OP32:

4) Civilian Pay - Workforce Modernization..... \$8,008

Increase funding and manpower **(91 FTEs)** reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President’s Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Combatant Command Mission Operations - USSPACECOM Program established requirements. The FY 2027 request reflects the full requirement necessary to support the Joint Force Provider and Joint Force Trainer for Space operations Forces responsible for integrated attack warning and space operations to include control of space and directing space support activities, as well as operational planning for defending against ballistic missiles.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Detail by Subactivity Group: Airlift Operations
(\$ In Thousands)

I. Description of Operations Financed:

Airlift Operations provides the fastest mode of transportation for the nation's defense by any service, through the movement of people, supplies and equipment to critical locations around the world. Additionally, current operations strengthen Air Force pilots and aircrews much needed flight experience which improves readiness for a high-end conflict across the spectrum of warfare in multiple domains. Airlift Operations contains seven major programs: Airlift Mission Training (AMT), Operational Support Airlift (OSA), Mobility Support Activities (MSA), Airlift Readiness Account (ARA), Mobility Airlift Forces, Mobility Command and Control, and Tanker Operations.

The primary mission within AMT is Training, Test, and Ferry (TTF). TTF enables the Air Mobility Command to meet wartime mobility proficiency requirements, by providing local readiness training hours for C-5 and C-17 aircrews, funds the testing of new systems such as parachute deployment and other aircraft systems, and provides transportation of aircraft to and from depot maintenance.

OSA provides the movement of support packages (communications equipment, security details, and vehicles) to accompany distinguished visitor travel and special missions for dignified remains recovery of fallen warfighters. This includes airlift mission support packages for the President and Vice President of the United States (POTUS/VPOTUS), Continuity of Operations (COOP)/Continuity of Government (COG), and onsite maintenance services at the travel destinations.

MSA supports airborne senior leader command, control, and communications suites by providing secure and non-secure voice, data, and video connectivity, seamless and dedicated satellite communications service and support across global airbridge routes, in accordance with White House Military Office requirements. This eliminates the need for senior leaders to compete with non-DoW customers for network access on modified platforms. Also, High-Capacity Cross-Strap provides increased bandwidth to support White House requirements for international operations. Support is provided to principals including: POTUS/VPOTUS, Secretary and Deputy Secretary of War, Secretary of State, Secretary of Homeland Security, Joint Chiefs of Staff, and Unified Combatant Commanders.

The ARA covers the difference between revenue and expenses for airlift within the Transportation Working Capital Fund enabling USTRANSCOM to charge stable rates for the military departments, unified combatant commands, and other customers. Overall, Defense Working Capital Fund activities are required to recover all costs through customer reimbursements. However, the Transportation Working Capital Fund does not fully recover all costs through rates charged to customers. Customers are charged commercially competitive rates for products and services received. The Airlift Readiness Account covers airlift costs which exceed the rate and direct reimbursement revenue, in order to maintain the solvency of the organic airlift capability.

The remaining major programs within Airlift Operations fund the squadron operations for the respective platforms, the USAF Expeditionary Center (EC), and Aeromedical Evacuation (AE). Squadron operations primarily include salaries of civilian personnel, contractor support, supplies/equipment, and travel. The EC provides Contingency Response and Air Mobility Operations in addition to providing expeditionary combat skills training and education to meet USAF's expeditionary needs. AE provides specially trained medical personnel and equipment to evacuate sick, wounded, and injured personnel from forward locations around the world in conflict and peace time.

II. Force Structure Summary:

Airlift and air refueling operations support the Air Mobility Command headquartered at Scott Air Force Base (AFB), Illinois, which serves as the Air Force component for United States Transportation Command and Air Force District of Washington, Washington, DC. This Subactivity Group also supports the 18th Air Force, collocated at Scott

(\$ In Thousands)

8. Program Increases	\$349,887
a) Annualization of New FY 2026 Program.....	\$0
b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$349,887
1) Airlift Readiness Account (ARA)	\$227,760
Increase aligns the FY 2027 funding to the most current USTRANSCOM projections for operating expense shortfalls driven by increased costs from the demand for channel missions that exceed revenue collected from the published working capital fund (WCF) rates and the Joint Services' airlift usage. The WCF rates are set to competitive levels with commercial cargo rates. This increase to the ARA budget allows USTRANSCOM to keep the WCF rates at levels comparable to commercial rates and provide timely service to the warfighters across the globe. Lack of funding in this program will increase costs to the Services requiring airlift support, or a reduction in executable flying hours and cargo transport service availability, which increases risks to pilot's mandatory currency rating and delays the delivery time of personnel, equipment and supplies to warfighters.	
OP32:	
704 Airlift Readiness Account	
(FY 2026 Base: \$622,096)	
2) Civilian Pay - Average Workyear Cost Adjustment.....	\$20,573
Increase in Civilian Personnel compensation adjusts average workyear costs. Each year the Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.	
OP32:	
101 Executive General Schedule	
(FY 2026 Base: \$295,148; FTE Base: 2,302)	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Detail by Subactivity Group: Airlift Operations
(\$ In Thousands)

3) Civilian Pay - Workforce Modernization..... \$4,420

Increase funding and manpower (65 FTEs) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Airlift Operations Program established requirements. The FY2027 request reflects the full requirement necessary to enable the movement of people, supplies, and equipment to critical locations around the world. Additionally, this program provides opportunities for Air Force pilots and aircrews to gain much needed flight experience which improves readiness.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$295,148; FTE Base: 2,302; 65 FTE)

4) Mobile Aircraft Satellite Communication Connectivity \$28,628

Increase to provide satellite communications connectivity for C-17, KC-135 and KC-46 fleets. These beyond-line-of-site communications capabilities are lifesaving mitigation measures that provide secure, reliable communications (aircraft-to-control center and aircraft-to-aircraft), enabling situational awareness and in-flight coordination, in contested airspace. These service contracts are necessary to ensure in-flight tracking and deconfliction to avoid mishaps and combat losses.

OP32:

914 Purchased Communications (Non-DWCF)

(FY 2026 Base: \$148,912)

5) Restore Airlift Operations - Transfer from Discretionary to Mandatory..... \$38,863

Reflects an increase in Airlift Operations funding to restore baseline funding levels after a one-time decrease in FY 2026 due to a transfer of discretionary funding to be sourced from the Reconciliation Bill (Public Law No: 119-21 - One Big Beautiful Bill Act).

OP32:

707 AMC Training

914 Purchased Communications (Non-DWCF)

Detail by Subactivity Group: Airlift Operations
(\$ In Thousands)

6) Senior Leader Communications System \$29,643

Increase to provide senior leader Command, Control and Communication (C3) capabilities to the nation's senior leaders (e.g. President, Vice President, Secretary of War, Secretary of State, Chairman of the Joint Chiefs of Staff, Combatant Commanders, etc.) while airborne. This budget represents a focus on peace through strength and defense of the homeland by providing secure, reliable communications, constantly while senior leaders are in-transit across the country and around the world, ensuring their ability to maintain situational awareness of information and events in real-time. These C3 capabilities cannot be met by strictly traditional means (e.g. radio) that are vulnerable to modern threats, but through resilient space-based connectivity. The stability of the communications capabilities aboard these aircraft [two VC-25A; four C32A; four C-40B; seven C-40C; sixteen C-37; two Roll-On Conference Capsules/Steel Eagles] directly affects their readiness and availability for the kill chain, and all war-time mission requirements.

OP32:

671 DISA DISN Subscription Services

(FY 2026 Base: \$221,041)

9. Program Decreases..... \$-121,670

a) One-Time FY 2026 Costs \$0

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027 \$-121,670

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Detail by Subactivity Group: Airlift Operations
(\$ In Thousands)

1) Airlift Support Operation and Maintenance (O&M)\$-121,670

Decrease to Airlift Support (O&M) funds aligns programming to anticipated operational tempo for contingency training flying hours. The projected volume of flight operations in-theater directly impacts the aircraft availability and cumulative flying hours required for pilots to meet training requirements. This program provides the highest quality time for aircrews in C-5 and C-17 airframes to maintain war-time proficiency for near peer conflicts, separate from their highly monetized flying to deliver cargo for USTRANSOM mission.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Detail by Subactivity Group: Mobilization Preparedness
(\$ In Thousands)

I. Description of Operations Financed:

Mobilization preparedness supports mobility operations with the capability to sustain contingency operations and wartime requirements through the provision and prepositioning of War Reserve Materiel (WRM), Basic Expeditionary Airfield Resources (BEAR), theater nuclear weapon storage and security systems, industrial preparedness, and inactive aircraft storage.

WRM is enterprise-managed pre-positioned equipment, afloat pre-positioning vessels, vehicles and consumables that support a full range of military operations and humanitarian efforts. This includes the munition International Organization for Standardization (ISO) Container Program for global operations.

II. Force Structure Summary:

Mobilization preparedness activities employ personnel that support requirements at in-garrison installations throughout the nine Air Force Major Commands and at nuclear storage sites and contingency hospitals around the world.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Detail by Subactivity Group: Mobilization Preparedness
(\$ In Thousands)

1) Sustainment of Regional Base Cluster Positioning \$20,000

The Campaigning in the Indo-Pacific effort is centered on enhancing force posture, operational capabilities, and partner integration to deter aggression in the Indo-Pacific region. Enhancing this force posture requires the precise alignment of resources to the point of need. Therefore, this action transfers funds to Mobilization Preparedness (Subactivity Group 21D, \$20,000) from Other Combat Operations Support Programs (Subactivity Group 12C, -\$20,000) to support increased requirements for Pacific Air Forces (PACAF) Regional Base Clustering Positioning asset sustainment. This supports integrated campaigning and enables the Joint Force to conduct global airfield operations to achieve military strategic objectives in contested environments.

OP32:

925 Equipment Purchases (Non-Fund)

(FY 2026 Base: \$235,103)

2) Nuclear Deterrence Operations \$7,800

Increase reflects a transfer of funds to Depot Purchase Equipment Maintenance (Subactivity 11M +\$11,100), Global C3I and Early Warning (Subactivity 12A +\$17,400), Other Combat Operations Support Programs (Subactivity 12C +\$7,600), **Mobilization Preparedness (Subactivity 21D +\$7,800)**, Other Servicewide Activities (Subactivity 42G +\$2,000), and Research, Development, Test, and Evaluation (RDT&E), Air Force (+\$7,100) from Combatant Command Mission Operations - USSTRATCOM (Subactivity 15D -\$53,000) in support of Nuclear Deterrence Operations high-priority items within the nuclear portfolio in order to optimize resource allocation and ensure long-term sustainability of nuclear deterrent capabilities.

OP32:

920 Supplies and Materials (Non-DWCF)

922 Equipment Maintenance By Contract

(FY 2026 Base: \$4,756)

b) Transfers Out \$0

8. Program Increases \$55,507

a) Annualization of New FY 2026 Program \$0

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Detail by Subactivity Group: Mobilization Preparedness
(\$ In Thousands)

b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$55,507
1) Civilian Pay - Average Workyear Cost Adjustment	\$1,042
Increase in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.	
OP32:	
101 Executive General Schedule	
(FY 2026 Base: \$27,114; FTE Base: 270)	
2) Nuclear Weapon Storage - Weapon Storage and Security System (WS3) Vault Modernization Program.....	\$16,144
Increase aligns with National Security Agency requirement to modernize the WS3 vault unlock management system and funds a sustainment capability gap for the WS3 vault. This budget supports nuclear surety by ensuring our Nation's nuclear assets are secured according to the most current standards.	
OP32:	
308 Travel of Persons	
920 Supplies and Materials (Non-DWCF)	
922 Equipment Maintenance By Contract	
(FY 2026 Base: \$4,756)	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Detail by Subactivity Group: Mobilization Preparedness
(\$ In Thousands)

3) War Reserve Material/Basic Expeditionary Airfield Resources (WRM/BEAR)..... \$38,321

Increase supports global operations by ensuring accurate and timely pre-positioning of assets to critical theater locations for ready access by deploying forces. This budget reflects a prioritization of funding in-line with National Defense Strategy efforts for defense of the homeland and deterrence of adversaries by facilitating rapid deployment capability of our Nation's Forces. Increase includes funds for pre-positioned afloat vessels and the buying-down of backlogged requirements for enterprise WRM, Common Support Equipment and Medical WRM required by deploying forces.

OP32:

418 AF Retail Supply (GSD)

719 SDDC Cargo Operations-Port Handling

723 MSC Afloat Prepositioning AF

(FY 2026 Base: \$235,103)

9. Program Decreases..... \$-28,499

a) One-Time FY 2026 Costs \$0

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027 \$-28,499

1) Efficiency - Contract Services..... \$-13,635

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:

723 MSC Afloat Prepositioning AF

923 Facility Sustain, Restore Mod By Ct

(FY 2026 Base: \$247,335)

Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Mobilization
Detail by Subactivity Group: Mobilization Preparedness
(\$ In Thousands)

2) Efficiency - Supplies and Materials\$-11,563
 Reduces funding for supplies and materials to align with historical execution levels and ensure alignment with the priorities of the Secretary of War to improve the efficiency and effectiveness of our mission and business operations.

OP32:
 920 Supplies and Materials (Non-DWCF)

(FY 2026 Base: \$44,443)

3) Efficiency - Travel Budget\$-3,248
 Reduces discretionary travel funding to align with the Secretary of War's highest priorities to strengthen readiness, modernize capabilities, and sustain the Force.

OP32:
 308 Travel of Persons

(FY 2026 Base: \$7,923)

4) Civilian Pay - Workforce Modernization\$-53
 Decreased funding and manpower (**1 FTEs**) reflects workforce modernization efforts to properly align civilian staffing to actual mission requirements within the DAF and to meet internal reorganization efforts and civilian workforce reforms.

OP32:
 101 Executive General Schedule

*** Major WRM storage sites are defined as those that provide support to primary Air Force operating locations. These forward operating locations support aircraft deployments of up to three squadrons of tactical fighter aircraft (72 PAA) with a base population of about 3,300 personnel. Support packages include fuels support, aircraft tanks, pylons, racks, adapters, vehicles, aircraft generation equipment, meal rations, and other direct equipment mission support.

**** Minor WRM storage sites are defined as main operating bases that store WRM required for additive forces. Support packages include BEAR, fuels support, suspension & release, vehicles, aircraft generation equipment, War Consumables Distribution Objective (WCDO) items, and other direct equipment mission support.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Officer Acquisition
(\$ In Thousands)

I. Description of Operations Financed:

Officer Acquisitions supports three officer accession training programs in the Air Force. The majority of the funding supports the United States Air Force Academy (USAFA), to include direct mission support for cadets, preparatory school students, and faculty. The cadet Support Services contract is essential for Air Force Academy operations, supporting cadet area facility services, quarter furnishings, equipment, delivery of curriculum, athletics, and military training. This capability maintains the health and safety of over 4,000 cadets, provides dormitory security, and sustains facilities and equipment. The remaining funding supports Officer Training School (OTS) and Warrant Officer Training School (WOTS), located at Maxwell Air Force Base, Alabama.

II. Force Structure Summary:

The USAFA is located in Colorado Springs, CO. Officer Training School is composed of Total Force Officer Training (OTS Full and OTS Abbreviated Courses) and Reserve Commissioned Officer Orientation (RCOO), located at Maxwell AFB, Alabama. Warrant Officer Training School is a 40-day, in-residence, accessions program, located at Maxwell AFB, Alabama.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Officer Acquisition
(\$ In Thousands)

1) Learning Connectivity\$-500

Decrease reflects a transfer from **Officer Acquisition (Subactivity Group 31A -\$500)** to Training Support (Subactivity Group 32D +\$500), to fund a sustainment contract for internet service and equipment at 24 Air Education and Training Command (AETC) bases. Funding will enhance accessibility to the Air Force Learning Services Ecosystem and will be used to expand and replace commercial internet services across training dormitories and mission facilities.

OP32:

935 Training and Leadership Development

(FY 2026 Base: \$127,751)

8. Program Increases \$42,260

a) Annualization of New FY 2026 Program..... \$0

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$42,260

1) Active Duty Military End Strength Growth - Officer Training School.....\$187

Increases funds to support the active duty military end strength growth. The increased funding will cover Officer Training School operating costs to meet increased throughput. These costs include schoolhouse supplies and equipment and travel. The lack of resources will directly impact the officer accessions annual throughput and reduce the capacity to meet officer accession goals. This increase is the first of a multi-year investment to support active duty end strength growth.

OP32:

308 Travel of Persons

920 Supplies and Materials (Non-Fund)

(FY 2026 Base: \$5,832)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Officer Acquisition
(\$ In Thousands)

2) Active Duty Military End Strength Growth - United States Air Force Academy (USAFA) \$5,600

Increase funds to support the active duty military end strength growth. The increased funding will cover the operation and maintenance costs to support the Cadet Wing and Preparatory School's Mitchell Hall food services contract, Dean of Faculty equipment purchases, and Information Technology Services to support data processing and network operations. The lack of resources will reduce the capacity to meet the increased officer accession throughput and reduce potential interest from future cadets considering attendance at a Service Academy. This increase is the first of a multi-year investment to support active duty end strength growth.

OP32:

914 Purchased Communications (Non-Fund)

922 Equipment Maintenance by Contract

964 Other Cost (Subsistence and Support of Persons)

(FY 2026 Base: \$127,751)

3) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$1,520

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$116,797; FTE Base: 783)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Officer Acquisition
(\$ In Thousands)

4) Civilian Pay - Workforce Modernization..... \$9,953

Increase funding and manpower (**88 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Officer Acquisition Program established requirements, resulting in a suppressed baseline, which produces a larger year-over-year variance. The FY 2027 request reflects the full requirement necessary to support the U.S. Air Force Academy and Officer Training School.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$116,797; FTE Base: 783; 88 FTE)

5) United States Air Force Academy (USAFA) - Warfighter Initiative \$25,000

Increases funds for the USAFA Warfighter Initiative effort, enhancing USAFA's commitment to future leader's Warfighter Development. This investment expands on the comprehensive Warfighter Training at USAFA and is required to support the warfighter. The increased funding will buy equipment storage, field operations sustainment gear, and logistics and mobility support to enable movement of equipment across training areas.

OP32:

935 Training and Leadership Development

(FY 2026 Base: \$127,751)

9. Program Decreases..... \$-18,367

a) One-Time FY 2026 Costs \$0

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027 \$-18,367

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Officer Acquisition
(\$ In Thousands)

1) Civilian Pay - Federal Employee Retirement System - Agency Contribution Rates Assumption.....\$-5,671
Decrease funding to align with the adjusted Federal Employees Retirement System (FERS) contribution rates. These adjustments incorporate updated actuarial assumptions, workforce demographics shifts, and revised projections of retirement liabilities.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$116,797; FTE Base: 783)

2) Efficiency - Contract Services\$-9,935
The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:
922 Equipment Maintenance By Contract
935 Training and Leadership Development
987 Other Intra-Government Purchases
989 Other Services

(FY 2026 Base: \$127,751)

3) Efficiency - Supplies and Materials\$-2,761
Reduces funding for supplies and materials to align with historical execution levels and ensure alignment with the priorities of the Secretary of War to improve the efficiency and effectiveness of our mission and business operations.

OP32:
920 Supplies and Materials (Non-Fund)

(FY 2026 Base: \$127,751)

(\$ In Thousands)

Notes:

- 1) USAF FY 2027 Projections are based on FY 2026 - FY 2030 Total Force Production Program Guidance Letter (PGL) dated June 16, 2025.
- 2) USSF Projections are based on FY 2026 - FY 2030 SF Accessions Program Guidance Letter (PGL) dated May 14, 2025.
- 3) All Line officer candidates and some direct commission corps (MSC, BSC, NC, JA, and HC) participate in the full 8.5 week commissioning course version (60 resident training days).
- 4) Remaining Direct commission corps trainees (MC, DC and some ARC SG) participate in only the first 5 weeks of the course (32 resident training days).
- 5) ARC-only RCOO (Reserve Commissioned Officer Orientation) for hard-to-recruit medical specialties (14 days in residence training plus 36.5-hour Pre-course).
- 6) Pre-Course hours are self-paced/self study and are not included in WORKLOAD computations.
- 7) OTS 8-week course estimated attrition rate for FY 2026 - 2027 ~4%
- 8) OTS 5-week course estimated attrition rate for FY 2027 - 2027 ~4%

**DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Recruit Training
(\$ In Thousands)**

I. Description of Operations Financed:

Program supports recruiting and basic military training that transforms civilian recruits into disciplined, dedicated, physically fit Airmen for their entry into Active Duty Air Force, Air National Guard, and Air Force Reserve, as well as new Guardians entering the Space Force. Operations financed support the 737th Training Group located at Joint Base San Antonio - Lackland, Texas, where recruits receive seven weeks and one day (36 Academic Training Days) of basic military training in preparation for military duty.

II. Force Structure Summary:

The 737th Training Group operates nine squadrons to accomplish its mission of providing the fundamentals of military discipline, drill and ceremonies, and Air Force core values, training Battlefield Airmen Combat Skills in an expeditionary and operational environment in the field and provides personnel records management, job classification and discharge actions, as well as curriculum development and resource management support. Additionally, one flight within one of the squadrons is dedicated to Guardian training.

(\$ In Thousands)

c) Program Growth in FY 2027 \$46,928

1) Active Duty Military End Strength Growth..... \$14,928

Increases funds to support the active duty military end strength growth. The increased funding will cover the recruit training operational costs for Basic Military Training (BMT). BMT is the initial training and entry point into military service for enlisted accessions. The lack of resources will reduce the capacity to meet the increased enlisted accession throughput. This increase is the first of multi-year investment to support active duty end strength growth.

OP32:

308 Travel of Persons

401 DLA Energy (Fuel Products)

418 Air Force Retail Supply (General Support Division)

920 Supplies and Materials (Non-Fund)

922 Equipment Maintenance By Contract

955 Other Costs (Medical Care)

964 Other Cost (Subsistence and Support of Persons)

989 Other Services

(FY 2026 Base: \$26,664)

2) Recruit Training - Basic Military Training (BMT) NEXT \$32,000

Increases funds for Air Education Training Command's (AETC) Basic Military Training competency-based curriculum, expanding on the PACER FORGE operational exercise and creating immersive training environments to produce mission-ready Airmen. This investment will directly support the Department of War's warrior ethos and warfighter efforts, while positioning Air Force's relative advantage in developing the enlisted force. Increased funding will cover training range equipment, immersion center equipment, training support facilities, and individual equipment issue.

OP32:

418 Air Force Retail Supply (General Support Division)

925 Equipment Purchases (Non-Fund)

(FY 2026 Base: \$26,664)

Detail by Subactivity Group: Recruit Training
(\$ In Thousands)

9. Program Decreases.....	\$-6,289
a) One-Time FY 2026 Costs	\$0
b) Annualization of FY 2026 Program Decreases.....	\$0
c) Program Decreases in FY 2027	\$-6,289
1) Civilian Pay - Average Workyear Cost Adjustment.....	\$-1,016
Decrease funding in Civilian Personnel compensation adjusts average workyear costs. Each year Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these cost changes as well as updated pay raise, awards, and benefit assumptions.	
OP32:	
101 Executive General Schedule	
(FY 2026 Base: \$2,671; FTE Base: 18)	
2) Civilian Pay - Workforce Modernization	\$-151
Decreased funding and manpower (3 FTEs) reflects workforce modernization efforts to properly align civilian staffing to actual mission requirements within the DAF and to meet internal reorganization efforts and civilian workforce reforms.	
OP32:	
101 Executive General Schedule	
(FY 2026 Base: \$2,671; FTE Base: 18; -3 FTE)	

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Recruit Training
(\$ In Thousands)

3) Efficiency - Contract Services\$-2,218

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:

922 Equipment Maintenance By Contract

955 Other Costs (Medical Care)

989 Other Services

(FY 2026 Base: \$26,664)

4) Efficiency - Supplies and Materials\$-2,904

Reduces funding for supplies and materials to align with historical execution levels and ensure alignment with the priorities of the Secretary of War to improve the efficiency and effectiveness of our mission and business operations.

I. Description of Operations Financed:

Air Force Reserve Officer Training Corps (AFROTC) is the largest source of new officer accessions for the Air Force and the primary source of commissioning for technical Air Force Specialty Codes. The AFROTC mission is to develop quality leaders for the Air Force. The mission is primarily achieved through funding college scholarship tuition, textbooks and summer training programs. The AFROTC program is designed to recruit, educate, train, motivate, and commission officer candidates through a comprehensive college program.

II. Force Structure Summary:

This Subactivity Group supports AFROTC Detachments across 145 universities.

(\$ In Thousands)

1) Aviation Cadet Program..... \$3,000

Increase reflects a transfer to **Reserve Officer Training Corps (ROTC) (Subactivity Group 031D +\$3,000)** from the Military Personnel Appropriation (Appropriation 3500F -\$3,000), to fund the initial investment of scholarship costs for the Aviation Cadet Program. The Aviation Cadet Program will offer 100 scholarships in the first-year of implementation to cadets selected through the normal scholarship selection process. The scholarships will build on the existing relationships between the Air Force and host universities to increase pilot production.

OP32:

935 Training and Leadership Development

(FY 2026 Base: \$124,194)

b) Transfers Out \$0

8. Program Increases \$6,844

a) Annualization of New FY 2026 Program..... \$0

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$6,844

1) Active Duty Military End Strength Growth..... \$4,400

Increases funds to support the active duty military end strength growth. The increased funding will cover Reserve Officer Training Corps operating costs to meet increased throughput. These costs include scholarships, textbooks, and travel for increased officer accession goals. The lack of resources will reduce the capacity to meet officer accession goals. This increase is the first of a multi-year investment to support active duty end strength growth.

OP32:

308 Travel of Persons

935 Training and Leadership Development

(\$ In Thousands)

2) Civilian Pay - Average Workyear Cost Adjustment\$611
 Increase in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:
 101 Executive General Schedule

(FY 2026 Base: \$7,148; FTE Base: 62; 0 FTE)

3) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees.....\$99
 Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:
 101 Executive General Schedule

(FY 2026 Base: \$7,148; FTE Base: 62)

4) Reserve Officer Training Corps (ROTC) Programs\$1,734
 Continues effort to right-size the ROTC scholarship program with two-year scholarships yielding an overall increase to the number of students on scholarship. Higher university tuition costs are also driving a nominal increase in scholarships.

OP32:
 935 Training and Leadership Development

(FY 2026 Base: \$124,194)

9. Program Decreases.....\$-127

Notes:

AFROTC is a 4-Year program consisting of GMC and POC courses. GMC: General Military Course (Freshman/Sophomore Cadets), POC: Professional Officer Course (Junior/Senior Cadets).

Workload = Average daily student load across the national AFROTC program consisting of 145 detachments

- 1) All POC cadets are on contract with the Air Force to commission, regardless if on scholarship or not.
- 2) GMC cadets who are not on scholarship are not contracted with the Air Force to commission.
- 3) GMC cadets who are on scholarship are contracted with the Air Force to commission.
- 4) All GMC cadets, regardless if receiving a scholarship, must compete for an enrollment allocation and POC entry in their sophomore year.
- 5) Extended cadets receiving scholarships (i.e., those on approved 5-year technical degree programs) are included in the scholarship cadet totals.
- 6) Beginning in FY 2023, any POC cadet who had not previously earned a competitive scholarship (High School Scholarship Program-HSSP / In College Scholarship Program-ICSP) was offered a 2-year tuition award through the new BG Charles McGee Leadership Award (CMLA). As more cadets have taken advantage of the CMLA, the only cadets remaining in the Non Scholarships POC cadet category are those who do not meet CMLA activation requirements.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Specialized Skill Training
(\$ In Thousands)

I. Description of Operations Financed:

Provides Department of the Air Force and other service members the initial skills training (Specialty Code awarding) and education essential to managing complex weapon systems and performing other mission-related tasks. Additionally, this training provides the enhanced technical skills needed throughout a member's career to accomplish the mission. Programs include requirements for initial, follow-on, and supplemental technical skills training. Initial skills training includes technical courses ranging in length from five to 50+ weeks. This training covers a broad spectrum of courses from intelligence, foreign language training initiatives, Defense English Language Program initiatives (for which Secretary of the Air Force (SECAF) is the Executive Agent), health care, and financial management, to precision measurement equipment repair, ultimately funding the training pipeline and mitigating unit-level under-manning. In addition, funding supports the development of Career Development Courses (CDCs) and end-of-course exams for Active Duty, Guard, and Reserve personnel, and sometimes includes Sister Services, Civil Air Patrol (CAP), Civilians, and Government Contractor Personnel.

II. Force Structure Summary:

This program funds eight specialized skills training centers, including subordinate detachments and operating locations at Goodfellow Air Force Base (AFB), Texas; Keesler AFB, Mississippi; Joint Base San-Antonio-Lackland (JBSA-Lackland), Texas; Maxwell AFB, Alabama; Vandenberg AFB, California; Wright Patterson AFB, Ohio; Defense Foreign Language Center, Monterey, California; and Sheppard AFB, Texas. For functional development, Survival, Evasion, Resistance and Escape (SERE) training is also accomplished at Fairchild AFB, Washington; and Eielson AFB, Alaska. Air Force Career Development Academy (AFCDA), headquartered at Keesler AFB, Mississippi with seven operational locations across four states, is the named Air Force authority and agency responsible to develop, deliver, and manage all Total Force career development courses (CDCs) and specialized courses in support of the total force upgrade training program.

1) Active Duty Military End Strength Growth..... \$23,000

Increases funds to support the active duty military end strength growth. The increased funding will cover the increase in travel for new accessions to attend technical training for various Air Force Specialty Codes (AFSC) following graduation from an accession source. This increase is the first of a multi-year investment to support active duty end strength growth.

OP32:

308 Travel of Persons

(FY 2026 Base: \$279,033)

2) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$2,504

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$195,280; FTE Base: 1,804)

3) Civilian Pay - Average Workyear Cost Adjustment..... \$2,164

Decrease funding in Civilian Personnel compensation adjusts average workyear costs. Each year Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these cost changes as well as updated pay raise, awards, and benefit assumptions.

Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Specialized Skill Training
(\$ In Thousands)

4) Civilian Pay - Workforce Modernization.....\$4,224

Increased funding and manpower **(44 FTEs)** reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Airlift Operations Program established requirements. The FY2027 request reflects the full requirement necessary to provide the initial skills training and education essential to managing complex weapons systems. Additionally, this program provides the enhanced technical skills needed throughout a member's career to accomplish the Air Force's mission.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$195,280; FTE Base: 1,804; 44 FTE)

5) General Skills Training - Cyber Training.....\$9,399

Increase will align training to the DoW Cyberspace Workforce Framework in accordance DOW Directive (DoWD) 8140.01, Cyber Workforce Management, ultimately delivering foundational cyber training to approximately 4,700 total force personnel annually. Increase supports cyber training range infrastructure, instructors, and advanced training internships with the National Security Agency.

Detail by Subactivity Group: Specialized Skill Training
(\$ In Thousands)

6) Specialized Skills Training Programs \$14,517
 Increase of funds will support initial skills training for various Air Force Specialty Codes (AFSCs) within the technical training enterprise. Funds will cover travel for service members attending training, equipment maintenance, and necessary supplies at the respective schoolhouses.

OP32:
 308 Travel of Persons
 920 Supplies and Materials (Non-Fund)
 922 Equipment Maintenance By Contract
 935 Training and Leadership Development
 987 Other Intra-Government Purchases
 989 Other Services

(FY 2026 Base: \$326,788)

9. Program Decreases \$-4,986

a) One-Time FY 2026 Costs \$0

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027 \$-4,986

1) Civilian Pay - Federal Employee Retirement System - Agency Contribution Rates Assumption.....\$-4,986
 Decrease funding to align with the adjusted Federal Employees Retirement System (FERS) contribution rates. These adjustments incorporate updated actuarial assumptions, workforce demographics shifts, and revised projections of retirement liabilities.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Flight Training
(\$ In Thousands)

I. Description of Operations Financed:

Flying training programs include Academy Glider and Powered Flight Programs, Introductory Flight Training (IFT), Undergraduate Pilot Training (UPT) (including Euro North Atlantic Treaty Organization Joint Jet Pilot Training (ENJJPT)), Combat System Officer (CSO) Training, Air Battle Manager (ABM) Training, Undergraduate Remotely Piloted Aircraft Training (URT), Introduction to Fighter Fundamentals (IFF), and Pilot Instructor Training (PIT). UPT is taught at three Air Education and Training Command (AETC) bases and one Army Base: Vance Air Force Base (AFB), Oklahoma; Columbus AFB, Mississippi; Laughlin AFB, Texas; and Fort Novosel, Alabama. ENJJPT produces pilots for the United States and participating NATO countries and is taught at Sheppard AFB, Texas. Three bases conduct IFF training for fighter-bound pilot training graduates: Joint Base San Antonio-Randolph (JBSA-Randolph), Texas; Columbus AFB, Mississippi; and Sheppard AFB, Texas. JBSA-Randolph's program also includes all PIT training where Instructor Pilots receive extensive training in their assigned aircraft (T-6, T-1, or T-38). Additionally, pilot training is provided to international students through the Aviation Leadership Program (ALP). CSO training is conducted at Naval Air Station (NAS) Pensacola, Florida; ABM Training at Tyndall AFB, Florida; and RPA training at JBSA-Randolph, Texas.

II. Force Structure Summary:

This Subactivity Group supports 11 aircraft types at eight flying training wings and operating bases. Aircraft types: T-1, T-6, T-38, TH-1H, TG-10, TG-15, TG-16, UV-18, T-41, T-51 and T-53. Operating bases: JBSA-Randolph, Texas; Vance AFB, Oklahoma; Columbus AFB, Mississippi; Laughlin AFB, Texas; Sheppard AFB, Texas; Ft Novosel, Alabama (redesignated from Fort Rucker, Alabama); USAF Academy, Colorado; and NAS Pensacola, Florida.

b) Transfers Out	\$-9,963

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Flight Training
(\$ In Thousands)

1) Air Force Security Assistance Training (AFSAT) Historical Execution Realignment.....\$-9,267

Decrease reflects a transfer from **Flight Training (Subactivity Group 032B -\$9,267)** to Specialized Skill Training (Subactivity Group 032A +\$9,267), to align programmed funding with historical execution for AFSAT. AFSAT provides Air Force sponsored international training and education. AFSAT trains and facilitates training for students from multiple countries. The funds will continue to be used to support the AFSAT training mission requirements.

OP32:

987 Other Intra-Government Purchases

989 Other Services

(FY 2026 Base: \$349,128)

2) Learning Connectivity\$-696

Decrease reflects a transfer from **Flight Training (Sub activity Group 32B -\$696)** to Training Support (Sub activity Group 32D +\$696), to fund a sustainment contract for internet service and equipment at 24 Air Education and Training Command (AETC) bases. Funding will enhance accessibility to the Air Force Learning Services Ecosystem and will be used to expand and replace commercial internet services across training dormitories and mission facilities.

OP32:

922 Equipment Maintenance By Contract

(FY 2026 Base: \$349,128)

8. Program Increases \$95,603

a) Annualization of New FY 2026 Program..... \$0

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$95,603

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Flight Training
(\$ In Thousands)

1) Advanced Flight Training - Advanced Pilot Trainer \$73,060

The Enhancing High-End Training and Readiness Effort is focused on improving the lethality and preparedness of the force through realistic, large-scale, and technologically advanced training. Increased funds primarily support the operational beddown requirements for the T-7 aircraft. The increased funding will cover operational site improvements, maintenance and support equipment, and furnishing in existing facilities. This investment aligns with the National Defense Strategy to Supercharge the U.S. Defense Industrial Base by ensuring the Air Force can effectively field and sustain the T-7 aircraft.

OP32:

922 Equipment Maintenance By Contract
957 Other Costs (Lands and Structures)

(FY 2026 Base: \$167,083)

2) Civilian Pay - Average Workyear Cost Adjustment..... \$10,476

Increase in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$274,387; FTE Base: 2,124)

3) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$3,747

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$274,387; FTE Base: 2,124)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Flight Training
(\$ In Thousands)

4) Civilian Pay - Workforce Modernization.....\$8,320

Increase funding and manpower **(128 FTEs)** reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Flight Training Program established requirements, resulting in a suppressed baseline, which produces a larger year-over-year variance. The FY2027 request reflects the full requirement necessary to support 11 aircraft types at eight flying training wings and operating bases. they include programs like Combat System Office (CSO), Air Battle Manager (ABM), and Pilot Instructor training (PIT).

OP32:

101 Executive General Schedule

(FY 2026 Base: \$274,387; FTE Base: 2,124; 128 FTE)

9. Program Decreases.....\$-20,590

a) One-Time FY 2026 Costs\$0

b) Annualization of FY 2026 Program Decreases.....\$0

c) Program Decreases in FY 2027\$-20,590

1) Civilian Pay - Federal Employee Retirement System - Agency Contribution Rates Assumption.....\$-5,671

Decrease funding to align with the adjusted Federal Employees Retirement System (FERS) contribution rates. These adjustments incorporate updated actuarial assumptions, workforce demographics shifts, and revised projections of retirement liabilities.

OP32:

101 Executive General Schedule

Due to the transitions in the Undergraduate Pilot Training Programs, IFT and IPT numbers are in the IFT category combined. IFT will be replaced by IPT in part of FY 2026 and all of FY 2027. The category naming update from IFT to IPT will be reflected in future budget requests. IFF is transitioning to FBF with Basic and Employment Phases. The Basic and Employment Phases are both captured in the FY 2026 and FY 2027 numbers. The production requirement estimates represent each of the following Training Types: Remotely Piloted Aircraft (URT); Air Battle Managers (ABM); Pilot Training (UPT); Combat Systems Officers (CSO); Fighter Bomber Fundamentals (FBF); Introduction to Fighter Fundamentals (IFF); Introductory Flight Training (IFT) and Initial Pilot Training (IPT).

I. Description of Operations Financed

Air Force Professional Developmental Education (DE) programs are foundational programs that support and enhance all aspects of Air Force operations. DE programs teach Airmen to plan, prepare, and react to the unknown, and to find innovative solutions to problems within a highly technological and dynamic battlespace. DE programs cultivate critical thinking skills, develop habits of mind, and modes of analysis. DE prepares Airmen for increasing levels of responsibility and to assume leadership positions throughout the continuum of their Air Force career. DE instills in Airmen the skills and attributes they need to meet future challenges and operate in an increasingly complex environment with dispersed decision-making. DE Programs are divided into three main categories: 1) Professional Military Education, 2) Graduate Education; 3) Professional Continuing Education. Within each of these categories there is a wide array of opportunities.

Professional Military Education (PME) - Has three stages that deliver the right education, at the right time, to the right Airmen. We call this process "The continuum of learning" which permeates the entirety of an Airman's Air Force career. The stages in this Continuum of Learning are: Primary Developmental Education (PDE), Intermediate Developmental Education (IDE), and Senior Developmental Education (SDE).

Primary Developmental Education (PDE) - PDE is accomplished through Squadron Officer School (SOS). SOS, the Air Force's center for company grade officer professional development, produces leaders of integrity who are ready, willing, and prepared to overcome the challenges of today's complex security environments. SOS fulfills this role by educating and mentoring its students during the most crucial period of their development toward becoming future airpower leaders. For the Enlisted Corps, PDE is accomplished through Airman Leadership School (ALS). ALS prepares Airmen to be professional, warfighting Airmen who can supervise and lead Air Force work teams and manage units in the employment of air, space, and cyberspace power.

Intermediate Developmental Education (IDE) - IDE is accomplished through Air Command Staff College, as well as Joint/Sister Service/Intergovernmental schools. IDE prepares junior field grade officers for positions of higher responsibility within the military. The focus of IDE is on preparing students to develop, employ, and command airpower in joint, multinational, and interagency operations. Because we value diversity of thought, and operate in a joint capability environment, we also send Airmen to Sister Service; Joint, Intergovernmental and International developmental opportunities. As a result, students better understand how to integrate campaigns, theater strategies, and national military strategy. Participation in International PME opportunities allow Airmen to leverage our capacity for building partnerships, and better understand US interests abroad. For the Enlisted Corps, this stage is accomplished through Non-Commissioned Officers Academy (NCOA), which prepares Airmen at the NCO ranks (SSgt-TSgt) for increased levels of supervisory, leadership, and managerial responsibilities. These Airmen lead the enlisted force in the employment of air, space, and cyberspace power. NCOs may also attend equivalent Sister Service or International schools.

Senior Developmental Education (SDE) - SDE enhances students' ability to analyze national security problems and issues and to develop appropriate national security strategies in response. The curriculum addresses the fundamentals of thinking strategically, elements and instruments of national power, the theory and practice of war, the domestic and international context of national security strategy. SDE prepares senior field grade officers, DoW and interagency civilians to lead at the strategic level in a joint, interagency, and multinational environment. Graduates are versed in the cross-domain integration of joint, air, space and cyberspace power. Air War College is the senior Air Force professional military school. Because there is a Joint and strategic focus at the SDE level, we maintain several opportunities to attend SDE Sister Service, Joint, Intergovernmental, and International PME schools. For the Enlisted Corps, SDE is accomplished through the Chief Leadership Course (CLC) and Senior Non-Commissioned Officers Academy (SNCOA) and prepares Airmen at the SNCO ranks (MSgt-SMSgt) for increased levels of supervisory, leadership, and managerial responsibilities. These Airmen lead the enlisted force in the employment of air, space, and cyberspace power.

(\$ In Thousands)

Graduate Education - Graduate Education programs are designed to manage limited resources and support National, Military, and Air Force strategic objectives in a rapidly changing, and increasingly complex technological environment. Graduate education requirements are identified as specific positions for which an Advanced Academic Degree (AAD) is necessary to accomplish the job. AAD coded positions are manpower authorizations which prescribe a graduate level degree in a specific academic discipline. A position validated as requiring an AAD means the incumbent cannot optimally perform the job without the advanced academic degree. If the Air Force cannot fill such mission critical positions with the current officer inventory, then a limited number of officers will receive graduate education. The Air Force Institute of Technology (AFIT) is the Air Force's Graduate School of Engineering Management. For specializations not available at AFIT, officers may be sent to pursue a graduate degree at Civilian Institutions (CI) at a myriad of universities and colleges. AFIT's CI program places students in more than 400 institutions of higher learning.

Professional Continuing Education (PCE) - The PCE program provides focused short course instruction (less than 20 weeks) in a broad range of essential educational programs to meet specific skills and functional competencies required in designated career fields. For example, PCE educates warfighting Airmen on contingency planning, joint air operations, intelligence, public affairs, and information operations. Developmental Education Support / Infrastructure - Air University (AU), located at Maxwell Air Force Base, Alabama, provides full spectrum education, research, and outreach at every level through professional military education, professional continuing education. The Air Force Institute of Technology (AFIT) is the Air Force's graduate school of engineering and management, as well as its institution for technical professional continuing education. AFIT is comprised of four resident schools: the Graduate School of Engineering and Management, the School of Systems and Logistics, Civil Engineering, and the School of Strategic Force Studies.

II. Force Structure Summary:

The Air Force has three Officer PME schools located at Air University (AU) at Maxwell Air Force Base (AFB), Alabama. Squadron Officer School provides PME for junior officers and civilian equivalents; Air Command Staff College and Air War College provide PME for intermediate and senior level officers and civilian equivalents. For the Enlisted corps, the Air Force has 69 Airman Leadership Schools throughout the world, seven CONUS and three overseas NCO Academies, one Chief Leadership Course, and one Senior NCO Academy which is located at Maxwell AFB, Alabama. AU is comprised of several functional area centers. Curtis E. LeMay Center for Doctrine Development and Education develops, examines and teaches, through war games, the concepts of airpower doctrine and strategy. Ira C. Eaker Center for Professional Development supports the Air Force mission by providing world-class, multidiscipline PCE to Air Force and other Department of War personnel, as well as international students. The Air Force Institute of Technology, or AFIT, is the Air Force's graduate school of engineering and management and PCE. The Muir S. Fairchild Research Information Center (MSFRIC) is the premier research facility in the Department of War. The library holds more than 2.6 million items, subscribes to 63 research databases, and produces the Air University Library Index to Military Periodicals.

7. Transfers.....	\$-10,576
a) Transfers In	\$4,036

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Professional Development Education
(\$ In Thousands)

1) Commander Assessment Program..... \$4,036

Increase reflects transfer of funds to **Professional Development Education (Subactivity Group 32C +\$4,036)** from Training Support (Subactivity Group 32D -\$116) and Off Duty and Voluntary Education (Subactivity Group 33C -\$3,920), to establish the Commander Assessment Program which will incorporate 360-degree feedback and development strategies to evaluate and identify individual's command potential prior to placement in a formal leadership role.

OP32:

964 Other Cost (Subsistence and Support of Persons)

(FY 2026 Base: \$62,220)

b) Transfers Out \$-14,612

1) Learning Connectivity \$-14,612

Decrease reflects a transfer from **Professional Development Education (Subactivity Group 32C -\$14,612)** to Training Support (Subactivity Group 32D +\$14,612), to fund a sustainment contract for internet service and equipment at 24 Air Education and Training Command (AETC) bases. Funding will enhance accessibility to the Air Force Learning Services Ecosystem and will be used to expand and replace commercial internet services across training dormitories and mission facilities.

OP32:

308 Travel of Persons

920 Supplies and Materials (Non-Fund)

987 Other Intra-Government Purchases

989 Other Services

(FY 2026 Base: \$111,142)

8. Program Increases \$11,365

a) Annualization of New FY 2026 Program..... \$0

b) One-Time FY 2027 Costs \$0

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Professional Development Education
(\$ In Thousands)

c) Program Growth in FY 2027 \$11,365

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$1,512

Increase funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$110,794; FTE Base: 775)

2) Civilian Pay - Average Workyear Cost Adjustment..... \$9,537

Increase in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$110,794; FTE Base: 775)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Professional Development Education
(\$ In Thousands)

3) Civilian Pay - Workforce Modernization.....\$316

Increase funding and manpower (**2 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Professional Development Education Program established requirements. The FY2027 request reflects the full requirement necessary to support and enhance all aspects of Air Force Operations. Developmental Education teach Airmen to plan, prepare, and react to the unknown, and to find innovative solutions to problems within a highly technical and dynamic battlespace.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$110,794; FTE Base: 775; 2 FTE)

9. Program Decreases.....\$-8,278

a) One-Time FY 2026 Costs\$0

b) Annualization of FY 2026 Program Decreases.....\$0

c) Program Decreases in FY 2027\$-8,278

1) Efficiency - Contract Services\$-3,387

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32

Notes:

The scope of this report has been expanded to include Professional Military Education (PME) and Professional Continuing Education (PCE) Distance Learning (DL). This differs from previous years' SAG 032C Part IV submissions, which solely captured in-resident data.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Professional Development Education
(\$ In Thousands)

Professional Military Education:

FY 2025 Actuals reflect enrollment data sourced from Air University's Student Lifecycle Management System and reconciled with component schoolhouses.
FY 2026-FY 2027 Enacted and Requested are based HAF/A1D FY 2026 - 2030 Officer/Enlisted PME Program Requirements Document (PRD) dated October 10, 2025;
DL is straight-line from FY 2025 Actuals due to absence of a PRD.

Professional Continuing Education:

FY 2025 Actuals reflect enrollment data source from Air University's Student Lifecycle Management System and reconciled with component schoolhouses.
FY 2026-2027 Enacted and Requested are primarily projected from the FY 2025 Actuals and aligned with targeted requirements from the Cyberspace and Nuclear PCE PRDs.

Graduate Education:

FY 2025 Actuals reflect verified enrollment figures reported directly by the respective degree-granting institutions: AFIT/EN, AFIT/CI, and SAASS.
FY 2026-2027 Enacted and Requested are held constant with the FY 2025 Actuals reported by AFIT/EN, AFIT/CI, and SAASS.

- PME includes in-resident AWC, ACSC, SOS, SNCOA, Chief Leadership Course (CLC), Enlisted Professional Military Education (EMPE) Instructor, all CONUS NCOAS; PME distance learning includes AWC, ACSC, SOS, OLMP, SNCOA, NCOA, and ALS. Numbers includes IAAFA for SOS and NCOA CONUS (AD).
- Air Force includes all active duty Air Force and Air Force civilians.
- Other includes other Sister Services, non-US, other federal agencies, and other non-federal agencies.
- Professional Continuing Education includes resident, satellite, and distance learning offerings for AETC-sponsored courses only, to include, both AETC funded and user-funded students in those courses.
- Graduate Education includes all students attending regular and special programs (including SAASS, IDE to AFIT/NPS). Does not include AFIT part-time, certificates or Medical Graduate Education, and does not include School of Advanced Military Studies (SAMS), School of Advanced Warfighting (SAW), Joint Advanced Warfighting School (JAWS) that are part of the Air Force Education Requirements Board (AFERB) Man-years but not AU.
- Workload is based on 246 training day.

(\$ In Thousands)

I. Description of Operations Financed:

Funds Enterprise-wide efforts to provide comprehensive education, training, support services, empowering Airmen and Guardians to develop essential competencies. It establishes a coherent delivery system and modernizes training to ensure capabilities align with modern life cycle content. This enables the execution of mission-type orders to outpace our adversaries. General education and training support programs offer core learning services such as student and faculty management, course development and delivery, and the use of reporting, testing, and collaborative tools. These programs also focus on data transformation and automated training processes, including scheduling, tracking, certifications, and resource optimization. The training development and requirements capability delivers modernized training designed to equip Airmen and Guardians with experiential learning in foundational and occupational competencies. Using advanced analytics, it transforms technical training to provide ready, relevant, and immersive experiences. This is achieved through a learning ecosystem that leverages artificial intelligence including augmented reality, virtual reality, mixed reality, extended reality (AR/VR/MR/XR), and other machine learning to tailor training.

Supports essential training functions encompassing Management Headquarters Training, Advanced Distance Learning, and Training and Support to units. Headquarters Air Education and Training Command provides positive command, control, and guidance to the Air Force Training Establishment. Field Training Detachments (FTDs) conduct on-site training at active, guard and reserve installations on weapon systems identified to specific commands.

II. Force Structure Summary

Headquarters Air Education and Training Command (AETC) at Randolph AFB provides oversight and management of multiple enterprise level learning management and training systems, with internal key analysis services provided by AETC/A9 and AETC's Studies and Analysis Squadron (SAS). The Air Force has 45 Field Training Detachments, including various worldwide locations. The goal of all is to support modern learning methodologies and ensure that Airmen have seamless access to educational resources anytime and anywhere, thus fostering a more effective and immersive training environment.

(\$ In Thousands)

1) Learning Connectivity \$16,342

Increase reflects a transfer to **Training Support (Subactivity Group 32D +\$16,342)** from Base Support (Subactivity Group 11Z - \$440), Officer Acquisition (Subactivity Group 31A -\$500), Specialized Skill Training (Subactivity Group 32A -\$94), Flight Training (Subactivity Group 32B -\$696), and Professional Development Education (Subactivity Group 32C -\$14,612), to fund a sustainment contract for internet service and equipment at 24 Air Education and Training Command (AETC) bases. Funding will enhance accessibility to the Air Force Learning Services Ecosystem and will be used to expand and replace commercial internet services across training dormitories and mission facilities.

OP32:

914 Purchased Communications (Non-Fund)

925 Equipment Purchases (Non-Fund)

(FY 2026 Base: \$118,599)

b) Transfers Out \$-116

1) Commander Assessment Program \$-116

Decrease reflects a transfer of funds from **Training Support (Subactivity Group 32D -\$116)** to Professional Development Education (Subactivity Group 32C +\$116), to establish the Commander Assessment Program which will incorporate 360-degree feedback and development strategies to evaluate and identify individual's command potential prior to placement in a formal leadership role.

OP32:

989 Other Services

(FY 2026 Base: \$45,092)

8. Program Increases \$4,024

a) Annualization of New FY 2026 Program \$0

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$4,024

DEPARTMENT OF THE AIR FORCE

Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Training Support
(\$ In Thousands)

1) Civilian Pay - Average Workyear Cost Adjustment..... \$2,134

Decrease funding in Civilian Personnel compensation adjusts average workyear costs. Each year Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these cost changes as well as updated pay raise, awards, and benefit assumptions.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$63,367; FTE Base: 451)

2) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$847

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$63,367; FTE Base: 451; 0 FTE)

3) Civilian Pay - Workforce Modernization..... \$1,043

Increase funding and manpower (**15 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Training Support Program established requirements. The FY2027 request reflects the full requirement necessary to provide education, training, and experience that enable Airmen to develop competencies, think critically, and execute mission-type orders to out compete our adversaries.

Notes:

*This part IV has been adjusted to include new categories and are annotated by **** in the table and below.*

*Air Force Career Development Academy: Career Development Courses (CDC)

FY 2025: Reflects a 3% plus-up based on the FY 2024 actual enrollments plus additional career field courses and their annual throughput.

FY 2026: Request reflects a 20% plus-up based on FY 2024 actual enrollments and projected additional courses. AFCDA increase based on returning CDCs & additional DoW enrollment demand for certifications and specialty courses.

FY 2027: Reflects a 50,000 enrollment increase for FY 2027 due to Aerospace Maintenance courses that will be launched including 30,000 new maintenance troops, and 20,000 non-maintenance troops.

**Field Training Detachments (FTD)

FY 2025: Reflects increase based on three year enrollment average and additional known requirements identified by several detachments.

FY 2026: Request reflects a 10% increase based on FY 2024 actual enrollments and the activation of 1 new Detachment at Creech AFB. Additionally, the Air Force transition to competency-based training is expected to drive changes from initial skills courses at Sheppard AFB moving to courses at FTDs.

FY 2027: Request increased to 36,500 based on overlapping implementation of competency-based training with Aerospace Maintenance generalist concept.

***FY 2025: myLearning estimated numbers for FY 2025 are based on (1) projected growth of current user base, (2) average monthly engagement with existing training content (recorded in Moodle database), and any potential future course changes for FY 2025.

***FY 2026: myLearning estimated numbers for FY 2026 are based on current trend data (recorded in Moodle), for engagement of training content, changes in overall user population and any potential course changes for out-year (FY 2025, FY 2026, & FY 2027). Expected user enrollment can subsequently fluctuate slightly, based on Air Force end strength for FY 2026.

***FY 2027: myLearning will be decommissioned by the end of FY 2027 2nd Quarter and replaced with enterprise Software as a Service (SaaS) capabilities. Course enrollments and users are projected to substantially decrease as that sunset date approaches and course/student migrations are completed.

****FY2027: myLearning, DAF eLearning and SaaS LMS capabilities support "DAF Learning Services" on the Total Force Awareness Training (TFAT) platform which is the complete ecosystem of IT tools and capabilities used to schedule, manage, track, deliver, assess, and support synchronous and asynchronous training and education for the DAF total force.

Detail by Subactivity Group: Recruiting and Advertising
(\$ In Thousands)**

I. Description of Operations Financed

Recruiting operations provide the required quantity and quality of skills to both prior and non-prior service officer and enlisted personnel. Additionally, it funds recruiting and retention of the highest quality force possible to fulfill Air Force mission requirements. Advertising and event marketing campaigns support both current and long-range accession objectives by building and maintaining public support for the Air Force by advocating the role it plays in national defense and by generating leads for the recruiting force. Advertising supports the following programs: Enlisted Accessions, U.S. Air Force Academy, Reserve Officer Training Corps, Officer Training, Physician, Nurse, Dentist, Bioenvironmental Sciences Corps, Attorneys, Chaplains, and Specialized Recruiting needs (hard-to-fill skills). Advertising and event marketing campaigns are based on Air Force recruiting needs, available funding, and the most effective media mix that supports 11 Active Duty recruiting programs. The pursuit of additional end strength, as well as the pursuit of low density/high demand recruits eligible to become special warfare airmen drives funding requirements in this program.

II. Force Structure Summary

There are three recruiting regions (North East, South West, and Mid-North West) and 28 recruiting squadrons. The North East region includes Michigan to northern South Carolina and Europe regions. The South West region includes Kansas, Missouri, most of Texas, the Caribbean, and Puerto Rico. The Mid-North West region includes the west coast and Pacific regions.

c) Program Growth in FY 2027 \$28,270

1) Active Duty Military End Strength Growth..... \$19,800

Increases funds to support the active duty military end strength growth. The increased funding will cover recruiting and advertising costs associate with growing the force. The increased funding will cover advertising for brand awareness through social media and digital campaigns and recruiting to support candidate processing and strategic outreach. This increase is the first of a multi-year investment to support active duty end strength growth.

Detail by Subactivity Group: Examining
(\$ In Thousands)**

I. Description of Operations Financed

The Examining Activities Program supports development, analysis, and validation of tests and selection processes to optimize selection and classification of accessions to provide the best match of skills and aptitudes to support Total Force mission capability to include emerging requirements and leveraging new analysis and assessment techniques and technology that support best practices and the legal requirements for testing and Department of War requirements for joint-service testing. This is accomplished by predicting training and job success based on current qualifications, supporting the "Right Person" goal of the Air Force Personnel Mission, developing and validating assessment tools, and conducting analysis to establish policy standards. The program encompasses enlisted and officer testing, including the Armed Services Vocational Aptitude Battery (ASVAB), the Strength Aptitude Test (SAT), the Air Force Officer Qualifying Test (AFOQT), and the Test of Basic Aviation Skills (TBAS) used for pilot selection. This program also funds military manning for Military Entrance Processing Stations (MEPS), where all services applicants are processed before basic training.

II. Force Structure Summary

There are 65 MEPS locations throughout the continental United States.

Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Examining
(\$ In Thousands)

c) Program Growth in FY 2027 \$508

1) Civilian Pay - Average Workyear Cost Adjustment..... \$508

Increase funding in Civilian Personnel compensation adjusts average workyear costs. Each year Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these cost changes as well as updated pay raise, awards, and benefit assumptions.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$2,642; FTE Base: 35)

9. Program Decreases \$-336

a) One-Time FY 2026 Costs \$0

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027 \$-336

1) Civilian Pay - Workforce Modernization..... \$-95

Decrease in funding and manpower (**1 FTEs**) reflects workforce modernization efforts to properly align civilian staffing to actual mission requirements within the DAF and to meet internal reorganization efforts and civilian workforce reforms.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$2,642; FTE Base: 35; -1 FTE)

Detail by Subactivity Group: Examining
(\$ In Thousands)

2) Efficiency - Contract Services\$-241

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Off Duty and Voluntary Education
(\$ In Thousands)

I. Description of Operations Financed

The Voluntary Education Program is a recruiting, retention, and readiness tool which provides active duty personnel opportunities for professional and personal development through military tuition assistance for industry recognized credentials and post-secondary education programs.

Specific off-duty programs include the Military Tuition Assistance program and AF Credentialing On-Line Opportunities (AFCOOL) programs, as well as civilian pay, supplies, contracts, training, and infrastructure. The Air Force is directed by Title 10, Sections 2006a and 2007 to provide military tuition assistance.

II. Force Structure Summary

Funding supports Education and Training Sections throughout the Department of the Air Force.

(\$ In Thousands)

1) Commander Assessment Program.....\$-3,920

Decrease reflects a transfer of funds from **Off Duty and Voluntary Education (Subactivity Group 33C -\$3,920)** to Professional Development Education (Subactivity Group 32C +\$3,920), to establish a Commander Assessment Program which will incorporate 360-degree feedback and development strategies to evaluate and identify individual's command potential prior to placement in a formal leadership role.

OP32:

935 Training and Leadership Development

(FY 2026 Base: \$179,267)

8. Program Increases \$33,738

a) Annualization of New FY 2026 Program..... \$0

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$33,738

1) Active Duty Military End Strength Growth..... \$3,308

Increases funds to support the active duty military end strength growth. The increased funding will cover military tuition assistance costs associated with the increased force size. This increase is the first of a multi-year investment to support active duty end strength growth.

OP32:

935 Training and Leadership Development

(FY 2026 Base: \$179,267)

Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Off Duty and Voluntary Education
(\$ In Thousands)

2) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$430
Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$42,910; FTE Base: 357)

3) Restore Off Duty and Voluntary Education - Transfer from Discretionary to Mandatory..... \$30,000
Reflects an increase in Off Duty and Voluntary Education funding to restore baseline funding levels after a decrease in FY 2026 due to a transfer of discretionary funding to be sourced from the Reconciliation Bill (Public Law No: 119-21 - One Big Beautiful Bill Act).

OP32:
935 Training and Leadership Development

(FY 2026 Base: \$179,267)

9. Program Decreases..... \$-23,279

Operation and Maintenance, Air Force
Budget Activity: Training and Recruiting
Detail by Subactivity Group: Off Duty and Voluntary Education
(\$ In Thousands)

1) Civilian Pay - Average Workyear Cost Adjustment.....\$-4,119

Decrease funding in Civilian Personnel compensation adjusts average workyear costs. Each year Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these cost changes as well as updated pay raise, awards, and benefit assumptions.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$43,073; FTE Base: 357)

2) Civilian Pay - Workforce Modernization\$-111

Decreased funding and manpower (**2 FTEs**) reflects workforce modernization efforts to properly align civilian staffing to actual mission requirements within the DAF and to meet internal reorganization efforts and civilian workforce reforms.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$43,073; FTE Base: 357; -2 FTE)

3) Efficiency - Contract Services\$-18,135

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

(\$ In Thousands)

I. Description of Operations Financed:

Air Force civilian employees are vital to mission accomplishment. They provide program continuity, stability, and a historical perspective to counterbalance the military workforce. Dedicated education and training opportunities are essential to effectively fulfill this critical role and will become crucial in reoptimization efforts. This is the Air Force's only budget line for enterprise-wide training for civilians. The Civilian Education and Training Program is comprised of two primary parts. The first is the central salary account (CSA), which contains centrally-managed salary dollars for employees engaged in developmental opportunities including schools and career broadening. These programs enable civilians to gain practical experience in areas outside their primary field of expertise, produce a far greater strategic perspective, and prepare them for future leadership positions. Air Force internship programs provide students in qualifying educational institutions with paid opportunities to work in Air Force organizations while completing their education. The Recent Graduates and Palace Acquire Programs are intended to promote possible careers as Air Force civil servants to individuals who graduated from qualifying institutions with an educational or technical degree or certificate. These programs allow us to competitively recruit top performing college graduates and ensure a vital influx of intelligent, diverse, and creative talent who will become the Air Force's next generation of civilian leaders. It also funds a student loan repayment program and recruitment incentives for mission critical Science, Technology, Engineering, and Mathematics (STEM) and Cyber talent. Additionally, it provides a myriad of technical, professional, and specialized skill training opportunities as well as supervisory and management development programs. This portion of the Education and Training account also supports force development programs that provide a pool of qualified and experienced civilian employees to fill mid-level through Senior Executive Service (SES) positions. These programs include funding for recruiting/marketing of employment opportunities for individuals majoring in STEM disciplines. In some cases, civilian STEM, Cyber, and Acquisition workforce are the sole providers of service to the Department of War and are required to have specific training and development per Title VIII Section 801 §1746a.2 and Section 801 §1746a.3.

II. Force Structure Summary:

This Subactivity group resources Congressionally-mandated and enterprise-wide, education and training opportunities as well as development for approximately 180,000 Air Force civilian employees. This includes Department of Air Force civilians whose salaries are funded from other appropriations.

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$22,722

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$3,908

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$299,738; FTE Base: 2,524)

2) Civilian Pay - Workforce Modernization..... \$18,814

Increase funding and manpower (**339 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Civilian Education and Training established requirements, resulting in a suppressed baseline, which produces a larger year-over-year variance. The FY 2027 request reflects the full requirement necessary to provide program continuity, stability, and a historical perspective to counterbalance the military workforce. This program is essential to effectively fulfill this critical charge.

OP32:

1) Civilian Pay - Average Workyear Cost Adjustment \$-5,183

Decrease in Civilian Personnel compensation adjusts average workyear costs. Each year the Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.OP32:101 Executive General Schedule

(FY 2026 Base: \$299,738; FTE Base: 2,524)

2) Efficiency - Contract Services \$-1,473

The reduction of funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

IV. Performance Criteria and Evaluation Summary:

	<u>FY 2025 Actuals</u>	<u>FY 2026 Enacted</u>	<u>FY 2027 Request</u>
Civilian Education and Training (Training Events)*	106,097	109,280	106,097
Central Salary Account (Workyears)**	2,956	2,783	2,863
Intern Recruitment Bonus Program***	518	750	750

Notes:

* Education/training requirements are mandated by public law, regulation, and/or executive order to support critical day-to-day mission requirements to include development of knowledge and skills. Funds also support operational training for health or safety, development of core competencies and long-term force renewal requirements. These training events pertain to the entire Department of Air Force civilian workforce to include those in the Central Salary Account (CSA).

** Workyears are based on annual funding and are specific to the Central Salary Account only.

*** The Intern Recruitment Bonus Program reflects the numbers of recruitment/retention bonus recipients (not dollars). Includes placement of individuals (across all civilian career fields) in hard to fill locations. Incentives are paid out over a period of three years and varies based on the needs of the department.

I. Description of Operations Financed:

Air Force Junior Reserve Officer Training Corps (JROTC) units are located in high schools throughout the nation and selected Department of War Dependent Schools in Europe and Guam. JROTC is a Title 10 U.S. Code mandated citizenship training program that is designed to educate and train high school cadets in citizenship, promote community services, and instill personal responsibility, character, and self-discipline. The program achieves this through classroom education in air and space fundamentals and hands-on learning opportunities. Funding primarily pays for JROTC instructor pay.

II. Force Structure Summary:

This Subactivity Group's force structure supports JROTC units in the continental United States in addition to JROTC units overseas. There are approximately 85,000 high school cadets in the program across more than 800 locations.

c) Program Growth in FY 2027 \$114,685

1) Civilian Pay - Junior Reserve Officer Corps (JROTC) - Restoral \$8,121

Increase in funding and manpower (**52 FTEs**) to restore the requirements eliminated in the FY 2026 President's Budget and funds manpower requirements as directed by Section 542 of the National Defense Authorization Act for FY 2026.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$0; FTE Base: 4; 52 FTE)

2) Junior Reserve Officer Corps (JROTC) - Restoral and Growth of AF JROTC \$106,564

Increase in funding restores the baseline eliminated in the FY 2026 President's Budget and funds growth as directed by Section 542 of the National Defense Authorization Act for FY 2026. Funds are used to reimburse schools who employ JROTC Officer/NCO instructors to support JRTOC units, in addition to providing funds for operational requirements related to travel and other community building events. The increase sustains 825 current units and provides startup costs for desired growth of 39 units for a total of 864 units in FY 2027.

IV. Performance Criteria and Evaluation Summary

	<u>FY 2025</u> <u>Actuals</u>	<u>FY 2026</u> <u>Enacted</u>	<u>FY 2027</u> <u>Request</u>
USAF JROTC Enrollment (# of cadets)	94,900	90,009	95,648
# of Units	815	802	854
USSF JROTC Enrollment (# of cadets)	1,200	1,120	1,120
# of Units	10	10	10

Notes:

1) FY 2026 USSF includes the 10 authorized SFJROTC units; this number is expected to grow by 2 to 10 units over the FYDP.

2) Cadet costs for curriculum in action trips and leadership development requirements have increased. The current cadets support request is based on \$75 per cadet for FY 2026 and FY 2027.

3) Cadet Leadership Camps (CLC) FY 2026 \$1.5M & FY 2027 \$1.75M.

4) In FY 2026, the average cadets per unit is ~112 cadet. In FY 2027, the projection is 112 cadets per unit.

*In FY 2025, Congress changed the minimum number of cadets from 100 cadet or 10% of the student population to 50 cadets or 10% of the student population. While most units still exceed 100 cadets or more, there has been a slight dip in the average number of cadets per unit.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Logistics Operations
(\$ In Thousands)

I. Description of Operations Financed:

Logistics Operations funds readiness requirements for Air Force Materiel Command's (AFMC) five centers (Air Force Life Cycle Management Center, Air Force Sustainment Center, Air Force Test Center, Air Force Research Laboratory, and Air Force Nuclear Weapons Center), headquarters, Air Force acquisition program executive offices, and several field operating agencies. Logistics Operations contains six major programs: Administrative Support, Logistics Information Technology, Logistics Maintenance and Equipment, Logistics Operations, Nuclear Sustainment, and Transport Services.

Administrative Support primarily includes salaries of civilian personnel, contractor support, supplies/equipment, and travel to support management headquarters for AFMC and other offices supporting logistics operations. Additionally, this program provides support for policy, planning, programming, budgeting, resource management and distribution, personnel matters, quality of life, flight operations, and operational support to airspace management.

Logistics Information Technology (Log IT) sustains operation and maintenance for core Air Force Log IT systems at the depot and retail level. The activity also funds the daily operations and initiatives for business process reengineering.

Logistics Maintenance and Equipment funds the Air Force calibration portfolio as well as life support equipment to include female specific equipment. Air Force calibration program sustains operation and maintenance of the Air Force Primary Standards Laboratory and the development and sustainment of calibration technical orders in support of Precision Measurement Equipment Laboratories (PMEL) Air Force-wide; including contracted labs which ensure weapon system accuracy and reliability. PMEL activities are critical to ensuring equipment is in proper working condition within manufacturer specification enabling safe operations and safety of flight for weapon systems.

Logistics Operations funds civilian personnel and the associated program operating costs of travel, transportation, inventory control, and material management supporting various logistics programs. These programs include: Repair Network Integration, Engine Water Wash (i.e., aircraft engine internal component cleaning to improve operating efficiency), Air Force Petroleum Office (i.e., Air Force Service Control Point for aviation fuels and lubricants), and Tri-Service Joint Oil Analysis Program (i.e., detects bearing and gearbox jet engine failures). Additionally, Logistics Operations funds governance process for planning, management, and reporting of process improvement and business transformation across AF communities.

Nuclear Sustainment funds nuclear surety and certification of legacy Air Force nuclear delivery platforms, as well as maintenance and sustainment of testers for nuclear weapons support. Additionally, this program funds management of the Air Force nuclear stockpile and oversight of associated joint Department of War and Department of Energy projects.

Transport Services consists of three service-wide transportation programs:

1) Second Destination Transportation (SDT), supplies the Air Force with worldwide transportation services which is made up of two primary elements: A) SDT centrally managed account provides for both Continental United States and Outside CONUS (OCONUS) movement of non-defense working capital fund Air Force materiel, such as, vehicles, munitions, aircraft engines, helicopters, and communications equipment between supply and repair facilities or base-to-base as directed by the item manager. B) Port Readiness and Traffic Management provides the information technology and infrastructure at Surface Deployment and Distribution Command designated seaports for the loading and unloading of ocean-going vessels transporting bulk cargo destined to and from, and between overseas locations. Second Destination Transportation

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Logistics Operations
(\$ In Thousands)

(SDT) includes over-ocean air (commercial and Air Mobility Command organic) and sealift (commercial and Surface Deployment and Distribution Command organic) to Outside CONUS (OCONUS) warfighting commands. SDT funds overseas movement of subsistence items (supplies and field rations to dining facilities) for OCONUS units.

2) Defense Courier Service (DCS), established under United States Transportation Command (USTRANSCOM), is the single Department of War (DoW) agency responsible for secure and rapid worldwide distribution of highly classified, time-sensitive national security material and is an integral part of national command authority's command, control and communications systems. DCS is responsible for transporting primarily top secret, sensitive compartmented information, cryptographic keying material and sensitive material. USTRANSCOM establishes and maintains a global courier network that services over five thousand customers, including DoW components, federal agencies, North Atlantic Treaty Organization, United States allies, and government contractors. USTRANSCOM annually receives, processes and delivers nearly two million pounds of materiel. Couriers utilize military and commercial airlift, to include overnight express carriers and small charter aircraft to facilitate secure and expeditious distribution of material. The Air Force reimburses USTRANSCOM for DCS transactions carried out on our behalf.

3) Enterprise Mail supplies worldwide mail transportation services for Department of the Air Force personnel and activities. Enterprise Mail funds mail processed by the United States Postal Service, Air Mobility Command, and Surface Deployment and Distribution Command. U.S. Code Title 39 is the federal guideline which drives the Military Postal Service (MPS) and designates the MPS as an extension of the United States Post Office overseas. Enterprise Mail funds both CONUS and OCONUS mail-related operations.

II. Force Structure Summary:

Logistics Operations: Air Force Materiel Command's five centers (Air Force Life Cycle Management Center, Air Force Sustainment Center, Air Force Test Center, Air Force Research Laboratory, and Air Force Nuclear Weapons Center) provide cradle-to-grave acquisition and logistics support throughout the Air Force.

Defense Courier Service (DCS): USTRANSCOM exercises operational command authority for DCS and the Air Force serves as the executive agency. DCS is composed of the headquarters staff at Scott Air Force Base, Illinois and 18 Defense Courier Stations located in six nations.

8. Program Increases	\$116,187
a) Annualization of New FY 2026 Program.....	\$0
b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$116,187
1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees.....	\$2,093
Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.	
OP32:	
101 Executive General Schedule	
(FY 2026 Base: \$238,857; FTE Base: 1,352; 0 FTE)	
2) Civilian Pay - Workforce Modernization.....	\$22,862
Increased funding and manpower (295 FTEs) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Logistics Operations Program established requirements, resulting in a suppressed baseline, which produces a larger year-over-year variance. The FY 2027 request reflects the full requirement necessary to support essential logistical support services like Repair Network Integration, Engine Water Wash (to improve operating efficiency) and Tri-Service Joint Oil Analysis, which detects aircraft engine failure.	
OP32:	
101 Executive General Schedule	
(FY 2026 Base: \$238,857; FTE Base: 1,352; 295 FTE)

(\$ In Thousands)

3) Restore Logistics Operations - Transfer from Discretionary to Mandatory \$1,932

Reflects an increase in Logistics Operations funding to restore baseline funding levels after a one-time decrease in FY 2026 due to a transfer of discretionary funding to be sourced from the Reconciliation Bill (Public Law No: 119-21 - One Big Beautiful Bill Act).

OP32:

920 Supplies and Materials (Non-DWCF)

(FY 2026 Base: \$27,683)

4) Transport Services - Prepositioning of Large-Scale Exercise Equipment..... \$89,300

Increase funds the Air Force's expanding large-scale exercise portfolio. Transport services enables the strategic prepositioning and redistribution of equipment essential for major exercises such as Mobility Guardian, Resolute Force Pacific (REFORPAC), Freedom Shield, and others throughout the Pacific, European, and Arctic theatres which validate agile combat employment concepts, multi-domain operations, and coalition interoperability under the new Air Expeditionary Wing (AEW) 2.0 construct. The program is a direct enabler of exercise equipment staging, including vehicles, munitions handling equipment, communications systems, and support assets ensuring forces arrive ready to execute complex training scenarios. This increase addresses the growing demand for equipment prepositioning ahead of expanded exercise schedules, which are critical to force readiness, operational concept validation, and strategic deterrence postures.

OP32:

702 AMC SAAM

708 MSC Chartered Cargo

719 SDDC Cargo Operations-Port Handling

771 Commercial Transportation

(FY 2026 Base: \$250,379)

9. Program Decreases \$-95,115

a) One-Time FY 2026 Costs \$-5,000

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Logistics Operations
(\$ In Thousands)

1) P.L. 119-75 - Combat Ready Airman.....\$-5,000
Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act -Combat Ready Airman program.

OP32:
418 AF Retail Supply (GSD)

(FY 2026 Base: \$197,548)

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027\$-90,115

1) Civilian Pay - Average Workyear Cost Adjustment\$-8,082
Decrease in civilian personnel compensation adjusts average workyear costs. Each year, The Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$238,857; FTE Base: 1,352)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Logistics Operations
(\$ In Thousands)

2) Efficiency - Contract Services\$-32,414

The reduction in funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:

418 AF Retail Supply (GSD)

922 Equipment Maintenance by Contract

932 Management & Professional Services

934 Engineering & Technical Services

989 Other Services

(FY 2026 Base: \$662,505)

3) Logistics Maintenance and Equipment - Air Expeditionary Wing (AEW) 2.0\$-49,619

Decrease due to the Department of the Air Force restructuring AEWs to align closer with the current force structure of deployed Wings, limiting additional supply expenses originally required. The restructure optimizes the balance in preserving capacity at the host wing to fulfill the in-garrison mission and defend the homeland while delivering a cohesive wing to deployed commanders maximally ready to fight.

OP32:

IV. Performance Criteria and Evaluation Summary:

Servicewide Transportation consists of three main programs:

1) Second Destination Transportation (SDT), supplies the Air Force with worldwide transportation services which is made up of two primary elements: A) SDT centrally managed account provides for both Continental United States (CONUS) and Outside CONUS (OCONUS) movement of non-defense working capital fund Air Force materiel, such as, vehicles, munitions, aircraft engines, helicopters, and communications equipment between supply and repair facilities or base-to-base as directed by the item manager. B) Port Readiness and Traffic Management, provides the information technology and infrastructure at Surface Deployment and Distribution Command designated seaports for the loading and unloading of ocean going vessels transporting bulk cargo destined to and from, and between overseas locations. SDT includes over-ocean air (commercial and Air Mobility Command organic) and sealift (commercial and Surface Deployment and Distribution Command organic) to OCONUS warfighting commands. SDT funds overseas movement of subsistence items (supplies and field rations to dining facilities) for OCONUS units.

2) Defense Courier Service (DCS), established under United States Transportation Command (USTRANSCOM), is the single Department of War (DoW) agency responsible for secure and rapid worldwide distribution of highly classified, time-sensitive national security material and is an integral part of national command authority's command, control and communications systems. DCS is responsible for transporting primarily top secret, sensitive compartmented information, cryptographic keying

material and sensitive material. United States Transportation Command (USTRANSCOM) establishes and maintains a global courier network that services over five thousand customers, including Department of War (DoW) components, federal agencies, North Atlantic Treaty Organization, United States allies, and government contractors. USTRANSCOM annually receives, processes and delivers nearly two million pounds of materiel. Couriers utilize military and commercial airlift, to include overnight express carriers and small charter aircraft to facilitate secure and expeditious distribution of material. The Air Force reimburses USTRANSCOM for DCS transactions carried out on our behalf.

3) Enterprise Mail supplies worldwide mail transportation services for Air Force personnel and activities. Enterprise Mail funds mail processed by the United States Postal Service, Air Mobility Command, and Surface Deployment and Distribution Command. U.S. Code Title 39 is the federal guideline which drives the Military Postal Service (MPS) and designates the MPS as an extension of the United States Post Office overseas. Enterprise Mail funds both Continental United States (CONUS) and Outside CONUS (OCONUS) mail-related operations. The Mail Overseas line below includes overseas airlift only.

(\$ In Thousands)

I. Description of Operations Financed:

Technical support activities fund Acquisition and Command Support for Headquarters Air Force; the Air Force Life Cycle Management Center (AFLCMC); and the Air Force Operational Test and Evaluation Center (AFOTEC). Acquisition and Command Support provides manpower authorizations and technical/administrative support for the mission, staff functions, and support activities of Headquarters Air Force; AFLCMC and the AFOTEC. Funds provide program office operations for acquiring, managing, and sustaining Air Force financial, logistics, civil engineering, personnel, medical, contracting, and information technology systems. In FY 2023, funding for acquisition workforce development transferred to Subactivity Group 42W.

II. Force Structure Summary:

The Air Force Life Cycle Management Center (AFLCMC) designs, develops, integrates, and acquires Air Force systems, subsystems and rated equipment. The AFLCMC includes the following directorates: Acquisition Excellence, Agile Combat Support, Air Force Security Assistance and Cooperation, Armament, Bombers, Business and Enterprise Systems, Communications, Command, Control and Intelligence Networks, Digital, Fighters and Advanced Aircraft, Intelligence, Surveillance, Reconnaissance and Special Operations Forces, Mobility and Training Aircraft, Presidential and Executive Airlift, Program Execution, Propulsion, and Rapid Sustainment.

The Air Force Operational Test and Evaluation Center (AFOTEC) is the independent agency responsible for managing the Air Force Operational Test and Evaluation (OT&E) program. It is the principal agency providing timely Air Force OT&E information to the Chief of Staff of the Air Force, the Secretary of the Air Force and in turn, the Office of the Secretary of War and Congress. AFOTEC develops OT&E policies and procedures to support Air Force and joint acquisition processes. The center conducts initial, qualification and follow-on OT&E on all programs directed by Headquarters U.S. Air Force. AFOTEC staff support consists of normal operating costs including travel, communications, computer hardware and software, technical contract support, supplies and equipment for the headquarters, five detachments, and 13 operating locations dispersed across the United States.

(\$ In Thousands)

1) Acquisition and Command Support - Digital Material Management \$6,273
Increase reflects transfer to **Technical Support Activities (Subactivity Group 41B +\$6,273)** from Air Force Research, Development, Test and Evaluation (RDT&E)(-\$6,273) for implementation of Air Force Digital Material Management (DMM). DMM seeks to accelerate acquisition through the use of Digital Engineering concepts currently being implemented in the industrial base.

OP32:
925 Equipment Purchases (Non-Fund)

(FY 2026 Base: \$108,492)

b) Transfers Out \$0

8. Program Increases \$9,222

a) Annualization of New FY 2026 Program..... \$0

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$9,222

1) Civilian Pay - Workforce Modernization..... \$1,615
Increased funding and manpower (**17 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Technical Support Activities Program established requirements. The FY2027 request reflects the full requirement necessary to support activities fund Acquisition and Command support for Headquarters Air Force; Air Force Life Cycle Management Center (AFLCMC); and Air Force Operational Test and Evaluation Center (AFOTEC).

OP32:
101 Executive General Schedule

(FY 2026 Base: \$44,449; FTE Base: 218; 17 FTE)

Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Technical Support Activities
(\$ In Thousands)

2) Acquisition and Command Support - Supply Chain Risk Management \$7,006
Increase in funds supports the Supply Chain Risk Management (SCRM) program to better secure U.S. Air Force interests in the global commercial industrial base and denies opportunities for adversaries to exploit operations. Security in the supply chain activities are critical to global missions and to delivering on National Defense Strategies.

OP32:
308 Travel of Persons
922 Equipment Maintenance By Contract

(FY 2026 Base: \$108,492)

3) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees \$601
Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$44,449; FTE Base: 218; 0 FTE)

9. Program Decreases \$-13,146

a) One-Time FY 2026 Costs \$0

b) Annualization of FY 2026 Program Decreases \$0

c) Program Decreases in FY 2027 \$-13,146

Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Technical Support Activities
(\$ In Thousands)

1) Civilian Pay - Average Workyear Cost Adjustment.....\$-2,213

Decrease funding in Civilian Personnel compensation adjusts average workyear costs. Each year the Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these cost changes as well as updated pay raise, awards, and benefit assumptions.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$44,449; FTE Base: 218; 0 FTE)

2) Efficiency - Contract Services.....\$-7,978

The reduction in funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:

915 Rents (Non-GSA)

922 Equipment Maintenance by Contract

932 Management & Professional Support Services

935 Training and Leadership Development (Advisory & Assistance)

989 Other Services

(FY 2026 Base: \$26,210)

3) Efficiency - Travel Budget.....\$-2,955

Reduces discretionary travel funding to align with the Secretary of War's highest priorities to strengthen readiness, modernize capabilities, and sustain the Force.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Administration
(\$ In Thousands)

I. Description of Operations Financed:

The Administration Subactivity Group contains both Enterprise-Wide programs along with funding for Office of the Secretary of the Air Force and Air Staff operations. Enterprise-Wide programs include the Substance Abuse Control Program, Mortuary Affairs, Civilian Compensation, the consolidated Air Force Personnel Center, Air Force Warrior and Survivor Care, Defense Casualty Information Process, USA Jobs and all Air Force Personnel and Manpower systems.

Personnel Administration funds the Military and Civilian Personnel operations of the Air Force enterprise Human Resources domain. This support includes all aspects of the military human relations life cycle, including Personnel Readiness, and providing a 24/7 reach back for home-based and deployed personnel. The Civilian Compensation program supports all civilian employees Air Force-wide by funding Civilian Career Permanent Change of Station relocations and reimbursements to the Department of Labor for both unemployment and disability compensation. Additionally, programs within this Subactivity Group support the Air Force Integrated Personnel Management effort and the consolidated (civilian and military) Air Force Personnel Center. The Integrated Personnel Management transformation effort will link specific Air Force capabilities and systems (promotions, assignments, records management, and training) to the Air Force Integrated Personnel and Pay System. This initiative blends the Regular, Reserve, and Guard components' military personnel policies and business processes into a single set of guidance for all three military components. Additionally, this effort improves integration for all Air Force Military and Civilian Personnel and Manpower computer data systems.

The Management Headquarters program includes personnel and operational funding in direct support of the Air Staff and Secretariat. Funding includes daily operations, Presidential Air and Executive Airlift support for the Air Force Top 4, which includes: Secretary of the Air Force, Undersecretary of the Air Force, Air Force Chief of Staff, and Air Force Vice Chief of Staff. This Program also includes personnel and operational support for the Scientific Advisory Board, responsible for independent reviews of the Air Force Science and Technology program as well as conducting scientific studies specifically directed by the Secretary of the Air Force. The Management Headquarters program also funds requirements for the Secretary of War Financial Management Certification program. The Financial Management Certification program was implemented by the Secretary of War as a result of authority given by the National Defense Authorization Act for fiscal year 2012, Public Law 112-81 to establish professional certification and credentialing standard across the Department of War.

Other personnel support includes Air Force Mortuary Affairs and the Substance Abuse program which ensures mission readiness and fitness of the force through comprehensive substance abuse awareness education, prevention programs, early intervention of substance abuse problems, assessment, and counseling of substance abuse. The Air Force Warrior and Survivor Care program provides recovery, rehabilitation and reintegration care of recovering warriors and their families to fulfill requirements of Public Law 110-181 and subsequent legislation.

II. Force Structure Summary:

The Air Force Personnel Center provides centralized staffing support to Air Force Active Duty installations and Official Personnel File maintenance for all uniformed Air Force members in all components in accordance with the National Archives and Records Administration policy. The Personnel Center generates all source documents affecting the full civilian human relations life cycle which are maintained in the sole authoritative source for civilian personnel records. Air Force personnel receive military and civilian benefits and entitlements services for health, life, and Thrift Savings Plan, as well as retirement and survivorship services from the Center. Funds support the Total Force Service Center operations at San Antonio, Texas and Denver, Colorado, as well as the Information Technology (IT) infrastructure sustainment (consistent with Federal Data Center Consolidation intent) and requisite Disaster Recovery capabilities. The Personnel and Manpower IT systems are the Air Force's single, authoritative source for military personnel and manpower data. The center provides operational support to active duty military and civilian personnel flights worldwide.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Administration
(\$ In Thousands)

1) Civilian Pay - Realignment of Air Force and Space Force Civilians \$10,600
 Increase transfers funding and manpower from **Administration (Subactivity Group 42A, \$10,600, 50 FTEs)** from Special Programs (Subactivity Group 13F, -\$2,120, -10 FTEs), Administration (Subactivity Group 42A, -\$8,480, -40 FTEs), U.S. Space Force, to fund organic civilian professional manpower previously provided by advisory and assistance service contract support. This action effectively aligns Department of Air Force resources directly supporting the Secretary of the Air Force.

OP32:
 101 Executive General Schedule

(FY 2026 Base: \$715,632; FTE Base: 3,689; 50 FTE)

b) Transfers Out \$0

8. Program Increases \$85,782

a) Annualization of New FY 2026 Program..... \$0

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$85,782

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$7,553
 Increase funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:
 101 Executive General Schedule

(FY 2026 Base: \$716,044; FTE Base: 3,689; 0 FTE)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Administration
(\$ In Thousands)

2) Civilian Pay - Workforce Modernization..... \$11,504

Increase funding and manpower **(83 FTEs)** reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Administration Program established requirements. The FY2027 request reflects the full requirement necessary to support Enterprise-Wide programs like Substance Abuse Control program, Mortuary Affairs and Air Force Warrior and Survivor Care, along with funding for Office of the Secretary of the Air Force and Air Staff operations.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$715,632; FTE Base: 3,689; 83 FTE)

3) Servicewide Administration - Alignment of Military Services Integrated Personnel and Pay System..... \$58,400

Funding supports OMB and OPM led effort, "Federal Human Resource (HR) 2.0" to consolidate and modernize federal HR systems and will accelerate activities necessary to meet Defense Finance and Accounting Service (DFAS) enterprise data exchange and data-quality requirements. Without this investment, reliance on Service-specific pay modules creates costly duplication and delays the transition to a single, modernized platform, ultimately compromising pay accuracy, auditability, and timeliness for our Airmen and Guardians. Additionally, these activities directly enable the Department to achieve full auditability.

OP32:

922 Equipment Maintenance By Contract

(FY 2026 Base: \$220,040)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Administration
(\$ In Thousands)

4) Servicewide Administration - Civilian Permanent Change of Station \$8,325

Increase enables the Air Force to comply with General Services Administration final rule amending the Federal Travel Regulation's Temporary Quarters Subsistence Expenses (TQSE) allowances for Civilian Permanent Change of Station (PCS). Updates to the Joint Travel Regulation to comply with these changes requires the use of the Local Temporary Duty (TDY) Per Diem rate versus the Standard Continental United States (CONUS) rate, an increase in the total amount of eligible days, and reimbursement at the full Meals and Incidental Expenses (M&IE) rate versus actual expenses.

OP32:

308 Travel of Persons

771 Commercial Transportation

(FY 2026 Base: \$83,281)

9. Program Decreases \$-34,736

a) One-Time FY 2026 Costs \$-800

1) P.L. 115-68 - Women, Peace, and Security Act \$-800

Decrease in funding following one-time increase provided in H.R. 7418 Consolidated Appropriations Act, 2026 for implementation of Public Law 115-68 Women, Peace, and Security Act of 2017.

OP32:

920 Supplies & Materials (Non-Fund)

(FY 2026 Base: \$6,996)

b) Annualization of FY 2026 Program Decreases \$0

c) Program Decreases in FY 2027 \$-33,936

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Administration
(\$ In Thousands)

1) Civilian Pay - Average Workyear Cost Adjustment.....\$-12,392

Decrease in civilian personnel compensation adjusts average workyear costs. Each year, the Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these changes as well as updated pay raise, awards and benefit assumptions.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$715,632; FTE Base: 3,689)

2) Civilian Pay - Federal Employee Retirement System - Agency Contribution Rates Assumption.....\$-11,342

Decrease funding to align with the adjusted Federal Employees Retirement System (FERS) contribution rates. These adjustments incorporate updated actuarial assumptions, workforce demographics shifts, and revised projections of retirement liabilities.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$715,632; FTE Base: 3,689)

3) Efficiency - Contract Services.....\$-4,879

The reduction in funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:

920 Supplies & Equipment (Non-Fund)

923 Operation and Maintenance of Facilities

932 Management & Professional Support Services

989 Other Services

(FY 2026 Base: \$467,636)

(\$ In Thousands)

I. Description of Operations Financed:

Air Force Servicewide Communications programs provide reliable and secure communications to provide mission assurance and support for networks, radio, telephone, and infrastructure systems at Air Force installations worldwide. The High Frequency (HF) radio programs provide communications to aircraft and ground stations around the world supporting command and control, special purpose, and contingency communications. The Air Force will continue to provide cyberspace and communications services for military and business operations while also addressing security and performance solutions. These capabilities are worldwide mobile for any environment and provide temporary data and communications activities (including reconstitution) as necessary, for Joint and coalition operations.

II. Force Structure Summary:

Servicewide Communications provide delivery of essential voice, network, and radio services to Air Force personnel stationed at all major active Air Force installations worldwide. The radio portion of this program sustains global high-frequency radio broadcast stations around the world.

(\$ In Thousands)

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$914

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$53

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$4,590; FTE Base: 25; 0 FTE)

2) Operational Communication and Enterprise Communication Connections \$708

Increase reflects minor adjustment to overall mission support activities to include data processing and support services for the Chief Data Officer and Chief Information Officer.

OP32:

671 DISA DISN Subscription Services

914 Purchased Communications (Non-DWCF)

920 Supplies and Materials (Non-DWCF)

922 Equipment Maintenance by Contract

(FY 2026 Base: \$37,629)

Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Servicewide Communications
(\$ In Thousands)

3) Restore Servicewide Communications - Transfer from Discretionary to Mandatory \$153
 Reflects an increase in Servicewide Communications funding to restore baseline funding levels after a one-time decrease in FY 2026 due to a transfer of discretionary funding to be sourced from the Reconciliation Bill (Public Law No: 119-21 - One Big Beautiful Bill Act).

OP32:
 920 - Supplies and Materials

(FY 2026 Base: \$4,890)

9. Program Decreases \$-1,098

a) One-Time FY 2026 Costs \$0

b) Annualization of FY 2026 Program Decreases \$0

c) Program Decreases in FY 2027 \$-1,098

1) Civilian Pay - Average Workyear Cost Adjustment \$-1,098
 Decrease funding in Civilian Personnel compensation and manpower **(-1 FTE)** adjusts average workyear costs. Each year Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The adjustment is a result of these cost changes as well as updated pay raise, awards, and benefit assumptions.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Environmental Restoration
(\$ In Thousands)

I. Description of Operations Financed:

The Department of the Air Force (DAF) Environmental Restoration Program, is the DAF's specific implementation of the broader Department of War's Defense Environmental Restoration Program (DERP) and is funded from the Defense Environmental Restoration Account (DERA). It addresses environmental concerns, mainly contamination, at active and closed Air Force installations stemming from past activities. While adhering to the overall DERP framework and objectives, the DAF Program has its own specific nuances and priorities related to its unique operational history and types of contaminants typically encountered. Beginning in FY 2024, DERA moved from being managed in Subactivity Group 042G to 042D.

Similar to the overall DERP, the DAF ERP focuses on investigating, remediating, and monitoring contamination. However, it often deals with contamination specific to Air Force operations, such as fuels (e.g., jet fuel, gasoline), firefighting chemicals (e.g., Aqueous Film Forming Foam (AFFF) containing PFAS, metals (e.g., from aircraft maintenance and industrial processes), solvents (e.g., used in degreasing and other operations), and munitions and explosives of concern (MEC).

The Air Force Civil Engineer Center (AFCEC) provides centralized management and oversight for the DAF Environmental Restoration Program. They ensure compliance with federal, state, and local environmental laws and regulations, as well as Air Force-specific policies. Each Air Force installation has its own environmental restoration program office tailored to its specific needs and contamination issues. These programs are managed by installation environmental personnel, who work closely with AFCEC and other stakeholders.

The DAF ERP emphasizes the development and application of innovative technologies for site characterization and remediation. This includes researching and implementing more efficient and cost-effective cleanup methods. Similar to the overall DERP, the DAF ERP emphasizes community involvement and transparency. They work with local communities and regulatory agencies to address concerns and ensure effective communication throughout the cleanup process.

The DAF ERP also plays a crucial role in cleaning up former Air Force installations closed under the Base Realignment and Closure (BRAC) program. This allows for the properties to be safely reused and redeveloped. Increasingly, the DAF ERP is incorporating sustainability principles into its cleanup efforts. This includes minimizing waste, reducing energy consumption, and promoting the use of green remediation technologies.

In summary, the Department of the Air Force ERP is a critical program for addressing the legacy of environmental contamination at Air Force installations. It operates within the broader DERP framework but has specific focuses and priorities related to the Air Force's unique mission and operational history. The program strives to protect human health and the environment while also supporting the Air Force's current and future operational needs.

Funding in this Subactivity Group is reflective of prior year actual expenditures only. There are no programmed budgets for Environmental Restoration.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Other Servicewide Activities
(\$ In Thousands)

I. Description of Operations Financed:

Other Servicewide Activities fund various programs that support Air Force units around the world. These include the Air Force portion of the Department of War (DoW) Counter-Drug Program, Public Affairs and Communications programs, Engineering, Installation, and Information Management Automation Program, Paperless Contracting, Sexual Assault Prevention Response, servicewide support including field operating agencies, the Operational Capability and Air Power Assessment Programs, as well as the Productivity Investment Program and GeoBase installation mapping and visualization program. Other Servicewide Activities also funds support costs to the DoW Executive Agency Personnel Recovery support through Joint Personnel Recovery Agency, Civil Air Patrol - United States Air Force, Chaplain Service Worldwide Support Program, and Arms Control. Arms Control encompasses all efforts directly associated with implementing arms treaties and agreements such as Conventional Forces Europe, Open Skies, Intermediate Nuclear Forces Treaty and Chemical Weapons Convention. Funding supports: on-site inspections; monitoring and compliance with arms control agreements, planning and preparation activities; and relocation, modification, retirement or destruction of equipment. This Subactivity Group also funds flying hours for the Open Skies aircraft. The counter-proliferation program studies, analyzes and implements support to the Air Force's Counter-Chemical, Biological, Radiological and Nuclear (C-CBRN) mission area. The functional areas contained in C-CBRN operations include weapons of mass destruction, chemical and biological agents and any dangerous technologies, events or situations. This Subactivity Group finances Department of War Inspector General financial statement audits which attest to the accuracy and reliability of Air Force financial information; the effectiveness of Air Force internal controls; Air Force compliance with laws and regulations; and Air Force compliance with federal accounting standards and federal financial systems; and standard procurement systems requirements.

II. Force Structure Summary:

Funding supports Headquarters Air Force, Major Commands, Direct Reporting Units, and Field Operating Agencies.

Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Other Servicewide Activities
(\$ In Thousands)

1) Communications and IT - Enterprise Authorizing Official Funds \$6,160

Increase reflects a transfer of funds to **Other Servicewide Activities (Subactivity 42G +\$6,160)** from Cyberspace Activities (Subactivity 12D -\$6,160), to align programmed funding with historical execution of the funds supporting the Enterprise Authorizing Official. The Enterprise Authorizing Official is the authority permitted to grant an approval to connect to the Air Force information networks. The funds enhance the Air Force's ability to conduct cyber-security risk assessments and sustains the foundational capability to secure and connect Information Technology (IT) systems to the Air Force Information Network.

OP32:

914 Purchased Communications (Non-Fund)

(FY 2026 Base: \$28,325)

2) Servicewide Activities - Nuclear Deterrence Operations \$2,000

Increase reflects a transfer of funds to Depot Purchase Equipment Maintenance (Subactivity 11M +\$11,100), Global C3I and Early Warning (Subactivity 12A +\$17,400), Other Combat Operations Support Programs (Subactivity 12C +\$7,600), Mobilization Preparedness (Subactivity 21D +\$7,800), **Other Servicewide Activities (Subactivity 42G +\$2,000)**, and Research, Development, Test, and Evaluation (RDT&E), Air Force (+\$7,100) from Combatant Command Mission Operations - USSTRATCOM (Subactivity 15D -\$53,000) in support of Nuclear Deterrence Operations high-priority items within the nuclear portfolio in order to optimize resource allocation and ensure long-term sustainability of nuclear deterrent capabilities.

OP32:

308 Travel of Persons

(FY 2026 Base: \$26,582)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Other Servicewide Activities
(\$ In Thousands)

1) Civilian Pay - DLA Permanent Change of Station Joint Task Force.....\$-24,100
Decrease transfer funding and manpower from **Other Servicewide Activities (Subactivity Group 42G, -\$24,100, -259 FTEs)** to Defense Logistics Agency (DLA) to establish the Personnel Property Activity (PPA) in accordance with the Secretary of War's (SW) memo titled Personal Property Activity Implementation Memorandum dated January 21, 2026. The PPA was established to modernize and overhaul household goods moving process, aiming to improve accountability, and reduce delays.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$622,910; FTE Base: 4,541; -259 FTE)

2) Civilian Pay - AFMAA Workforce Mix\$-611
Decrease transfer funding and manpower from **Other Servicewide Activities (Subactivity Group 42G, -\$611, 8 FTEs)** to U.S. Air Force Military Personnel. The realignment implements May 2025 CORONA SOUTH Decision Brief on Integrated Manpower Management by adjusting AFMAA workforce skillsets to achieve higher analytic capabilities.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$622,910; FTE Base: 4,541; -8 FTE)

8. Program Increases	\$79,320
a) Annualization of New FY 2026 Program.....	\$0
b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$79,320

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Other Servicewide Activities
(\$ In Thousands)

1) Civilian Pay - Workforce Modernization..... \$11,534

Increase funding and manpower (**168 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Other Servicewide Activities Program established requirements. The FY2027 request reflects the full requirement necessary to support Air Force units around the globe.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$687,860; FTE Base: 4,696; 168 FTE)

2) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$8,778

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$687,860; FTE Base: 4,696; 0 FTE)

3) Civilian Pay - Average Workyear Cost Adjustment..... \$26,058

Increase funding in Civilian Personnel compensation adjusts average workyear costs. Each year Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these cost changes as well as updated pay raise, awards, and benefit assumptions.

OP32:

101 Executive General Schedule

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Other Servicewide Activities
(\$ In Thousands)

4) Defense Finance & Accounting Service (DFAS) \$9,913
 Increase to fee-for-service support costs for the accounting, payroll, and financial management services provided by DFAS to the U.S. Air Force, U.S. Space Force, and U.S. Special Operations Command.

OP32:
 914 Purchased Communications (Non-Fund)

(FY 2026 Base: \$290,264)

5) Servicewide Activities - Financial Improvement & Audit Readiness \$23,037
 Increase to Financial Improvement and Audit Readiness (FIAR) program to accelerate the Department of the Air Force (DAF)'s progress toward delivering fully auditable financial statements. These resources are dedicated to enhancing the effectiveness of the DAF's internal controls, ensuring compliance with all federal laws and accounting standards, and guaranteeing the accuracy of financial information. This investment reinforces the Department's commitment to total accountability and financial transparency and is a foundational component of the strategy to secure a clean, unmodified audit opinion in Fiscal Year (FY) 2028, thereby validating the trust placed in us by Congress and the American public to be faithful stewards of taxpayer dollars.

OP32:
 932 Management & Professional Services

(FY 2026 Base: \$248,432)

9. Program Decreases \$-63,746

a) One-Time FY 2026 Costs \$-2,200

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Other Servicewide Activities
(\$ In Thousands)

1) P.L. 119-75 - Joint Personnel Recovery Agency\$-2,200
Decrease in funding following a one-time increase provided in P.L. 119-75 FY 2026 Consolidated Appropriations Act -Joint Personnel Recovery Agency.

OP32:
935 Training and Leadership Development (Advisory & Assistance Services)

(FY 2026 Base: \$30,566)

b) Annualization of FY 2026 Program Decreases..... \$0

c) Program Decreases in FY 2027\$-61,546

1) Efficiency - Contract Services\$-20,019
The reduction in funding for contract services is undertaken in direct support of the President's executive order, which prioritizes cost efficiency, transparency, and the consolidation of services. This measure represents a deliberate workforce optimization strategy designed to streamline resources while safeguarding against adverse impacts to modernization initiatives and overall mission effectiveness.

OP32:
922 Equipment Maintenance By Contract
932 Management & Professional Services
935 Training and Leadership Development (Advisory & Assistance Services)
987 Other Intra-Government Purchases

(FY 2026 Base: \$255,441)

DEPARTMENT OF THE AIR FORCE

Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Other Servicewide Activities
(\$ In Thousands)

2) Efficiency - Supplies and Materials\$-19,178
 Reduces funding for supplies and materials to align with historical execution levels and ensure alignment with the priorities of the Secretary of War to improve the efficiency and effectiveness of our mission and business operations.

OP32:
 920 Supplies & Materials (Non-Fund)

(FY 2026 Base: \$53,185)

3) Efficiency - Travel Budget\$-8,449
 Reduces discretionary travel funding to align with the Secretary of War's highest priorities to strengthen readiness, modernize capabilities, and sustain the Force.

OP32:
 308 Travel of Persons

(FY 2026 Base: \$26,582)

4) Servicewide Support - Litigation Support.....\$-13,900
 Decrease reflects a return to baseline funding levels after initial investment of funds in FY2026 for litigation support and other associated costs related to reinstating service members. The funds were used to support Executive Order 14184 "Reinstating Service Members Discharged Under the Military's COVID-19 Vaccination Mandate".

OP32:
 959 Other Costs (Insurance Claims and Indemnities)

(FY 2026 Base: \$392,413)

(\$ In Thousands)

I. Description of Operations Financed:

The Civil Air Patrol (CAP) is a federally chartered non-profit organization. Established and purposed under United States Code (USC) Title 36, the CAP is a federal grant recipient. As a grant recipient, the CAP uses federally provided resources via a cooperative agreement to provide public purpose missions and support mandated by law. As Executive Agent, the United States Air Force is required to provide fiscal oversight of funding via the cooperative agreement and maintain involvement in operational processes. The Secretary of the Air Force (SECAF) may provide additional funding or resources, in accordance with USC Title 10 Section 9441 - 9448, to employ the CAP to conduct missions on behalf of the SECAF. When executing any federal mission the CAP is an official civilian auxiliary of the Air Force. As a civilian auxiliary of the Air Force, the SECAF may use the services of CAP to fulfill any non-combat programs and missions of the Air Force or any other federal agency. The National Search and Rescue Plan tasks the Air Force with the responsibility for coordinating inland search and rescue operations in the United States and CAP is the primary Air Force resource to conduct these operations. The CAP also provides disaster relief support, drug interdiction operations, live organ transport, aerospace education, cadet programs, and Reserve Officer Training Corps orientation flights. This Subactivity Group includes funding for the operations of CAP Corporation and Headquarters Civil Air Patrol.

II. Force Structure Summary:

Funding supports compensation and benefits for key staff at regional, state, or territorial headquarters; readiness training; and some Air Force non-combat programs/missions conducted within the Civil Air Patrol's eight geographic regions. These regions include 52 wings spread across the continental United States, Alaska, Hawaii, Puerto Rico, and the District of Columbia. The Civil Air Patrol also performs other missions on a fly-for-fee basis.

IV. Performance Criteria and Evaluation Summary:

There is no performance criteria for this Subactivity Group.

Per 36 United States Code 40301-40302, the Civil Air Patrol is a federally chartered corporation with perpetual existence, with the following purposes:

- (1) To provide an organization to: Encourage and aid citizens of the United States in contributing their efforts, services, and resources in developing aviation and in maintaining air supremacy. Encourage and develop by example the voluntary contribution of private citizens to the public welfare.
- (2) To provide aviation education and training especially to its senior and cadet members.
- (3) To encourage and foster civil aviation in local communities.
- (4) To provide an organization of private citizens with adequate facilities to assist in meeting local and national emergencies.
- (5) To assist the Department of the Air Force in fulfilling its noncombat programs and missions. Per 36 USC 40307, the corporation submits an annual report to Congress on the activities of the corporation during the prior fiscal year.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Defense Acquisition Workforce Development Account
(\$ In Thousands)

I. Description of Operations Financed:

Established under 10 USC 1705 in 2008, the Defense Acquisition Workforce Development Account (DAWDA) ensures the Department of War (DoW) acquisition workforce has the personnel and skills to: (1) fulfill its mission, (2) oversee contractor performance, and (3) secure best value for public resources.

A skilled acquisition workforce is critical to delivering warfighting capabilities at the speed of relevance and maintaining military readiness. The DoW remains committed to collaborating with Congress to ensure the workforce is adequately staffed and trained.

The Department of the Air Force (DAF) leverages DAWDA to recruit, train, and retain acquisition personnel, funding initiatives such as:

- Training and retention incentives for the Warfighting Acquisition Workforce (WAW).
- Research to improve acquisition policies and practices.
- Bridge funding for salaries, rewards, and incentives.

DAWDA supports DAF priorities, including enduring education, formal acquisition training, and development in advanced technologies, aligning with the DoW's Acquisition Transformation Strategy (Pillar 2: Elevate and Empower the Workforce). Key programs include Acquisition Initial Qualification Training (AIQT) for Space WAW, Education with Industry (EWI), and mission engineering via digital threads to accelerate kill chains across Space and Air domains. Future initiatives, such as the Defense Civilian Training Corps (DCTC), are also supported.

DAWDA remains essential for enabling the DAF to execute the Office of the Under Secretary of War for Acquisition and Sustainment (OSW(A&S)) Acquisition Transformation Strategy in current and future fiscal years.

II. Force Structure Summary:

Defense Acquisition Workforce Development Account (DAWDA) funding benefits and supports the nearly 47,000 military and civilian acquisition personnel across the Department of the Air Force (DAF) spanning nine Air Force Major Commands (MAJCOMs) and three Space Force Field Commands (FLDCOMs). In addition to supporting the DAF structure, DAWDA funding is provided to support military and civilian acquisition personnel assigned to several unified joint-service Combatant Commands including the U.S. Special Operations Command (USSOCOM), the U.S. Transportation Command (USTRANSCOM), and the U.S. Space Command (USSPACECOM).

The DAF uses DAWDA to support three main categories of initiatives:

Education/Training and Development:

The DAF leverages approximately 68% of its annual DAWDA funding on Education/Training and Development for its Acquisition Workforce.

The DAF funds the development and delivery of formal acquisition training courses and workshops by the Air Force Institute of Technology (AFIT) School of Systems and Logistics, such as the kinesthetic, competency focused Fundamentals of Acquisition management (FAM 104) course; as well as the AFIT Cyberspace Technical Center of Excellence (CyTCoE) to enable Artificial Intelligence (AI) capabilities and competencies within the WAW overall. Leadership development, consistent upskilling, and a

(\$ In Thousands)

concerted focus on revolutionizing competency-based training for the Warfighting Acquisition Workforce (WAW) are key components to ensure the Department of the Air Force (DAF)'s acquisition cadre is well suited to not only address today's programmatic issues as they interact with industry counterparts, but to think more strategically and be better suited to address future challenges.

The DAF Acquisition Civilian Tuition Assistance (TA) program and the DAF Advanced Academic Certificate/Degree program benefit the acquisition workforce by increasing education levels and providing another quality recruiting and/or retention incentive tool making the Air Force/Space Force a more attractive/competitive employer to the available talent pool.

Because of increased need to leverage the Defense Acquisition Workforce Development Account (DAWDA) for emerging needs such as Office of the Under Secretary of War for Acquisition & Sustainment OSW(A&S) Acquisition Transformation Strategy, the DAF expects to see new Education/Training and Development emerge as a direct result, including creating new training opportunities that support the Warfighting Acquisition University (WAU) priorities, Bird of Prey and digital initiatives, and unique DAF-centric training follow-on or complimentary courses.

Analytics and Management Support:

The DAF leverages approximately 2% of its annual DAWDA funding on Analytics and Management Support of the DAWDA program in support of its Acquisition Workforce. The DAF leverages this funding primarily in direct support of Acquisition Workforce Reform, to enhance the ability of the acquisition workforce to take advantage of the most modern, cutting-edge tools that are available, including support for Digital Engineering, Cyber, Software Acquisition efforts, Large Language Modeling (LLM), Artificial Intelligence, and Adaptive Acquisition Framework (AAF).

Recruiting, Retention, and Recognition:

The DAF leverages approximately 30% of its annual DAWDA funding on Recruiting, Retention, and Recognition of its Acquisition Workforce.

The ability to offer hiring incentives (recruitment bonus and/or student loan repayment and tuition assistance) is a decisive factor for DAF hiring, with incentives used to attract high-quality candidates to high-demand, critical skills in areas such as aeronautical engineering, aerospace engineering, electronics engineering, software engineering, computer science, cyber, digital, logistics, finance, cost estimating and business. Hiring incentives enable leveling of the playing field when the DAF is competing with entry-level industry salaries which are, on average, 30% higher than what the DAF can offer.

The DAF's central recruiting team continues to utilize DAWDA funding for recruiting and outreach, including professional LinkedIn licenses, advertising through various venues, expanded outreach equipment, and the development of more secure and innovative recruiting tools.

OSW(A&S) Acquisition Transformation Strategy will require expanded DAWDA funding dedicated to both recruiting and retention efforts in support of the strategy. Additional focus on and leveraging of recruiting and retention incentives will be needed to expand our current effort to provide incentives to attract top talent from industry and to keep our best leaders in the job longer to deliver the best acquisition results.

Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Defense Acquisition Workforce Development Account
(\$ In Thousands)

The Department of the Air Force (DAF) previously used Defense Acquisition Workforce Development Account (DAWDA) funding for a fourth category (Hiring) from its inception in FY08 until FY20. Although the DAF does not currently have a requirement for this spending category in FY27, the implementation of the acquisition transformation strategy may require the Department to monitor and respond to emerging acquisition workforce needs as a result of the implementation and, if need be, will adjust funding across the other spending categories within DAWDA during the year-of-execution, while balancing risk accordingly.

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$297

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$19,077; FTE Base: 76; 0 FTE)

2) Civilian Pay - Average Workyear Cost Adjustment..... \$9,860

Increase funding in Civilian Personnel compensation adjusts average workyear costs. Each year Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these cost changes as well as updated pay raise, awards, and benefit assumptions.

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: Security Programs
(\$ In Thousands)

I. Description of Operations Financed:

Security Programs include the Air Force Office of Special Investigations (AFOSI), the Department of War Cyber Crime Center (DC3), and counterintelligence (CI) which support the Comprehensive National Cybersecurity Initiative (CNCI). AFOSI is a field operating agency, accountable to the Secretary of the Air Force, under the direction and guidance of the Inspector General of the Air Force. AFOSI is a combat-ready military organization providing the Air Force a wartime capability to conduct, in hostile and uncertain environments, counter-threat operations to find, fix, track and neutralize enemy threats. The organization is the Air Force's focal point for working with United States and foreign nation law enforcement and security services in order to provide timely and accurate threat information in all environments. It also performs as a federal law enforcement agency with responsibility of conducting criminal investigations (CI), and specialized investigative activities, protective service operations, critical information infrastructure protection (CIIP), and CI support to force protection, research and technology protection, and technical services. This program funds manpower authorizations, support equipment, necessary facilities and the associated costs specifically identified and measurable to support CI operations, investigations, collection, analysis, and production. AFOSI is also the Executive Agent for the Air Force Polygraph Examination and Technical Surveillance Countermeasures programs. The program also funds the CI support to six Combatant Commands and Defense Agencies. Additionally, the program funds portions of DC3, for which the Air Force serves as Executive Agent with AFOSI as the Program Manager. DC3 provides digital forensic analysis of computer media crime investigations training and research, development, testing and validation for digital forensic tools for both Air Force and Department of War criminal investigative and counterintelligence organizations. The Air Force Liaison Office (Investigation Processing Center) and the Air Force Central Adjudication Facility (AFCAF) are resourced through this Subactivity Group. AFCAF is the sole organization responsible for rendering security determination for the Air Force and supports the Air Force at every operational echelon. Details on classified programs are provided separately upon request.

II. Force Structure Summary:

The AFOSI program's force structure includes 168 CONUS regions, squadrons, detachments, operating locations and 65 overseas regions, squadrons, detachments, and operating locations.

a) Annualization of New FY 2026 Program.....	\$0
b) One-Time FY 2027 Costs	\$0
c) Program Growth in FY 2027	\$104,610

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$1,455
Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:
101 Executive General Schedule

(FY 2026 Base: \$638,547; FTE Base: 3,664)

2) Civilian Pay - Workforce Modernization..... \$1,936
Increase funding and manpower (**54 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the Security Program established requirements. The FY2027 request reflects the full requirement necessary to support security programs that include Air Force Office of Special Investigations (OSI) and counterintelligence (CI).

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: International Support
(\$ In Thousands)

I. Description of Operations Financed:

Operations support the North Atlantic Treaty Organization (NATO), Supreme Headquarters Allied Powers Europe (SHAPE), North Atlantic Treaty Organization Airborne Early Warning and Control (NATO AEWG) program, Cooperative Defense Initiative program, and other international headquarters support. The Technology Transfer Program, which controls the transfer of critical Air Force technologies to foreign governments, is also included in this Subactivity Group.

The Support to Other Nations Program supports military-to-military and civilian-to-civilian engagements with Latin American countries that include participation by 12th Air Force, United States Air Force Academy, and Deputy Under Secretary of the Air Force for International Affairs; payment of fees for International Cooperation Administration Support Services provided by Department of State for Air Force personnel located overseas, and travel support to the Inter-America Defense Board and College.

The International Activities program provides for the management and implementation of International Cooperative Research, Development, and Acquisition (ICRDA) agreements with NATO and major non-NATO allies to significantly improve U.S. and allied conventional defense capabilities. These cooperative efforts build relationships with international partners, increase interoperability and enhance coalition capabilities. Funding supports U.S. Air Force International Armaments Cooperation activities to identify beneficial cooperative Research Development projects and to develop, process, negotiate, and oversee international agreements for projects relating to air, space and cyberspace. Funding supports partnership building capacities and U.S. Air Force training, encompassing a military-to-military engagement with Poland through the rotation of U.S. aircraft and Poland's aviation detachment.

The Strategic Airlift Capability / Heavy Airlift Wing (SAC-HAW) is an independent and multinational program providing strategic airlift to 12 partner nations by owning/operating three Boeing C-17 Globemaster III cargo jets at Papa Air Base, Hungary. The U.S. Air Force lends one C-17 aircraft to the program and the U.S. is responsible for approximately one third of the overall program costs. Funding contributes to aircraft maintenance, training, flying hours, and other operational support costs. The HAW provides a full range of strategic and tactical airlift to each nation in support of NATO, European Union (EU), and United Nations (UN) military operations.

II. Force Structure Summary:

This Subactivity Group's force structure supports ten international activities, six international headquarters, one main operating base, and 17 NATO aircraft to build enduring relationships with global air forces to support mutual security interests.

(\$ In Thousands)

b) One-Time FY 2027 Costs \$0

c) Program Growth in FY 2027 \$2,394

1) Civilian Pay - Enhanced Performance Award Pool for DoW Civilian Employees..... \$13

Increased funding strengthens the Department's ability to recognize and reward the civilian workforce whose expertise and continuity underpin mission success. Expanded award capacity helps retain the talent that sustains warfighter readiness, drives innovation, and ensures uninterrupted support across the enterprise. Investing in civilian recognition directly reinforces the workforce that delivers stability, operation excellence, and long-term capability for the Department.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$5,515; FTE Base: 3,063)

2) Civilian Pay - Workforce Modernization..... \$1,470

Increase funding and manpower (**65 FTEs**) reflects the alignment of civilian staffing to validated mission requirements pursuant to Executive Order 14210, implementing the President's Department of Government Efficiency Workforce Optimization Initiative and the March 2025 Deputy Secretary of War memorandum. The Air Force conducted comprehensive data-hygiene and manpower-validation efforts, resulting in a correction where FY2026 staffing levels were set below the International Support Program established requirements. The FY2027 request reflects the full requirement necessary to build enduring relationships and support mutual security interests.

OP32:

101 Executive General Schedule

(FY 2026 Base: \$5,515; FTE Base: 3,063; 21 FTE)

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: International Support
(\$ In Thousands)

3) International Activities\$911

Increase for International Activities supports the DAF's effort to support multinational operations by funding costs associated with System of Cooperation Amongst American Air Forces (SICOFAA) engagements which enhance interoperability and foster cooperation with allied Air Forces, and it covers International Cooperative Administrative Support Services (ICASS) costs associated with U.S. Department of State support for U.S. Air Force personnel overseas.

OP32

920 Supplies & Materials (Non-Fund)

987 Other Intra-Government Purchases

(FY 2026 Base: \$51,412)

9. Program Decreases\$-14,451

a) One-Time FY 2026 Costs\$0

b) Annualization of FY 2026 Program Decreases.....\$0

c) Program Decreases in FY 2027\$-14,451

1) Civilian Pay - Average Workyear Cost Adjustment.....\$-5,979

Decrease funding in Civilian Personnel compensation adjusts average workyear costs. Each year Air Force uses detailed execution and cost factor analysis to update civilian compensation costs for the purpose of accurately forecasting budget estimates for the civilian workforce. The Subactivity Group average cost adjustment is a result of these cost changes as well as updated pay raise, awards, and benefit assumptions.

OP32:

DEPARTMENT OF THE AIR FORCE
Fiscal Year (FY) 2027 Budget
Operation and Maintenance, Air Force
Budget Activity: Administration and Servicewide Activities
Detail by Subactivity Group: International Support
(\$ In Thousands)

2) Efficiency - Travel Budget \$-2,572
 Reduces discretionary travel funding to align with the Secretary of War's highest priorities to strengthen readiness, modernize capabilities, and sustain the Force.

OP32:
 308 Travel of Persons

(FY 2026 Base: \$9,794)

3) International Activities - C-17 NATO Operations \$-5,900
 Decrease reflects an adjustment to the North Atlantic Treaty Organization (NATO) C-17 airlift operations program in support of multinational heavy airlift operations at Papa AB, Hungary. This adjustment aligns programmed funds with historical execution and demand.

OP32:
 987 Other Intra-Government Purchases

(FY 2026 Base: \$47,110)
